Subject index for Volume 79
(January through December 2001)

A

α-Tocopherol
Effect of dietary oils and α-tocopheryl acetate supplementation on lipid (TBARS) and cholesterol oxidation in cooked pork, 1201
α-Tocopheryl
Effects of three levels of α-tocopheryl acetate supplementation to feedlot cattle on performance of beef cuts during retail display, 1814
Absorption
Influence of α-linked glucose on sodium-glucose cotransport activity along the small intestine in cattle, 1917
Uptake and excretion of organochlorine compounds in neonatal calves, 155
Accuracy
Genetic parameter estimates from joint evaluation of purebreds and crossbreds in swine using the crossbred model, 3002
Acid Base Disorders
Technical Note: Using calcium carbonate as an osmolar control treatment for acid-base studies in horses, 1858
Acyl-CoA Desaturase
Rapid communication: Mapping of the bovine stearoyl-coenzyme A desaturase (*SCD*) gene to BTA26, 1955
Adenosine Triphosphatase
Rapid communication: Chromosomal localization and partial cDNA sequence of the porcine ATP synthase, H^+ transporting, mitochondrial F0 complex, subunit e (*ATP5I*) gene, 1353
Adipic Acid
Adipic acid increases plasma lysine but does not improve the efficiency of lysine utilization in swine, 2406
Dietary adipic acid reduces ammonia emission from swine excreta, 2412
Adipocytes
Porcine leptin alters insulin inhibition of lipolysis in porcine adipocytes in vitro, 653
Transcriptional regulation of fatty acid synthase gene by somatotropin in 3T3-F442A adipocytes, 2336
Adipose Tissue
Analysis of the signal pathways involved in the regulation of fatty acid synthase gene expression by insulin and somatotropin, 1194
Effects of recombinant ovine leptin on in vitro lipolysis and lipogenesis in subcutaneous adipose tissue from lactating and nonlactating sheep, 445
Effects of the perfusion of β-, β2-, or β3-adrenergic agonists or epinephrine on in situ adipose tissue lipolysis measured by microdialysis in underfed ewes, 453
Adrenergic Receptors
Complex interaction of ergovaline with 5-HT_{2A}, 5-$HT_{1B/1D}$ and alpha$_1$ receptors in isolated arteries of rat and Guinea Pig, 2202
Age at Weaning
Biological and economic performance of early-weaned Angus steers, 2762
Aging
Effects of age and recombinant equine somatotropin (eST) administration on immune function in female horses, 2651
Effects of dietary protein on whole-body protein turnover and endocrine function in young-adult and aging dogs, 3128
Agonists
The effect of early postnatal treatment with a gonadotropin-releasing hormone agonist on the developmental profiles of testicular steroid hormones in the intact male pig, 1003
The effect of early postnatal treatment with a gonadotropin-releasing hormone agonist on the developmental profiles of testicular steroid hormones in the intact male pig, 1003
Alfalfa
Effects of supplemental alfalfa hay on the digestion of soybean hull-based diets by cattle, 1346
Retention time of macerated alfalfa hay and silage in sheep, 507
Alkalinization
Technical Note: Using calcium carbonate as an osmolar control treatment for acid-base studies in horses, 1858
Alkanes
Alkanes as internal markers to estimate digestibility of hay or hay plus concentrate diets in horses, 1516
Amino Acid Metabolism
Adverse effects of excess lysine in calves, 1337
Amino Acid Mobilization
Dynamic ideal protein and limiting amino acids for lactating sows: The impact of amino acid mobilization, 2356
Amino Acids
Effect of energy and lysine intake in gestation on sow performance, 2367
Effect of nitrogen source in high-concentrate, low-protein beef cattle diets on microbial fermentation studied in vivo and in vitro, 1944
Effects of level of supplemental phytase on ileal digestibility of amino acids, calcium, and phosphorus in dehulled soybean meal for growing pigs, 2634
Energy utilization of low-protein diets in growing pigs, 1259
Ileal digestibilities of neutral detergent fiber, crude protein and amino acids associated with neutral detergent fiber in wheat shorts for growing pigs, 2388
Intestinal digestion of dietary and endogenous proteins along the small intestine of calves fed soybean or potato, 2719
Pituitary hormone and insulin responses to infusion of amino acids and N-methyl-D,L-aspartate in horses, 735
Rumen microbial sequestration of [2-^{13}C]acetate in cattle, 2491
Standardized ileal protein and amino acid digestibility by growing pigs and sows, 2113
The amino acid profiles of the whole plant and of four plant residues from temperatue and tropical forages, 525
The effect of feed intake on ileal rate of passage and apparent amino acid digestibility determined with or without correction factors in pigs, 1250
The effect of texturized vegetable protein from soy on nutrient digestibility compared to beef in cannulated dogs, 2162
True ileal digestibility of amino acids in sow's milk for 17-day-old pigs, 707
Amino Acid Sequences
Rapid communication: Three new allelic sequences at the ovine MHC class II *DQA1* locus, 780
Aminopeptidases
Enterocyte digestive enzyme activity along the crypt-villus and longitudinal axes in the neonatal pig small intestine, 371
Ammonia
Dietary adipic acid reduces ammonia emission from swine excreta, 2412
Dietary manipulation to reduce aerial ammonia concentrations in nursery pig facilities, 3096
Ammoniated Feeds
Source and level of energy supplementation for yearling cattle fed ammoniated hay, 1313
Androstenone
Early postnatal plasma concentrations of testicular steroid hormones, pubertal development, and carcass leanness as potential indicators of boar taint in market weight intact male pigs, 1868
The effect of early postnatal treatment with a gonadotropin-releasing hormone agonist on the developmental profiles of testicular steroid hormones in the intact male pig, 1003
Anestrus
Effectiveness of intravaginal progesterone inserts and FSH for inducing synchronized estrus and increasing lambing rate in anestrous ewes, 1120
Angora
Effects of bovine somatotropin and thyroid hormone status on hormone levels, body weight gain, and mohair fiber growth of Angora goats, 2913

Angus
Genotype × environment interactions in milk yield and quality in Angus, Brahman, and reciprocal-cross cows on different *forage systems, 1643*
Animal Breeding
Predicting rates of inbreeding for livestock improvement schemes, 840
Progress of farrowing and early postnatal pig behavior in relation to genetic merit for pig survival, 1416
The Bayesian controversy in animal breeding, 2023
Animal By-products
Optimization of rate and efficiency of dietary nitrogen utilization *through the use of animal by-products and(or) urea and their* effects on nutrient digestion in Holstein steers, 753
Animal Fat
Effects of choice white grease or poultry fat on growth performance, carcass leanness, and meat quality characteristics of growing-finishing pigs, 1491
Animal Health
Influence of protein supplementation and implant status on alleviating fescue toxicosis, 827
Animal Housing
Behavior, reproduction, and immunity of crated pregnant gilts: *Effects of high dietary fiber and rearing environment, 1466*
Chemical, physical, and environmental properties of pelleted newspaper compared to wheat straw and wood shavings as bedding for horses, *1359*
Individually measured feed intake characteristics and growth *performance of group-housed weanling pigs: Effects of sex,* initial body weight, and body weight distribution within *groups, 301*
Animal Models
A mechanistic model of whole-tract digestion and methanogenesis in the lactating dairy cow: Model development, evaluation, and application, 1584
Animal Production
The "new perception" of animal agriculture: Legless cows, featherless chickens, and a need for genuine analysis, 634
Animal Welfare
The "new perception" of animal agriculture: Legless cows, featherless chickens, and a need for genuine analysis, 634
Transgenesis may affect farm animal welfare: A case for systematic risk assessment, *1763*
Antagonism
Effects of supplementing combinations of inorganic and complexed copper on performance and liver mineral status of beef heifers consuming antagonist, 2926
Antagonist
LHRH antagonist decreases LH and progesterone secretion but *does not alter length of estrus cycle in heifers, 2902*
Antibiotics
Evaluation of conjugated linoleic acid and dietary antibiotics as growth promotants in weanling pigs, 2542
Incidence of mastitis in beef cows after intramuscular administration of oxytetracycline, *1996*
Antibodies
Clostridial antibody response from injection-site lesions in beef cattle, long-term response to single or multiple doses, and response in newborn beef calves, 2558
Antioxidants
Tasco-Forage: I. Influence of a seaweed extract on antioxidant *activity in tall fescue and in ruminants, 1011*
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Appetite
Effect of intracerebroventricular orexin-B on food intake in sheep, 1573
Aquatic Plants
Tasco-Forage: IV. Influence of a seaweed extract applied to tall fescue pastures on sensory characteristics, shelf-life, and vitamin E status in feedlot-finished steers, 884
Artemisia
Genetic and phenotypic parameters for dietary selection of mountain big sagebrush (*Artemisia tridentata* Nutt. ssp. *vaseyana* [Rydb] Beetle) in Rambouillet sheep, 486
Arteries
Complex interaction of ergovaline with 5-HT_{2A}, 5-$HT_{1B/1D}$ and $alpha_1$ receptors in isolated arteries of rat and Guinea Pig, *2202*
Artificial Insemination
Oxytocin-induced cervical dilation and cervical manipulation in sheep: Effects on laparoscopic artificial insemination, 568
Synchronization of ovulation using GnRH or hCG with the CO-Synch protocol in suckled beef cows, 2536
Technical note: Artificial vagina vs a vaginal collection vial for collecting semen from rams, 2964
Artificial Vagina
Technical note: Artificial vagina vs a vaginal collection vial for collecting semen from rams, 2964
Ascites
Disease-induced variability of genetic correlations: Ascites in *broilers as a case study, 1723*
Auditing
National Market Cow and Bull Beef Quality Audit—1999: A survey of producer-related defects in market cows and bulls, 658

B

β-Adrenergic Agonists
Effects of the perfusion of β-, β2-, or β3-adrenergic agonists or epinephrine on in situ adipose tissue lipolysis measured by microdialysis in underfed ewes, 453
β-Adrenergic Receptors
Rapid communication: Nucleotide sequence of the porcine β_3-adrenergic receptor gene, 782
Profile of ligand binding to the porcine β_2 adrenergic receptor, 877
Bacteria
Accumulation and consumption of odorous compounds in feedlot soils under aerobic, fermentative, and anaerobic respiratory conditions, 2503
Effect of feeding frequency on bacterial and fungal concentrations, pH, and other parameters in the rumen, 2908
In vitro study of the biochemical origin and production limits of odorous compounds in cattle feedlots, 2949
Bacterial Artificial Chromosomes
Rapid communication: Mapping of the bovine stearoyl-coenzyme A desaturase (*SCD*) gene to BTA26, 1955
Barley
Effects of barley grain processing on the site and extent of digestion of beef feedlot finishing diets, *1925*
Effects of tallow on the energy metabolism of wethers fed barley *finishing diets, 1892*
Fermentation characteristics and ruminal ciliate protozoal populations in cattle fed medium- or high-concentrate barley-based diets, 515
Bayesian Theory
The empirical bias of estimates by restricted maximum likelihood, Bayesian method, and Method $\mathfrak{R}$ under selection for additive, maternal, and dominance models, 2991
Beef
A comparison of the USDA ossification-based maturity system to a system based on dentition, 1683
A comprehensive search for quantitative trait loci affecting growth and carcass composition of cattle segregating alternative forms of the myostatin gene, 854
A survey of beef muscle color and pH, 678
Characterization of biological types of cattle (Cycle V): Carcass traits and longissimus palatability, 1209
Consumer impressions of Tender Select beef, 2605
Consumer thresholds for establishing the value of beef tenderness, 3062
Effects of dietary supplementation with vitamin E and organic selenium on the oxidative stability of beef, 2827
Effects of inorganic and organic copper supplemented to first-calf cows on cow reproduction and calf health and performance, *1650*
Effects of postexsanguination vascular infusion of cattle with a solution of saccharides, sodium chloride, phosphates, and vitamins C, E, or C+E on meat display-color stability, 2619
Effects of supplemental vitamin D_3 on feed intake, carcass characteristics, tenderness, and muscle properties of beef steers, 2844
Effects of three levels of α-tocopheryl acetate supplementation to feedlot cattle on performance of beef cuts during retail *display, 1814*

Evaluation of the Tendertec beef grading instrument to predict the tenderness of steaks from beef carcasses, 688
Foodservice yield and fabrication times for beef as influenced by purchasing options and merchandising styles, 3052
Incidence of injection-site lesions in beef top sirloin butts, 2615
Influence of dental carcass maturity classification on carcass traits and tenderness of longissimus steaks from commercially fed cattle, 2092
Supranutritional oral supplementation with vitamin D_3 and calcium and the effects on beef tenderness, 912
Tasco-Forage: III. Influence of a seaweed extract on performance, monocyte immune cell response, and carcass characteristics in feedlot-finished steers, 1032
The effect of texturized vegetable protein from soy on nutrient digestibility compared to beef in cannulated dogs, 2162
The effects of Piedmontese inheritance and myostatin genotype on the palatability of longissimus thoracis, gluteus medius, semimembranosus, and biceps femoris, 3069

Beef Carcass
Gluteus medius and rump fat depths as additional live animal ultrasound measurements for predicting retail product and trimmable fat in beef carcasses, 1378

Beef Cattle
Approximation of reliabilities for multiple-trait model with maternal effects, 833
Association of a genetic marker with blood serum insulin-like growth factor-I concentration and growth traits in Angus cattle, 1757
Biological and economic performance of early-weaned Angus steers, 2762
Birth weight QTL on bovine chromosome 2, 68
Breed effects on growth performance, carcass characteristics, fatty acid composition, and palatability attributes in finishing steers, 355
Characterization of topcross progenies from Hereford, Limousin, and Piedmontese sires, 1751
Clostridial antibody response from injection-site lesions in beef cattle, long-term response to single or multiple doses, and response in newborn beef calves, 2558
Comparison of threshold vs linear and animal vs sire models for predicting direct and maternal genetic effects on calving difficulty in beef cattle, 333
Computer image analysis for prediction of carcass composition from cross-sections of Japanese Black steers, 2851
Direct and maternal genetic effects on birth and weaning traits in multibreed cattle data and predicted performance of breed crosses, 1713
Effect of ruminal vs postruminal administration of degradable protein on utilization of low-quality forage by beef steers, 225
Effect of short-term calf removal at three stages of a follicular wave on fate of a dominant follicle in postpartum beef cows, 2688
Effect of weaning status and implant regimen on growth, performance, and carcass characteristics of steers, 1074
Effects of barley grain processing on the site and extent of digestion of beef feedlot finishing diets, 1925
Effects of feeding high-oil corn to beef steers on carcass characteristics and meat quality, 582
Effects of supplement type on animal performance, forage intake, digestion, and ruminal measurements of growing beef cattle, 1041
Estimates of covariance functions for growth from birth to 630 days of age in Nelore cattle, 2776
Evaluation of the 1996 NRC beef model under western Canadian environmental conditions, 267
Genetic and phenotypic variance and covariance components for feed intake, feed efficiency, and other postweaning traits in Angus cattle, 2805
Genetic correlation estimates between ultrasound measurements on yearling bulls and carcass measurements on finished steers, 2790
Genetic evaluation of carcass traits in Simmental-sired cattle at different slaughter end points, 595
Genetic × environment interactions on blood constituents of Angus, Brahman, and reciprocal-cross cows and calves grazing common bermudagrass or endophyte-infected tall fescue, 1151
Growth hormone response to growth hormone-releasing hormone in beef cows divergently selected for milk production, 1295
Impact of different wheat milling by-products in supplements on the forage use and performance of beef cattle consuming low-quality, tallgrass-prairie forage, 2472
Milk production of crossbred daughters of high- and low-milk EPD Angus and Hereford bulls, 1386
Predicting percentage of intramuscular fat using two types of real-time ultrasound equipment, 11
Rapid communication: Mapping of the bovine stearoyl-coenzyme A desaturase (SCD) gene to BTA26, 1955
Recombinant bovine somatotropin (rbST) increases size and proportion of fast-glycolytic muscle fibers in semitendinosus muscle of creep-fed steers, 108
Relation of growth hormone response to growth hormone-releasing hormone before weaning and postweaning growth performance in beef calves, 2217
Synchronization of ovulation using GnRH or hCG with the CO-Synch protocol in suckled beef cows, 2536
The effects of degradable and undegradable intake protein on the performance of lactating first-calf heifers, 2224
Use of growth hormone response to growth hormone-releasing hormone to determine growth potential in beef heifers, 1566

Beef Cows
Effect of GnRH pretreatment on reproductive performance of postpartum suckled beef cows following synchronization of estrus using GnRH and $PGF_{2\alpha}$, 1675
Incidence of mastitis in beef cows after intramuscular administration of oxytetracycline, 1996
Inclusion of an intravaginal progesterone insert plus GnRH and prostaglandin $F_{2\alpha}$ for ovulation control in postpartum suckled beef cows, 2253

Beef Quality
Antioxidant status affects color stability and tenderness of calcium chloride-injected beef, 666

Beef Steers
Urea flux in beef steers: Effects of forage species and nitrogen fertilization, 1937

Behavior
Behavioral sampling techniques for feedlot cattle, 1189
Behavior and performance of lactating sows and piglets reared indoors or outdoors, 2571
Behavior, reproduction, and immunity of crated pregnant gilts: Effects of high dietary fiber and rearing environment, 1466
Belly-nosing in early-weaned piglets is not influenced by diet quality or the presence of milk in the diet, 73
Calves' responses to repeated social regrouping and relocation, 2580
Effects of repeated cross-fosterings on preweaning behavior and growth performance of piglets and on maternal behavior of sows, 88
Relationships between behavioral and meat quality characteristics of pigs raised under barren and enriched housing conditions, 2835
The influence of farmers' behavior on calves' reactions to transport and quality of veal meat, 642

Benzimidazoles
Effect of ruminal microflora on the biotransformation of netobimin, albendazole, albendazole sulfoxide, and albendazole sulfoxide enantiomers in an artificial rumen, 1288

Best Linear Unbiased Prediction
Predicting rates of inbreeding for livestock improvement schemes, 840

Betaine
Effects of betaine on growth, carcass characteristics, pork quality, and plasma metabolites of finishing pigs, 722
Effects of betaine, pen space, and slaughter handling method on growth performance, carcass traits, and pork quality of finishing barrows, 967
Estimation of the total sulfur amino acid requirement and the effect of betaine in diets deficient in total sulfur amino acids for the weanling pig, 1557
Soybean hulls as a primary ingredient in forage-free diets for limit-fed growing cattle, 766

Binding Proteins
Effects of growth factors on insulin-like growth factor binding protein (IGFBP) secretion by primary porcine satellite cell cultures, 2820
Rapid communication: Genetic linkage and physical mapping of the porcine lipopolysaccharide-binding protein (LBP) gene, 557

Bioavailability
Chemical characteristics and relative bioavailability of supplemental organic copper sources for poultry, 1132
Nutritional value of fish meals in the diet for young pigs, 1829
Phosphorus bioavailability, growth performance, and nutrient balance in pigs fed high available phosphorus corn and phytase, 2134
Birth
Effect of oxygen inhalation at birth on the reduction of early postnatal mortality in pigs, 5
Birth Weight
Birth weight QTL on bovine chromosome 2, 68
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: I. Calving difficulty score, birth weight, weaning weight, and postweaning gain, 45
Blastocyst
Development of Porcine Embryos In Vitro: Effects of Culture Medium and Donor Age, 1578
Blood Chemistry
Genetic × environment interactions on blood constituents of Angus, Brahman, and reciprocal-cross cows and calves grazing common bermudagrass or endophyte-infected tall fescue, 1151
Blood Lipids
Influence of a high ambient temperature on lipid metabolism in the growing pig, 81
Boar Taint
Early postnatal plasma concentrations of testicular steroid hormones, pubertal development, and carcass leanness as potential indicators of boar taint in market weight intact male pigs, 1868
The effect of early postnatal treatment with a gonadotropin-releasing hormone agonist on the developmental profiles of testicular steroid hormones in the intact male pig, 1003
The effect of early postnatal treatment with a gonadotropin-releasing hormone agonist on the developmental profiles of testicular steroid hormones in the intact male pig, 1003
Vaccination of boars with a GnRH vaccine (Improvac) eliminates boar taint and increases growth performance, 2524
Body Composition
Body composition analysis of the pig by magnetic resonance imaging, 1800
Conjugated linoleic acid changes swine performance and carcass composition, 1821
Effect of varying carbohydrate and fat content of milk replacer on body composition of Holstein bull calves, 2260
Effects of exogenous somatotropin during early gestation on maternal performance, fetal growth, and compositional traits in pigs, 1789
Effects of exposure to high ambient temperature and dietary protein level on sow milk production and performance of piglets, 1540
Nutrient mobilization from body tissues as influenced by litter size in lactating sows, 2179
Body Temperature
Locomotor activity, core body temperature, and circadian rhythms in mice selected for high or low heat loss, 861
Body Weight
Comparison of F_1 *Bos indicus* × Hereford cows in central Texas: I. Reproductive, maternal, and size traits, 1431
Individually measured feed intake characteristics and growth performance of group-housed weanling pigs: Effects of sex, initial body weight, and body weight distribution within groups, 301
Bone
Daily access to pasture turnout prevents loss of mineral in the third metacarpus of Arabian weanlings, 1142
Supplemental silicon increases plasma and milk silicon concentrations in horses, 2627
Bone Density
Total body and regional measurements of bone mineral content and bone mineral density in pigs by dual energy X-ray absorptiometry, 2594
Bone Mineralization
Total body and regional measurements of bone mineral content and bone mineral density in pigs by dual energy X-ray absorptiometry, 2594
Bones
Effect of dietary boron on growth performance, calcium and phosphorus metabolism, and bone mechanical properties in growing barrows, 3120
Borates
The amino acid profiles of the whole plant and of four plant residues from temperatue and tropical forages, 525
Boron
Effect of dietary boron on growth performance, calcium and phosphorus metabolism, and bone mechanical properties in growing barrows, 3120
Inflammatory response, growth, and thyroid hormone concentrations are affected by long-term boron supplementation in gilts, 1549
Bothriochloa ischaemum
A comparison of native tallgrass prairie and plains bluestem forage systems for cow-calf production in the Southern Great Plains, 1697
Bovidae
Influence of O-linked glucose on sodium-glucose cotransport activity along the small intestine in cattle, 1917
Intermuscular variation in tenderness: Association with the ubiquitous and muscle-specific calpains, 122
Rapid communication: Linkage mapping of seven bovine cDNA, 1631
Transport stress modulates adrenocorticotropin secretion from peripheral bovine lymphocytes, 729
Brahman
Genetic × environment interactions on blood constituents of Angus, Brahman, and reciprocal-cross cows and calves grazing common bermudagrass or endophyte-infected tall fescue, 1151
Genotype × environment interactions for postweaning performance in crossbred calves grazing winter wheat pasture or dormant native prairie, 1370
Genotype × environment interactions in milk yield and quality in Angus, Brahman, and reciprocal-cross cows on different forage systems, 1643
Branched Chain Amino Acids
Valine requirement of nursery pigs, 1223
Bred Heifers
Influence of undegraded intake protein on reproductive performance of primiparous beef heifers maintained on stockpiled fescue pasture, 574
Breed Differences
Characterization of topcross progenies from Hereford, Limousin, and Piedmontese sires, 1751
Breeding Value
Approximation of reliabilities for multiple-trait model with maternal effects, 833
Progress of farrowing and early postnatal pig behavior in relation to genetic merit for pig survival, 1416
Breeds
Breed and heterotic effects on postweaning traits in Altex and New Zealand White straightbred and crossbred rabbits, 1173
Breed effects on growth performance, carcass characteristics, fatty acid composition, and palatability attributes in finishing steers, 355
Characterization of biological types of cattle (Cycle V): Carcass traits and longissimus palatability, 1209
Genetics of milk yield and fertility traits in Holstein-Friesian cattle on large-scale Kenyan farms, 1742
Interactions in postweaning production of F_1 cattle from Hereford, Limousin, or Piedmontese sires, 317
Manipulation of cattle growth to target carcass quality, 133
Broilers
Disease-induced variability of genetic correlations: Ascites in broilers as a case study, 1723
Bulls
Growth, puberty, and carcass characteristics of Brahman-, Senepol-, and Tuli-sired F_1 Angus bulls, 2006
National Market Cow and Bull Beef Quality Audit—1999: A survey of producer-related defects in market cows and bulls, 658
Byproduct
Impact of different wheat milling by-products in supplements on the forage use and performance of beef cattle consuming low-quality, tallgrass-prairie forage, 2472

C

Calcium
- *Effects of supplemental vitamin D_3 on feed intake*, carcass characteristics, tenderness, and muscle properties of beef steers, 2844
- Supranutritional oral supplementation with vitamin D_3 and calcium and the effects on beef tenderness, 912

Calcium Chloride
- Antioxidant status affects color stability and tenderness of calcium chloride-injected beef, 666
- Dietary manipulation to reduce aerial ammonia concentrations in nursery pig facilities, 3096

Calf Removal
- Calf removal improves conception rates to the Ovsynch and CO-Synch protocols, 1
- Effect of short-term calf removal at three stages of a follicular wave on fate of a dominant follicle in postpartum beef cows, *2688*

Callipyge
- The calpain system in three muscles of normal and callipyge sheep, 398

Calpains
- *Effect of* postmortem storage on μ-calpain and m-calpain in ovine skeletal muscle, 1502
- *Intermuscular variation in tenderness: Association with the* ubiquitous and muscle-specific calpains, 122
- Properties of myofibril-bound calpain activity in longissimus muscle of Callipyge and normal sheep, 2097
- Rapid communication: Linkage mapping of the porcine *micromolar calcium-activated neutral protease 1 (μ-calpain)* gene on SSC2, 555
- Rapid Communication: Nucleotide sequences of two isoforms of porcine *micromolar calcium-activated neutral protease 1* cDNA, 553
- Rapid communication: Sequence of a quail calpain cDNA, 775
- Supranutritional oral supplementation with vitamin D_3 and calcium and the effects on beef tenderness, 912
- The calpain system in three muscles of normal and callipyge sheep, 398

Calpastatin
- Intermuscular variation in tenderness: Association with the ubiquitous and muscle-specific calpains, 122
- The calpain system in three muscles of normal and callipyge sheep, 398

Calves
- Adverse effects of excess lysine in calves, 1337
- Calves' responses to repeated social regrouping and relocation, 2580
- Clostridial antibody response from injection-site lesions in beef cattle, long-term response to single or multiple doses, and response in newborn beef calves, 2558
- Comparison of F_1 *Bos indicus* × Hereford cows in central Texas: I. Reproductive maternal, and size traits, 1431
- Effect of varying carbohydrate and fat content of milk replacer on body composition of Holstein bull calves, 2260
- Intestinal digestion of dietary and endogenous proteins along the small intestine of calves fed soybean or potato, 2719
- Recombinant bovine somatotropin (rbST) increases size and proportion of fast-glycolytic muscle fibers in semitendinosus muscle of creep-fed steers, 108
- Spirometric performance in Belgian Blue calves. 2: Analysis of environmental factors and estimation of genetic parameters, 1162
- Spirometric performances in Belgian Blue calves: 1. Effects on economic losses due to the bovine respiratory disease complex, 1301
- The influence of farmers' behavior on calves' reactions to transport and quality of veal meat, 642
- Uptake and excretion of organochlorine compounds in neonatal calves, 155

Candidate Genes
- Candidate gene analysis for loci affecting litter size and ovulation rate in swine, 60

Canidae
- Fruit and vegetable fiber fermentation by gut microflora from canines, 919

Carbohydrates
- Hydrolyzable carbohydrates in pasture, hay, and horse feeds: Direct assay and seasonal variation, 500

Carcass Characteristics
- *Effect of dietary L-Carnitine on growth* performance and body composition in nursery and growing-finishing pigs, 1509
- Tasco-Forage: III. Influence of a seaweed extract on performance, monocyte immune cell response, and carcass characteristics in feedlot-finished steers, 1032

Carcass
- Computer image analysis for prediction of carcass composition from cross-sections of Japanese Black steers, 2851

Carcass Composition
- Breed effects on growth performance, carcass characteristics, *fatty acid composition, and palatability* attributes in finishing steers, 355
- Carcass traits and microsatellite distributions in offspring of sires from three geographical regions of Japan, 3041
- Carcass traits, cut yields, and compositional end points in high-*lean-yielding pork* carcasses: Effects of 10th rib backfat and loin eye area, 115
- Characterization of biological types of cattle (Cycle V): Carcass traits and longissimus palatability, 1209
- Characterization of topcross progenies from Hereford, Limousin, and Piedmontese sires, 1751
- Dietary conjugated linoleic acid alters fatty acid composition of *pig skeletal muscle and fat*, *2152*
- Effect of chromium picolinate and chromium propionate on glucose and insulin kinetics of growing barrows and on growth and carcass traits of growing-finishing barrows, 2172
- Effect of different protein sources on growth and carcass traits *in growing–finishing pigs*, *2428*
- Effects of choice white grease or poultry fat on growth performance, carcass leanness, and meat quality characteristics of growing-finishing pigs, 1491
- Evaluation of alternative measures of pork carcass composition, *1093*
- Predicting individual feed requirements of cattle fed in groups, 1983

Carcass Quality
- Biological and economic performance of early-weaned Angus steers, *2762*
- Effects of betaine, pen space, and slaughter handling method on growth performance, carcass traits, and pork quality of finishing barrows, 967
- Effects of dietary soy isoflavones on growth, carcass traits, and meat quality in growing-finishing pigs, 1230
- Effects of feeding high-oil corn to beef steers on carcass characteristics and meat quality, 582
- Effects of supplemental vitamin D_3 on feed intake, carcass characteristics, tenderness, and muscle properties of beef steers, 2844
- Evaluation of the Tendertec beef grading instrument to predict the tenderness of steaks from beef carcasses, 688
- Genetic correlation estimates between ultrasound measurements on yearling bulls and carcass measurements on finished steers, 2790
- Genetic evaluation of carcass traits in Simmental-sired cattle at different slaughter end points, 595
- Genetic parameters for ultrasound and carcass measures of yield and quality among replacement and slaughter beef cattle, 3008
- Genotype × environment interactions for postweaning performance in crossbred calves grazing winter wheat pasture or dormant native prairie, 1370
- Growth, puberty, and carcass characteristics of Brahman-, Senepol-, and Tuli-sired F_1 Angus bulls, 2006
- Influence of dental carcass maturity classification on carcass traits and tenderness of longissimus steaks from commercially fed cattle, 2092
- Interactions in postweaning production of F_1 cattle from Hereford, Limousin, or Piedmontese sires, 317
- Manipulation of cattle growth to target carcass quality, 133
- National Market Cow and Bull Beef Quality Audit—1999: A survey of producer-related defects in market cows and bulls, 658
- Predicting percentage of intramuscular fat using two types of real-time ultrasound equipment, 11
- The effects of grazing, liquid supplements, and implants on feedlot performance and carcass traits of Holstein steers, 325

Carcass Traits
Effects of betaine on growth, carcass characteristics, pork quality, and plasma metabolites of finishing pigs, 722
Carnitine
Dietary L-carnitine suppresses mitochondrial branched-chain keto acid dehydrogenase activity and enhances protein accretion and carcass characteristics of swine, 3104
Effects of L-carnitine on nitrogen retention and blood metabolites of growing steers and performance of finishing steers, 254
Catheterization
Effects of surgical catheterization and degree of isolation on the behavior and exocrine pancreatic secretion of newly weaned pigs, 1179
Cattle Breeds
Growth, puberty, and carcass characteristics of Brahman-, Senepol-, and Tuli-sired F_1 Angus bulls, 2006
Cattle
Accumulation and consumption of odorous compounds in feedlot soils under aerobic, fermentative, and anaerobic respiratory conditions, 2503
A comparison of native tallgrass prairie and plains bluestem forage systems for cow-calf production in the Southern Great Plains, 1697
Behavioral sampling techniques for feedlot cattle, 1189
Branched-chain amino acids for growing cattle limit-fed soybean hull-based diets, 2747
Carcass traits and microsatellite distributions in offspring of sires from three geographical regions of Japan, 3041
Intake restriction strategies and sources of energy and protein during the growing period affect nutrient disappearance, feedlot performance, and carcass characteristics of crossbred heifers, 1598
Effects of L-carnitine on nitrogen retention and blood metabolites of growing steers and performance of finishing steers, 254
Effects of dietary rice bran, lasalocid, and sex of calf on postpartum reproduction in Brahman cows, 2968
Effects of water sulfate concentration on performance, water intake, and carcass characteristics of feedlot steers, 2941
Evaluation of titanium dioxide as a digestibility marker for cattle, 1059
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: II. Reproductive, skeletal, and carcass traits, 52
Genotype × environment interactions in milk yield and quality in Angus, Brahman, and reciprocal-cross cows on different forage systems, 1643
Influence of feeding level during postweaning growth on circulating concentrations of thyroid hormones and extrathyroidal 5′-deiodination in steers, 2679
Influence of pasture sward height and concentrate supplementation on intake, digestibility, and grazing time of lactating beef cows, 745
Influence of protein supplementation and implant status on alleviating fescue toxicosis, 827
Interactions in postweaning production of F_1 cattle from Hereford, Limousin, or Piedmontese sires, 317
In vitro study of the biochemical origin and production limits of odorous compounds in cattle feedlots, 2949
Manipulation of cattle growth to target carcass quality, 133
Molecular identification of high-affinity glutamate transporters in sheep and cattle forestomach, intestine, liver, kidney, and pancreas, 1329
Performance of light vs heavy steers grazing Plains Old World bluestem at three stocking rates, 493
Predicting individual feed requirements of cattle fed in groups, 1983
Production performance of beef cows raised on three different nutritionally controlled heifer development programs, 819
Rapid communication: Mapping of *Oxytocin* (*OXT*) to the central region of bovine chromosome 13 by linkage analysis using SSCP, 778
Relationship between terrain use and performance of beef cows grazing foothill rangeland, 1883
Shade and water misting effects on behavior, physiology, performance, and carcass traits of heat-stressed feedlot cattle, 2327
Source and level of energy supplementation for yearling cattle fed ammoniated hay, 1313
Supplemental soybean oil or corn for beef heifers grazing summer pasture: Effects on forage intake, ruminal fermentation, and site and extent of digestion, 2704
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Technical note: Use of laser diffraction for particle size distribution measurements in duodenal digesta, 761
Thermoregulatory ability of beef heifers following intake of endophyte-infected tall fescue during controlled heat challenge, 1780
Cattle Fattening
Fermentation characteristics and ruminal ciliate protozoal populations in cattle fed medium- or high-concentrate barley-based diets, 515
$CD8^+$ Lymphocytes
Effects of dietary conjugated linoleic acid in nursery pigs of dirty and clean environments on growth, empty body composition, and immune competence, 714
Cell Cultures
Effects of growth factors on insulin-like growth factor binding protein (IGFBP) secretion by primary porcine satellite cell cultures, 2820
Profile of ligand binding to the porcine β_2 adrenergic receptor, 877
Cell-Mediated Immunity
Effects of dietary conjugated linoleic acid in nursery pigs of dirty and clean environments on growth, empty body composition, and immune competence, 714
Cellulase
Technical note: Methods for detecting liquid enzyme additives added to animal feeds, 2731
Cervix
Oxytocin-induced cervical dilation and cervical manipulation in sheep: Effects on laparoscopic artificial insemination, 568
Cervus elaphus
Calf growth in captive Iberian red deer (*Cervus elaphus hispanicus*): Effects of birth date and hind milk production and composition, 1085
Chemotaxis
The chemotactic properties of porcine seminal components toward neutrophils in vitro, 996
Chicks
Chemical characteristics and relative bioavailability of supplemental organic copper sources for poultry, 1132
Increased responsiveness to dietary lysine deficiency of pectoralis major muscle protein turnover in broilers selected on breast development, 927
Chilling
Vitamin-mineral supplementation and accelerated chilling effects on quality of pork from pigs that are monomutant or noncarriers of the halothane gene, 2346
Cholecalciferol
Supranutritional oral supplementation with vitamin D_3 and calcium and the effects on beef tenderness, 912
Cholesterol
Effect of dietary oils and α-tocopheryl acetate supplementation on lipid (TBARS) and cholesterol oxidation in cooked pork, 1201
Performance, carcass characteristics, and lipid metabolism in growing and finishing Simmental steers fed varying concentrations of copper, 2920
Chromic Oxide
Evaluation of titanium dioxide as a digestibility marker for cattle, 1059
Chromium
Effect of chromium picolinate and chromium propionate on glucose and insulin kinetics of growing barrows and on growth and carcass traits of growing-finishing barrows, 2172
Chromosome Maps
Rapid communication: Linkage mapping of seven bovine cDNA, 1631
Chromosomes
Rapid communication: Microsatellites isolated from BAC clones containing v-akt1 murine thymoma viral oncogene homolog 1 and bradykinin receptor B2 assigned to sheep chromosome 18 by linkage analysis, 551
Chylomicron Lipids
Influence of a high ambient temperature on lipid metabolism in the growing pig, 81

Circadian Rhythm
Locomotor activity, core body temperature, and circadian rhythms in mice selected for high or low heat loss, 861
Thermoregulatory ability of beef heifers following intake of endophyte-infected tall fescue during controlled heat challenge, 1780
Citrus
Effects of carbohydrates from citrus pulp and hominy feed on microbial fermentation in continuous culture, 2713
Clostridium
Clostridial antibody response from injection-site lesions in beef cattle, long-term response to single or multiple doses, and response in newborn beef calves, 2558
Influence of clostridial vaccines and injection sites on performance, feeding behavior, and lesion size scores of beef steers, 1409
Cofactors
Mapping of multiple quantitative trait loci by simple regression in half-sib designs, 616
Color
A survey of beef muscle color and pH, 678
Effects of postexsanguination vascular infusion of cattle with a solution of saccharides, sodium chloride, phosphates, and vitamins C, E, or C+E on meat display-color stability, 2619
Compensatory Growth
Influence of feeding level during postweaning growth on circulating concentrations of thyroid hormones and extrathyroidal 5′-deiodination in steers, 2679
Composition
Computer image analysis for prediction of carcass composition from cross-sections of Japanese Black steers, 2851
Gluteus medius and rump fat depths as additional live animal ultrasound measurements for predicting retail product and trimmable fat in beef carcasses, 1378
Computer Analysis
Computer image analysis for prediction of carcass composition from cross-sections of Japanese Black steers, 2851
Computer Simulation
Evaluation of the 1996 NRC beef model under western Canadian environmental conditions, 267
Computer Software
Use of the preconditioned conjugate gradient algorithm as a generic solver for mixed-model equations in animal breeding applications, 1166
Concentrates
Effect of forage:concentrate ratio on ruminal digestion and duodenal flow of fatty acids in ewes, 2233
Effect of nitrogen source in high-concentrate, low-protein beef cattle diets on microbial fermentation studied in vivo and in vitro, 1944
Conception Rate
Effect of human chorionic gonadotropin on lutealfFunction and reproductive performance of high-producing lactating Holstein dairy cows, 2881
Connective Tissue
Coordinate expression of matrix-degrading proteinases and their activators and inhibitors in bovine skeletal muscle, 94
Consumer Attitudes
Consumer impressions of Tender Select beef, 2605
Consumers
Consumer thresholds for establishing the value of beef tenderness, 3062
Copper
Chemical characteristics and relative bioavailability of supplemental organic copper sources for poultry, 1132
Effect of supplemental vitamins and trace minerals on performance and carcass quality in finishing pigs, 141
Effects of inorganic and organic copper supplemented to first-calf cows on cow reproduction and calf health and performance, 1650
Effects of supplementing combinations of inorganic and complexed copper on performance and liver mineral status of beef heifers consuming antagonist, 2926
Performance, carcass characteristics, and lipid metabolism in growing and finishing Simmental steers fed varying concentrations of copper, 2920
Zinc and copper status in ewes supplemented with sulfate- and amino acid-complexed forms of zinc and copper, 261
Copper Sulfate
Effect of pharmacological concentrations of zinc oxide with or without the inclusion of an antibacterial agent on nursery pig performance, 934
Zinc and copper status in ewes supplemented with sulfate- and amino acid-complexed forms of zinc and copper, 261
Corn
Effects of feeding high-oil corn to beef steers on carcass characteristics and meat quality, 582
Phosphorus bioavailability, growth performance, and nutrient balance in pigs fed high available phosphorus corn and phytase, 2134
Corn Silage
Effect of hybrid, maturity, and mechanical processing of corn silage on intake and digestibility by beef cattle, 2268
Influence of supplementary fibrolytic enzymes on the fermentation of corn and grass silages by mixed ruminal microorganisms in vitro, 1905
Proportion of corn silage in diets of feedlot steers fed to achieve stepwise increases in growth, 1402
Corpus Luteum
LHRH antagonist decreases LH and progesterone secretion but does not alter length of estrus cycle in heifers, 2902
Correction Factors
The effect of feed intake on ileal rate of passage and apparent amino acid digestibility determined with or without correction factors in pigs, 1250
Corticotropin
Effect of whole-body vibration in the vertical axis on cortisol and adrenocorticotropic hormone levels in piglets, 975
Transport stress modulates adrenocorticotropin secretion from peripheral bovine lymphocytes, 729
Cottonseed oil meal
Reproductive efficiency and maternal-offspring transfer of gossypol in Rainbow Trout (*Oncorhynchus mykiss*) fed diets containing cottonseed meal, 1533
Covariance
Estimation of genetic covariances with Method $\mathfrak{R}$, 605
Cows
Effect of heterogeneous digesta chemical composition on the accuracy of measurements of fiber flow in dairy cows, 1611
National Market Cow and Bull Beef Quality Audit—1999: A survey of producer-related defects in market cows and bulls, 658
Creatine
Creatine monohydrate supplemented in swine finishing diets and fresh pork quality: I. A controlled laboratory experiment, 3075
Creatine monohydrate supplemented in swine finishing diets and fresh pork quality: II. Commercial applications, 3081
Creep Feeding
Effects of exposure to high ambient temperature and dietary protein level on sow milk production and performance of piglets, 1540
Crossbreds
Genetic parameter estimates from joint evaluation of purebreds and crossbreds in swine using the crossbred model, 3002
Crossbreeding
Breed and heterotic effects on postweaning traits in Altex and New Zealand White straightbred and crossbred rabbits, 1173
Comparison of F_1*Bos indicus* × Hereford cows in central Texas: II. Udder, mouth, longevity, and lifetime productivity., 1439
Comparison of F_1 *Bos indicus* × Hereford cows in central Texas: I. Reproductive, maternal, and size traits, 1431
Direct and maternal genetic effects on birth and weaning traits in multibreed cattle data and predicted performance of breed crosses, 1713
Genetic × environment interactions on blood constituents of Angus, Brahman, and reciprocal-cross cows and calves grazing common bermudagrass or endophyte-infected tall fescue, 1151
Genotype × environment interactions in milk yield and quality in Angus, Brahman, and reciprocal-cross cows on different forage systems, 1643
Crowding
Effects of betaine, pen space, and slaughter handling method on growth performance, carcass traits, and pork quality of finishing barrows, 967
Cryopreservation
Technical note: Vitrification of goat embryos by the open pulled-straw method, 2436

Cynodon dactylon
Impact of heating-degree-day accumulation during bermudagrass hay storage on nutrient utilization by lambs, 2698
Cystine
Estimation of the total sulfur amino acid requirement and the effect of betaine in diets deficient in total sulfur amino acids for the weanling pig, 1557

D

Dairy Cattle
Genetic variation in stimulated GH release and in IGF-I of young *dairy cattle and their associations with the leucine/valine* polymorphism in the GH gene, 470
Dairy Cows
A mechanistic model of whole-tract digestion and methanogenesis in the lactating dairy cow: Model development, evaluation, *and application*, 1584
Effect of dietary factors on distribution and chemical composition of liquid- or solid-associated bacterial populations in the rumen of dairy cows, 2736
Effect of human chorionic gonadotropin on lutealfFunction and *reproductive performance of high-producing lactating Hol*stein dairy cows, 2881
The effect of energy supplementation on nitrogen utilization in *lactating dairy cows fed grass silage diets*, 240
The effect of protein supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 247
Damage
Incidence of injection-site lesions in beef top sirloin butts, 2615
DDE
Uptake and excretion of organochlorine compounds in neonatal calves, 155
Decision Making
Preference for polyethylene glycol by sheep fed a quebracho tannin *diet*, 2066
Degradation
Effects of calendar date and summer management on the in situ dry matter and fiber degradation of stockpiled forage from bermudagrass pastures, 3158
Deiodination
Influence of feeding level during postweaning growth on circulating concentrations of thyroid hormones and extrathyroidal 5′-deiodination in steers, 2679
Dentition
A comparison of the USDA ossification-based maturity system to a system based on dentition, 1683
Influence of dental carcass maturity classification on carcass traits and tenderness of longissimus steaks from commercially fed cattle, 2092
Development
Production performance of beef cows raised on three different nutritionally controlled heifer development programs, 819
Dialysis
Effects of the perfusion of β-, β2-, or β3-adrenergic agonists or epinephrine on in situ adipose tissue lipolysis measured by microdialysis in underfed ewes, 453
Diarrhea
Adverse effects of excess lysine in calves, 1337
Diet
Belly-nosing in early-weaned piglets is not influenced by diet quality or the presence of milk in the diet, 73
Effect of dietary modification of muscle long-chain n–3 fatty acid *on plasma insulin and lipid metabolites, carcass traits, and* fat deposition in lambs, 895
Effects of dietary fermentable carbohydrates on energy metabolism in group-housed sows, 148
Effects of dietary supplementation with vitamin E and organic *selenium on the oxidative stability of beef*, 2827
Ileal and total tract nutrient digestibilities and fecal characteristics of dogs as affected by soybean protein inclusion in dry, extruded diets, 1523
Dietary
Effects of dietary rice bran, lasalocid, and sex of calf on postpartum reproduction in Brahman cows, 2968
Dietary Fat
Effects of dietary fat on growth performance and carcass characteristics of growing-finishing pigs reared in a commercial environment, 2643
Plasma glucose and insulin responses of Thoroughbred mares fed *a meal high in starch and sugar or fat and fiber*, 2196
Dietary Protein
Effect of excess degradable intake protein on early embryonic development, ovarian steroids, and blood urea nitrogen on days 2, 3, 4, and 5 of the estrous cycle in mature ewes, 193
*Effects of exposure to high ambient temperature and dietary pro*tein level on performance of multiparous lactating sows, 1240
Energy utilization of low-protein diets in growing pigs, 1259
Differentiation
Enterocyte digestive enzyme activity along the crypt-villus and *longitudinal axes in the neonatal pig small intestine*, 371
Digesta
Performance, digesta characteristics, nutrient flux, plasma composition, and organ weight in pigs as affected by dietary cation anion difference and nonstarch polysaccharide, 1840
Digestibility
Alkanes as internal markers to estimate digestibility of hay or hay plus concentrate diets in horses, 1516
Apparent ileal digestibility of amino acids and the digestible and metabolizable energy content of dry extruded-expelled soybean meal and its effects on growth performance of pigs, 1280
Comparative total tract digestibility of dietary energy and nutrients in growing pigs and adult sows, 2418
*Dietary fat supplementation effects on in vitro nutrient disap*pearance and in vivo nutrient intake and total tract digestibility by horses, 232
Effect of heterogeneous digesta chemical composition on the accuracy of measurements of fiber flow in dairy cows, 1611
Effect of hybrid, maturity, and mechanical processing of corn silage on intake and digestibility by beef cattle, 2268
Effects of barley grain processing on the site and extent of digestion of beef feedlot finishing diets, 1925
Effects of level of supplemental phytase on ileal digestibility of *amino acids, calcium, and phosphorus in dehulled soybean* meal for growing pigs, 2634
Effects of nitrogen fertilization and harvest date on yield, digestibility, fiber, and protein fractions of tropical grasses, 2439
Ileal and total tract nutrient digestibilities and fecal characteris*tics of dogs as affected by soybean protein inclusion in dry,* extruded diets, 1523
Ileal digestibilities of neutral detergent fiber, crude protein and amino acids associated with neutral detergent fiber in wheat shorts for growing pigs, 2388
Influence of pasture sward height and concentrate supplementation on intake, digestibility, and grazing time of lactating beef cows, 745
Nutritional value of fish meals in the diet for young pigs, 1829
Performance, digesta characteristics, nutrient flux, plasma composition, and organ weight in pigs as affected by dietary cation anion difference and nonstarch polysaccharide, 1840
Source and level of energy supplementation for yearling cattle *fed ammoniated hay*, 1313
Standardized ileal protein and amino acid digestibility by growing pigs and sows, 2113
The effect of feed intake on ileal rate of passage and apparent amino acid digestibility determined with or without correction factors in pigs, 1250
The effect of texturized vegetable protein from soy on nutrient digestibility compared to beef in cannulated dogs, 2162
True ileal digestibility of amino acids in sow's milk for 17-day-old pigs, 707
Digestibility Markers
Evaluation of titanium dioxide as a digestibility marker for cattle, 1059
Digestible Energy
Effect of dietary protein source and lysine:DE ratio on growth *performance, meat quality, and body composition of growing-*finishing pigs, 2857
Digestion
Effects of supplemental alfalfa hay on the digestion of soybean hull-based diets by cattle, 1346
Optimization of rate and efficiency of dietary nitrogen utilization through the use of animal by-products and(or) urea and their effects on nutrient digestion in Holstein steers, 753

Supplemental soybean oil or corn for beef heifers grazing summer pasture: Effects on forage intake, ruminal fermentation, and site and extent of digestion, 2704
The effect of season and monensin sodium on the digestive characteristics of autumn and spring pasture fed to sheep, 1052
Digestive Juices
Influence of intraduodenally infused olive and coconut oil on postprandial exocrine pancreatic secretions of growing pigs, 477
Digestive System
Resistance of feed enzymes to proteolytic inactivation by rumen microorganisms and gastrointestinal proteases, 1621
Dioxins
Uptake and excretion of organochlorine compounds in neonatal calves, 155
Disaccharidases
Enteral exposure to crude red kidney bean lectin induces maturation of the gut in suckling pigs, 2669
Enterocyte digestive enzyme activity along the crypt-villus and longitudinal axes in the neonatal pig small intestine, 371
Disease Resistance
Developing stochastic epidemiological models to quantify the dynamics of infectious diseases in domestic livestock, 2047
Utilizing stochastic genetic epidemiological models to quantify the impact of selection for resistance to infectious diseases in domestic livestock, 2057
Displays
Effects of postexsanguination vascular infusion of cattle with a solution of saccharides, sodium chloride, phosphates, and vitamins C, E, or C+E on meat display-color stability, 2619
Distribution
Relationship between terrain use and performance of beef cows grazing foothill rangeland, 1883
DNA Probes
Candidate gene markers for litter size in different German pig lines, 2565
Dogs
Effects of dietary protein on whole-body protein turnover and endocrine function in young-adult and aging dogs, 3128
Ileal and total tract nutrient digestibilities and fecal characteristics of dogs as affected by soybean protein inclusion in dry, extruded diets, 1523
In vitro fermentation characteristics of native and processed cereal grains and potato starch using ileal chyme from dogs, 435
The effect of texturized vegetable protein from soy on nutrient digestibility compared to beef in cannulated dogs, 2162
Dominance
Estimation of additive and nonadditive genetic variances in Hereford, Gelbvieh, and Charolais by Method R, 2997
Genetic parameter estimates from joint evaluation of purebreds and crossbreds in swine using the crossbred model, 3002
Double Muscling
A comprehensive search for quantitative trait loci affecting growth and carcass composition of cattle segregating alternative forms of the myostatin gene, 854
Optimum mating systems for the myostatin locus in cattle, 2016
The effects of Piedmontese inheritance and myostatin genotype on the palatability of longissimus thoracis, gluteus medius, semimembranosus, and biceps femoris, 3069
Drinking Water
Effect of nipple drinker water flow rate and season on performance of lactating swine, 2770
Dry Matter
Preference by sheep and goats among hay of eight tall fescue cultivars, 213
Dystocia
Birth weight QTL on bovine chromosome 2, 68
Comparison of threshold vs linear and animal vs sire models for predicting direct and maternal genetic effects on calving difficulty in beef cattle, 333
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: I. Calving difficulty score, birth weight, weaning weight, and postweaning gain, 45
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: II. Reproductive, skeletal, and carcass traits, 52

E

Early-Weaning
Belly-nosing in early-weaned piglets is not influenced by diet quality or the presence of milk in the diet, 73
Economic Impact
Spirometric performances in Belgian Blue calves: 1. Effects on economic losses due to the bovine respiratory disease complex, 1301
Economics
Biological and economic performance of early-weaned Angus steers, 2762
Effective Population Size
Inbreeding and effective population size of Japanese Black cattle, 366
Predicting rates of inbreeding for livestock improvement schemes, 840
Egg Quality
Reproductive efficiency and maternal-offspring transfer of gossypol in Rainbow Trout (Oncorhynchus mykiss) fed diets containing cottonseed meal, 1533
Electrolytes
Performance, digesta characteristics, nutrient flux, plasma composition, and organ weight in pigs as affected by dietary cation anion difference and nonstarch polysaccharide, 1840
The effect of texturized vegetable protein from soy on nutrient digestibility compared to beef in cannulated dogs, 2162
Electrometric Methods
Total body electrical conductivity (TOBEC) measurement of compositional differences in hams, loins, and bellies from conjugated linoleic acid (CLA)-fed stress-genotype pigs, 1475
Embryo Culture
Development of Porcine Embryos In Vitro: Effects of Culture Medium and Donor Age, 1578
Embryos
Effect of excess degradable intake protein on early embryonic development, ovarian steroids, and blood urea nitrogen on days 2, 3, 4, and 5 of the estrous cycle in mature ewes, 193
The role of altered uterine-embryo synchrony on conceptus growth in the pig, 1863
Embryo Transfer
Technical note: Vitrification of goat embryos by the open pulled-straw method, 2436
Enantiomers
Effect of ruminal microflora on the biotransformation of netobimin, albendazole, albendazole sulfoxide, and albendazole sulfoxide enantiomers in an artificial rumen, 1288
Endophytes
Tasco-Forage: III. Influence of a seaweed extract on performance, monocyte immune cell response, and carcass characteristics in feedlot-finished steers, 1032
Tasco-Forage: IV. Influence of a seaweed extract applied to tall fescue pastures on sensory characteristics, shelf-life, and vitamin E status in feedlot-finished steers, 884
Thermoregulatory ability of beef heifers following intake of endophyte-infected tall fescue during controlled heat challenge, 1780
Endotoxins
The chemotactic properties of porcine seminal components toward neutrophils in vitro, 996
Energy
Effect of energy and lysine intake in gestation on sow performance, 2367
Effect of varying carbohydrate and fat content of milk replacer on body composition of Holstein bull calves, 2260
Effects of dietary fat on growth performance and carcass characteristics of growing-finishing pigs reared in a commercial environment, 2643
The regression of unsuckled mammary glands during lactation in sows: The influence of lactation stage, dietary nutrients, and litter size, 2659
Energy Intake
The effect of energy supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 240
Energy Metabolism
Effect of high temperature and feeding level on energy utilization in piglets, 1849
Energy Sources

Effects of postweaning dietary energy source on reproductive traits in primiparous sows, 420
Energy Value
Comparative total tract digestibility of dietary energy and nutrients in growing pigs and adult sows, 2418
Entodinium exiguum
In vitro growth and starch digestion by *Entodinium exiguum* as influenced by the presence or absence of live bacteria, 2465
Environment
Behavior and performance of lactating sows and piglets reared indoors or outdoors, 2571
Liquid diets accelerate the growth of early-weaned pigs and the effects are maintained to market weight, 427
The "new perception" of animal agriculture: Legless cows, featherless chickens, and a need for genuine analysis, 634
Environmental Factors
Disease-induced variability of genetic correlations: Ascites in broilers as a case study, 1723
Spirometric performance in Belgian Blue calves. 2: Analysis of environmental factors and estimation of genetic parameters, 1162
Environmental Temperature
Effect of high temperature and feeding level on energy utilization in piglets, 1849
Enzymes
Influence of supplementary fibrolytic enzymes on the fermentation of corn and grass silages by mixed ruminal microorganisms in vitro, 1905
Resistance of feed enzymes to proteolytic inactivation by rumen microorganisms and gastrointestinal proteases, 1621
Technical note: Methods for detecting liquid enzyme additives added to animal feeds, 2731
Epidemiology
Developing stochastic epidemiological models to quantify the dynamics of infectious diseases in domestic livestock, 2047
Utilizing stochastic genetic epidemiological models to quantify the impact of selection for resistance to infectious diseases in domestic livestock, 2057
Epinephrine
Effects of the perfusion of β-, β2-, or β3-adrenergic agonists or epinephrine on in situ adipose tissue lipolysis measured by microdialysis in underfed ewes, 453
Ergot Alkaloids
Complex interaction of ergovaline with 5-HT_{2A}, 5-$HT_{1B/1D}$ and $alpha_1$ receptors in isolated arteries of rat and Guinea Pig, 2202
Ergot alkaloid transport across ruminant gastric tissues, 542
Estimation
The empirical bias of estimates by restricted maximum likelihood, Bayesian method, and Method $\Re$ under selection for additive, maternal, and dominance models, 2991
Estrone
Early postnatal plasma concentrations of testicular steroid hormones, pubertal development, and carcass leanness as potential indicators of boar taint in market weight intact male pigs, 1868
Estrous Cycle
Effect of excess degradable intake protein on early embryonic development, ovarian steroids, and blood urea nitrogen on days 2, 3, 4, and 5 of the estrous cycle in mature ewes, 193
The influence of the phase of the estrous cycle on sheep endometrial tissue response to lipopolysaccharide, 463
Estrus
Administration of P.G. 600 to sows at weaning and the time of ovulation as determined by transrectal ultrasound, 796
Effectiveness of GnRH plus prostaglandin $F_{2\alpha}$ for estrus synchronization in cattle of Bos *indicus* breeding, 309
Effect of GnRH pretreatment on reproductive performance of postpartum suckled beef cows following synchronization of estrus using GnRH and $PGF_{2\alpha}$, 1675
Effects of P.G. 600 on the onset of estrus and ovulation rate in gilts treated with Regu-mate, 2757
Efficacy of an intravaginal progesterone insert and an injection of $PGF_{2\alpha}$ for synchronizing estrus and shortening the interval to pregnancy in postpartum beef cows, peripubertal beef heifers, and dairy heifers, 982
Factors influencing estrus and ovulation in weaned sows as determined by transrectal ultrasound, 2957
Improved synchrony of estrus and ovulation with the addition of GnRH to a melengestrol acetate-prostaglandin $F_{2\alpha}$?synchronization treatment in beef heifers, 2210
Intervals from norgestomet withdrawal and injection of equine chorionic gonadotropin or P.G. 600 to estrus and ovulation in ewes, 589
Pregnancy rate in beef heifers after synchronization to either random or programmed estrous cycles, 561
The influence of gestation feeding strategy on body composition of gilts at farrowing and response to dietary protein in a modified lactation, 2397
Ethics
The "new perception" of animal agriculture: Legless cows, featherless chickens, and a need for genuine analysis, 634
Evaluation
Evaluation of the 1996 NRC beef model under western Canadian environmental conditions, 267
Ewes
Effect of excess degradable intake protein on early embryonic development, ovarian steroids, and blood urea nitrogen on days 2, 3, 4, and 5 of the estrous cycle in mature ewes, 193
Effects of the perfusion of β-, β2-, or β3-adrenergic agonists or epinephrine on in situ adipose tissue lipolysis measured by microdialysis in underfed ewes, 453
Gross anatomical and histomorphometric characteristics of the oviduct and uterus during the pubertal transition in sheep, 167
The influence of the phase of the estrous cycle on sheep endometrial tissue response to lipopolysaccharide, 463
Usefulness of subjective ovine milk scores: I. Associations with range ewe characteristics and lamb production, 811
Usefulness of subjective ovine milk scores: II. Genetic parameter estimates, 869
Exports
Factors influencing consumer demand for U.S. pork exported to the Republic of Korea (South Korea), 907
Extruded Foods
Apparent ileal digestibility of amino acids and the digestible and metabolizable energy content of dry extruded-expelled soybean meal and its effects on growth performance of pigs, 1280
Extrusion
In vitro fermentation characteristics of native and processed cereal grains and potato starch using ileal chyme from dogs, 435
Exudative Meat
Vitamin-mineral supplementation and accelerated chilling effects on quality of pork from pigs that are monomutant or noncarriers of the halothane gene, 2346

F

Farming
Transgenesis may affect farm animal welfare: A case for systematic risk assessment, 1763
Farrowing
Administration of P.G. 600 to sows at weaning and the time of ovulation as determined by transrectal ultrasound, 796
Progress of farrowing and early postnatal pig behavior in relation to genetic merit for pig survival, 1416
Fat
Carcass traits, cut yields, and compositional end points in high-lean-yielding pork carcasses: Effects of 10th rib backfat and loin eye area, 115
Dietary fat supplementation effects on in vitro nutrient disappearance and in vivo nutrient intake and total tract digestibility by horses, 232
Effect of varying carbohydrate and fat content of milk replacer on body composition of Holstein bull calves, 2260
Effects of dietary rice bran, lasalocid, and sex of calf on postpartum reproduction in Brahman cows, 2968
Gluteus medius and rump fat depths as additional live animal ultrasound measurements for predicting retail product and trimmable fat in beef carcasses, 1378
Influence of intraduodenally infused olive and coconut oil on postprandial exocrine pancreatic secretions of growing pigs, 477
The influence of ultimate pH and intramuscular fat content on pork tenderness and tenderization, 392

Fat Metabolism
Associations of heart and adipocyte fatty acid-binding protein gene expression with intramuscular fat content in pigs, 347
Fattening Performance
Biological and economic performance of early-weaned Angus steers, 2762
Fatty Acids
Analysis of the signal pathways involved in the regulation of fatty acid synthase gene expression by insulin and somatotropin, 1194
Breed effects on growth performance, carcass characteristics, fatty acid composition, and palatability attributes in finishing steers, 355
Dietary conjugated linoleic acid alters fatty acid composition of pig skeletal muscle and fat, 2152
Effect of forage:concentrate ratio on ruminal digestion and duodenal flow of fatty acids in ewes, 2233
Effects of conjugated linoleic acid on the belly firmness and fatty acid composition of genetically lean pigs, 2866
Effects of feeding high-oil corn to beef steers on carcass characteristics and meat quality, 582
Performance, carcass characteristics, and lipid metabolism in growing and finishing Simmental steers fed varying concentrations of copper, 2920
Rumen microbial sequestration of [2-^{13}C]acetate in cattle, 2491
Transcriptional regulation of fatty acid synthase gene by somatotropin in 3T3-F442A adipocytes, 2336
Feed Conversion Efficiency
Genetic and phenotypic variance and covariance components for feed intake, feed efficiency, and other postweaning traits in Angus cattle, 2805
Feed Efficiency
Early weaning and postweaning nutritional management affect feedlot performance of Angus × Simmental heifers and the relationship of 12th rib fat and marbling score to feed efficiency, 1660
Feed Intake
Effect of high temperature and feeding level on energy utilization in piglets, 1849
Effects of exposure to high ambient temperature and dietary protein level on performance of multiparous lactating sows, 1240
Effects of water sulfate concentration on performance, water intake, and carcass characteristics of feedlot steers, 2941
Individually measured feed intake characteristics and growth performance of group-housed weanling pigs: Effects of sex, initial body weight, and body weight distribution within groups, 301
Influence of pasture sward height and concentrate supplementation on intake, digestibility, and grazing time of lactating beef cows, 745
Locomotor activity, core body temperature, and circadian rhythms in mice selected for high or low heat loss, 861
Predicting individual feed requirements of cattle fed in groups, 1983
The effect of feed intake on ileal rate of passage and apparent amino acid digestibility determined with or without correction factors in pigs, 1250
Feeding
Muscle glycogen stores and meat quality as affected by strategic finishing feeding of slaughter pigs, 382
Feeding Behavior
Effect of group size and feeder type on growth performance and feeding patterns in growing pigs, 803
Feeding Frequency
Effect of feeding frequency on bacterial and fungal concentrations, pH, and other parameters in the rumen, 2908
Energy utilization of low-protein diets in growing pigs, 1259
The effects of several supplementation frequencies on forage use and the performance of beef cattle consuming dormant tallgrass prairie forage, 2276
Feedlots
Accumulation and consumption of odorous compounds in feedlot soils under aerobic, fermentative, and anaerobic respiratory conditions, 2503
Behavioral sampling techniques for feedlot cattle, 1189
Effects of programmed growth rate and days fed on performance and carcass characteristics of feedlot steers, 1394
Genotype × environment interactions for postweaning performance in crossbred calves grazing winter wheat pasture or dormant native prairie, 1370
Predicting individual feed requirements of cattle fed in groups, 1983
Shade and water misting effects on behavior, physiology, performance, and carcass traits of heat-stressed feedlot cattle, 2327
Feed Supplements
Supplemental soybean oil or corn for beef heifers grazing summer pasture: Effects on forage intake, ruminal fermentation, and site and extent of digestion, 2704
The effects of several supplementation frequencies on forage use and the performance of beef cattle consuming dormant tallgrass prairie forage, 2276
Fermentation
Effects of carbohydrates from citrus pulp and hominy feed on microbial fermentation in continuous culture, 2713
Effects of dietary fermentable carbohydrates on energy metabolism in group-housed sows, 148
Fruit and vegetable fiber fermentation by gut microflora from canines, 919
Hydrolyzable carbohydrates in pasture, hay, and horse feeds: Direct assay and seasonal variation, 500
In vitro fermentation characteristics of native and processed cereal grains and potato starch using ileal chyme from dogs, 435
Fertility
Nocturnal melatonin and prolactin plasma concentrations in sheep selected for fertility in autumn lambing, 2895
Fertilization
Effects of nitrogen fertilization and harvest date on yield, digestibility, fiber, and protein fractions of tropical grasses, 2439
Pasture management effects on diet composition and cattle performance on continuously stocked rhizoma peanut-mixed grass swards, 2456
Festuca
Ergot alkaloid transport across ruminant gastric tissues, 542
Genetic × environment interactions on blood constituents of Angus, Brahman, and reciprocal-cross cows and calves grazing common bermudagrass or endophyte-infected tall fescue, 1151
Influence of protein supplementation and implant status on alleviating fescue toxicosis, 827
Preference by sheep and goats among hay of eight tall fescue cultivars, 213
Tasco-Forage: II. Monocyte immune cell response and performance of beef steers grazing tall fescue treated with a seaweed extract, 1022
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Fetal Growth
Effects of exogenous somatotropin during early gestation on maternal performance, fetal growth, and compositional traits in pigs, 1789
Fiber
Comparative total tract digestibility of dietary energy and nutrients in growing pigs and adult sows, 2418
Dietary fat supplementation effects on in vitro nutrient disappearance and in vivo nutrient intake and total tract digestibility by horses, 232
Effect of heterogeneous digesta chemical composition on the accuracy of measurements of fiber flow in dairy cows, 1611
Effects of supplement type on animal performance, forage intake, digestion, and ruminal measurements of growing beef cattle, 1041
Fruit and vegetable fiber fermentation by gut microflora from canines, 919
Influence of supplementary fibrolytic enzymes on the fermentation of corn and grass silages by mixed ruminal microorganisms in vitro, 1905
Plasma glucose and insulin responses of Thoroughbred mares fed a meal high in starch and sugar or fat and fiber, 2196
The amino acid profiles of the whole plant and of four plant residues from temperatue and tropical forages, 525
Fiber Quality
Fiber characteristics of qiviut and guard hair from wild muskoxen (*Ovibos moschatus*), 1670

Fibroblasts
Coordinate expression of matrix-degrading proteinases and their activators and inhibitors in bovine skeletal muscle, 94
Effects of growth factors on insulin-like growth factor binding protein (IGFBP) secretion by primary porcine satellite cell cultures, 2820
Fighting
Effects of repeated cross-fosterings on preweaning behavior and growth performance of piglets and on maternal behavior of sows, 88
Finishing
Effect of group size on pig performance in a wean-to-finish production system, 1067
Effects of programmed growth rate and days fed on performance and carcass characteristics of feedlot steers, 1394
Fish
Evaluation of ultrasound imagery and body shape to predict carcass and fillet yield in farm-raised catfish, 1483
Fish Meal
Nutritional value of fish meals in the diet for young pigs, 1829
Fitness
Segregation ratios and growth rate in inactive ovine metallothionein 1a-ovine growth hormone transgenic mice, 1734
Flavor
Changes in preferences of gestating heifers fed untreated or ammoniated straw in different flavors, 3027
Foals
Growth of Thoroughbreds fed a low-protein supplement fortified with lysine and threonine, 2143
Folic Acid
Intravenous infusion of iron and tetrahydrofolate does not influence intrauterine uteroferrin and secreted folate-binding protein content in swine, 188
Follicle Stimulating Hormone
Effectiveness of intravaginal progesterone inserts and FSH for inducing synchronized estrus and increasing lambing rate in anestrous ewes, 1120
Follicles
Effects of dietary rice bran, lasalocid, and sex of calf on postpartum reproduction in Brahman cows, 2968
Food Additives
Resistance of feed enzymes to proteolytic inactivation by rumen microorganisms and gastrointestinal proteases, 1621
Food
Influence of free-choice vs mixed-ration diets on food intake and performance of fattening calves, 3034
Food Intake
Effects of supplement type on animal performance, forage intake, digestion, and ruminal measurements of growing beef cattle, 1041
Food Misinformation
Technical note: A quick and more sensitive method to identify pork in processed and unprocessed food by PCR amplification of a new specific DNA fragment, 2108
Food Preferences
Changes in preferences of gestating heifers fed untreated or ammoniated straw in different flavors, 3027
Genetic and phenotypic parameters for dietary selection of mountain big sagebrush (Artemisia tridentata Nutt. ssp. vaseyana [Rydb] Beetle) in Rambouillet sheep, 486
Pasture management effects on diet composition and cattle performance on continuously stocked rhizoma peanut-mixed grass swards, 2456
Preference by sheep and goats among hay of eight tall fescue cultivars, 213
Food Supplements
Effect of diets containing n–3 fatty acids on muscle long-chain n–3 fatty acid content in lambs fed low- and medium-quality roughage diets, 698
Food Supply
The "new perception" of animal agriculture: Legless cows, featherless chickens, and a need for genuine analysis, 634
Forages
Crude protein fractions in common vetch (Vicia sativa L.) fresh forage during pod filling, 2449
Effect of forage:concentrate ratio on ruminal digestion and duodenal flow of fatty acids in ewes, 2233
Effect of ruminal vs postruminal administration of degradable protein on utilization of low-quality forage by beef steers, 225
Effects of nitrogen fertilization and harvest date on yield, digestibility, fiber, and protein fractions of tropical grasses, 2439
Genotype × environment interactions in milk yield and quality in Angus, Brahman, and reciprocal-cross cows on different forage systems, 1643
Hydrolyzable carbohydrates in pasture, hay, and horse feeds: Direct assay and seasonal variation, 500
Impact of different wheat milling by-products in supplements on the forage use and performance of beef cattle consuming low-quality, tallgrass-prairie forage, 2472
Tasco-Forage: II. Monocyte immune cell response and performance of beef steers grazing tall fescue treated with a seaweed extract, 1022
The effects of several supplementation frequencies on forage use and the performance of beef cattle consuming dormant tallgrass prairie forage, 2276
Urea and(or) feather meal supplementation for yearling steers grazing limpograss (Hemarthria altissima var. 'Floralta') pasture, 3170
Formates
Effect of K-diformate in starter diets on acidity, microbiota, and the amount of organic acids in the digestive tract of piglets, and on gastric alterations, 2123
Fostering
Effects of repeated cross-fosterings on preweaning behavior and growth performance of piglets and on maternal behavior of sows, 88
Fragmentation
Technical Note: Comparison of Myofibril Fragmentation Index from Fresh and Frozen Pork and Lamb Longissimus, 904
Fruit
Fruit and vegetable fiber fermentation by gut microflora from canines, 919
FSH
Endocrine relationships of Meishan and White composite females after weaning and during the luteal phase of the estrous cycle, 176
Increased plasma follicle-stimulating hormone concentrations in prepubertal gilts from lines selected for increased number of corpora lutea, 1877
LHRH antagonist decreases LH and progesterone secretion but does not alter length of estrus cycle in heifers, 2902
Fungi
Effect of feeding frequency on bacterial and fungal concentrations, pH, and other parameters in the rumen, 2908

G

Gamagrass
Urea flux in beef steers: Effects of forage species and nitrogen fertilization, 1937
Gene Expression
Molecular identification of high-affinity glutamate transporters in sheep and cattle forestomach, intestine, liver, kidney, and pancreas, 1329
Rapid communication: Sequence of a quail calpain cDNA, 775
Gene Mapping
Rapid communication: Chromosomal localization and partial cDNA sequence of the porcine ATP synthase, H^+ transporting, mitochondrial F0 complex, subunit e (ATP5I) gene, 1353
Rapid Communication: Genetic linkage and physical mapping of the porcine phospholipid transfer protein (PLTP) gene, 1634
Rapid communication: Genetic linkage and physical mapping of the porcine lipopolysaccharide-binding protein (LBP) gene, 557
Rapid communication: Isolation and regional localization of the porcine glial fibrillary acidic protein (GFAP, 2754
Rapid communication: Linkage mapping of the porcine micromolar calcium-activated neutral protease 1 (μ-calpain) gene on SSC2, 555
Rapid communication: Mapping of Oxytocin (OXT) to the central region of bovine chromosome 13 by linkage analysis using SSCP, 778
Rapid communication: Mapping of the bovine stearoyl-coenzyme A desaturase (SCD) gene to BTA26, 1955

Rapid communication: Mapping of the pro-opiomelanocortin (*POMC*) gene to pig chromosome by linkage analysis using a PCR-RFLP, 2242
Rapid communication: Microsatellites isolated from BAC clones containing v-akt1 murine thymoma viral oncogene homolog 1 and bradykinin receptor B2 assigned to sheep chromosome 18 by linkage analysis, 551
Generation Interval
Inbreeding and effective population size of Japanese Black cattle, 366
Genes
The effects of Piedmontese inheritance and myostatin genotype on the palatability of longissimus thoracis, gluteus medius, semimembranosus, and biceps femoris, 3069
Genetic Analysis
Efficient computation of genotype probabilities for loci with many alleles: I. Allelic peeling, 26
Efficient computation of genotype probabilities for loci with many alleles: II. Iterative method for large, complex pedigrees, 34
Use of the preconditioned conjugate gradient algorithm as a generic solver for mixed-model equations in animal breeding applications, 1166
Genetic Correlation
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: I. Calving difficulty score, birth weight, weaning weight, and postweaning gain, 45
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: II. Reproductive, skeletal, and carcass traits, 52
Genetic parameter estimates from joint evaluation of purebreds and crossbreds in swine using the crossbred model, 3002
Genetic Distance
Genetic analysis of Mexican hairless pig population, 3021
Genetic Diversity
Genetic analysis of Mexican hairless pig population, 3021
Genetic Effects
Predicting rates of inbreeding for livestock improvement schemes, 840
Genetic Markers
A comprehensive search for quantitative trait loci affecting growth and carcass composition of cattle segregating alternative forms of the myostatin gene, 854
Associations of heart and adipocyte fatty acid-binding protein gene expression with intramuscular fat content in pigs, 347
Birth weight QTL on bovine chromosome 2, 68
Efficient computation of genotype probabilities for loci with many alleles: I. Allelic peeling, 26
Efficient computation of genotype probabilities for loci with many alleles: II. Iterative method for large, complex pedigrees, 34
Intramuscular fat content and genetic variants at fatty acid-binding protein loci in Austrian pigs, 2798
Optimum mating systems for the myostatin locus in cattle, 2016
Potential gain from otpimizing multigeneration selection on an identified quantitative trait locus, 2975
Genetic Models
Mapping of multiple quantitative trait loci by simple regression in half-sib designs, 616
Survival analysis of lamb mortality in a terminal sire composite population, 2298
Genetic Parameters
Disease-induced variability of genetic correlations: Ascites in broilers as a case study, 1723
Genetic and phenotypic variance and covariance components for feed intake, feed efficiency, and other postweaning traits in Angus cattle, 2805
Genetic correlation estimates between ultrasound measurements on yearling bulls and carcass measurements on finished steers, 2790
Genetic evaluation of carcass traits in Simmental-sired cattle at different slaughter end points, 595
Genetic parameters for ultrasound and carcass measures of yield and quality among replacement and slaughter beef cattle, 3008
Genetics of milk yield and fertility traits in Holstein-Friesian cattle on large-scale Kenyan farms, 1742
Spirometric performance in Belgian Blue calves. 2: Analysis of environmental factors and estimation of genetic parameters, 1162
Genetic Polymorphism
Rapid communication: Genetic linkage and physical mapping of the porcine lipopolysaccharide-binding protein (LBP) gene, 557
Rapid communication: Mapping of *Oxytocin* (*OXT*) to the central region of bovine chromosome 13 by linkage analysis using *SSCP*, 778
Genetic Variance
Direct and maternal genetic effects on birth and weaning traits in multibreed cattle data and predicted performance of breed crosses, 1713
Estimation of additive and nonadditive genetic variances in Hereford, Gelbvieh, and Charolais by Method $\mathfrak{R}$, 2997
Genetic Variation
Assessment of genetic variability of resistance to gastrointestinal nematode parasites in Creole goats in the humid tropics, 1706
Genistein
The effect of dietary soy genistein on pig growth and viral replication during a viral challenge, 1272
Genome Analysis
A whole-genome scan for quantitative trait loci affecting teat number in pigs, 2320
Genomic Imprinting
Detection and characterization of quantitative trait loci for meat quality traits in pigs, 2812
Genotype × Environment
Disease-induced variability of genetic correlations: Ascites in broilers as a case study, 1723
Genetic × environment interactions on blood constituents of Angus, Brahman, and reciprocal-cross cows and calves grazing common bermudagrass or endophyte-infected tall fescue, 1151
Genotype × environment interactions in milk yield and quality in Angus, Brahman, and reciprocal-cross cows on different forage systems, 1643
Genotypes
Growth and slaughter traits of Boer × Spanish, Boer × Angora, and Spanish goats consuming a concentrate-based diet, 1423
Geographical Distribution
Carcass traits and microsatellite distributions in offspring of sires from three geographical regions of Japan, 3041
Gestation
Effect of energy and lysine intake in gestation on sow performance, 2367
Effects of exogenous somatotropin during early gestation on maternal performance, fetal growth, and compositional traits in pigs, 1789
Gilts
Development of Porcine Embryos In Vitro: Effects of Culture Medium and Donor Age, 1578
Effect of prepubertal feeding regimen on reproductive development and performance of gilts through the first pregnancy, 787
Effects of different patterns of feed restriction and insulin treatment during the luteal phase on reproductive, metabolic, and endocrine parameters in cyclic gilts, 200
Effects of P.G. 600 on the onset of estrus and ovulation rate in gilts treated with Regu-mate, 2757
Level of dietary energy during prepubertal growth and reproductive development of gilts, 2513
Ovulation rate and litter size in gilts immunized against androstenedione and 17α-hydroxyprogesterone, 1691
The influence of gestation feeding strategy on body composition of gilts at farrowing and response to dietary protein in a modified lactation, 2397
Glial Fibrillary Acidic Protein
Rapid communication: Isolation and regional localization of the porcine glial fibrillary acidic protein (GFAP) gene, 2754
Glucose
Effect of chromium picolinate and chromium propionate on glucose and insulin kinetics of growing barrows and on growth and carcass traits of growing-finishing barrows, 2172
Effects of postweaning dietary energy source on reproductive traits in primiparous sows, 420
Influence of α-linked glucose on sodium-glucose cotransport activity along the small intestine in cattle, 1917
Plasma glucose and insulin responses of Thoroughbred mares fed a meal high in starch and sugar or fat and fiber, 2196

Glutamic Acid
Molecular identification of high-affinity glutamate transporters in sheep and cattle forestomach, intestine, liver, kidney, and pancreas, *1329*

Gluten
Intake restriction strategies and sources of energy and protein during the growing period affect nutrient disappearance, feedlot performance, and carcass characteristics of crossbred *heifers, 1598*

Glycogen
Muscle glycogen stores and meat quality as affected by strategic finishing feeding of slaughter pigs, 382

GnRH
*Effectiveness of GnRH plus prostaglandin $F_{2\alpha}$ for estrus synchro*nization in cattle of *Bos indicus* breeding, 309
*Effect of GnRH pretreatment on reproductive performance of post*partum suckled beef cows following synchronization of estrus using GnRH and $PGF_{2\alpha}$, 1675
Improved synchrony of estrus and ovulation with the addition of GnRH to a melengestrol acetate-prostaglandin $F_{2\alpha}$?synchron*ization treatment in beef heifers, 2210*
Synchronization of ovulation using GnRH or hCG with the CO-Synch protocol in suckled beef cows, 2536
The effect of early postnatal treatment with a gonadotropin-releasing hormone agonist on the developmental profiles of tes*ticular steroid hormones in the intact male pig, 1003*
The effect of early postnatal treatment with a gonadotropin-releasing hormone agonist on the developmental profiles of testicular steroid hormones in the intact male pig, 1003
Vaccination of boars with a GnRH vaccine (Improvac) eliminates *boar taint and increases growth performance, 2524*

Goat Breeds
Effects of bovine somatotropin and thyroid hormone status on hormone levels, body weight gain, and mohair fiber growth of Angora goats, 2913

Goats
Assessment of genetic variability of resistance to gastrointestinal *nematode parasites in Creole goats in the humid tropics, 1706*
Growth and slaughter traits of Boer × Spanish, Boer × Angora, *and Spanish goats consuming a concentrate-based diet, 1423*
Induction of sexual activity of male creole goats in subtropical northern Mexico using long days and melatonin, 2245
Preference by sheep and goats among hay of eight tall fescue cultivars, 213
*Technical note: Vitrification of goat embryos by the open pulled-*straw method, 2436

Gonadotropins
Effects of P.G. 600 on the onset of estrus and ovulation rate in gilts treated with Regu-mate, 2757
Intervals from norgestomet withdrawal and injection of equine chorionic gonadotropin or P.G. 600 to estrus and ovulation *in ewes, 589*

Gossypol
*Reproductive efficiency and maternal-offspring transfer of gossy*pol in Rainbow Trout (*Oncorhynchus mykiss*) fed diets containing cottonseed meal, 1533

Graafian Follicles
Effect of short-term calf removal at three stages of a follicular *wave on fate of a dominant follicle in postpartum beef* cows, 2688

Grain
Effects of barley grain processing on the site and extent of digestion of beef feedlot finishing diets, 1925
Effects of supplement type on animal performance, forage intake, digestion, and ruminal measurements of growing beef cattle, *1041*

Grass Silage
Influence of supplementary fibrolytic enzymes on the fermentation of corn and grass silages by mixed ruminal microorganisms in vitro, 1905
The effect of energy supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 240
The effect of protein supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 247

Grass Sward
Influence of pasture sward height and concentrate supplementation on intake, digestibility, and grazing time of lactating beef cows, 745

Grasses
Performance of light vs heavy steers grazing Plains Old World bluestem at three stocking rates, 493

Grazing
Genetic and phenotypic parameters for dietary selection of mountain big sagebrush (*Artemisia tridentata* Nutt. ssp. *vaseyana* [Rydb] Beetle) in Rambouillet sheep, 486
Performance of light vs heavy steers grazing Plains Old World *bluestem at three stocking rates, 493*
Relationship between terrain use and performance of beef cows *grazing foothill rangeland, 1883*
Tasco-Forage: II. Monocyte immune cell response and performance of beef steers grazing tall fescue treated with a seaweed *extract, 1022*
The effects of grazing, liquid supplements, and implants on feedlot *performance and carcass traits of Holstein steers, 325*
Urea and(or) feather meal supplementation for yearling steers grazing limpograss (*Hemarthria altissima* var. 'Floralta') pasture, 3170

Group Behavior
*Behavioral, adrenal, immune, and productive responses of lactat*ing ewes to regrouping and relocation, 1457
Individually measured feed intake characteristics and growth performance of group-housed weanling pigs: Effects of sex, initial body weight, and body weight distribution within *groups, 301*

Group Size
Effect of group size and feeder type on growth performance and feeding patterns in growing pigs, 803
Effect of group size on pig performance in a wean-to-finish production system, 1067

Growth
Apparent ileal digestibility of amino acids and the digestible and metabolizable energy content of dry extruded-expelled soybean meal and its effects on growth performance of pigs, 1280
Association of a genetic marker with blood serum insulin-like growth factor-I concentration and growth traits in Angus cattle, 1757
Breed and heterotic effects on postweaning traits in Altex and New Zealand White straightbred and crossbred rabbits, 1173
Calf growth in captive Iberian red deer (*Cervus elaphus hispanicus*): *Effects of birth date and hind milk production and com*position, 1085
Characterization of topcross progenies from Hereford, Limousin, and Piedmontese sires, 1751
Daily treatment of horses with equine somatotropin from 4 to 16 months of age, 3137
Dietary L-carnitine suppresses mitochondrial branched-chain *keto acid dehydrogenase activity and enhances protein accre*tion and carcass characteristics of swine, 3104
Dietary manipulation to reduce aerial ammonia concentrations in nursery pig facilities, 3096
Effect of chromium picolinate and chromium propionate on glucose and insulin kinetics of growing barrows and on growth and carcass traits of growing-finishing barrows, 2172
*Effect of dietary boron on growth performance, calcium and phos*phorus metabolism, and bone mechanical properties in grow*ing barrows, 3120*
Effect of group size and feeder type on growth performance and feeding patterns in growing pigs, 803
Effect of prepubertal feeding regimen on reproductive development and performance of gilts through the first pregnancy, 787
Effect of varying carbohydrate and fat content of milk replacer *on body composition of Holstein bull calves, 2260*
Effects of betaine on growth, carcass characteristics, pork quality, and plasma metabolites of finishing pigs, 722
Effects of dietary soy isoflavones on growth, carcass traits, and meat quality in growing-finishing pigs, 1230
Effects of repeated cross-fosterings on preweaning behavior and growth performance of piglets and on maternal behavior of sows, 88
Estimates of covariance functions for growth from birth to 630 days of age in Nelore cattle, 2776
Genetic and phenotypic variance and covariance components for feed intake, feed efficiency, and other postweaning traits in Angus cattle, 2805

Genetic correlations for litter weight weaned with growth, prolificacy, and wool traits in Columbia, Polypay, Rambouillet, and Targhee sheep, 339
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: II. Reproductive, skeletal, *and carcass traits, 52*
Growth and slaughter traits of Boer × Spanish, Boer × Angora, and Spanish goats *consuming a concentrate-based diet, 1423*
Growth of Thoroughbreds fed a low-protein supplement fortified with lysine and threonine, 2143
Growth, puberty, and carcass characteristics of Brahman-, Senepol-, and Tuli-sired F_1 Angus bulls, 2006
Inflammatory response, *growth, and thyroid hormone concentrations* are affected by long-term boron supplementation in gilts, 1549
Influence of threonine intake on whole-body protein deposition and threonine utilization in growing pigs fed purified diets, 3087
Interactions in postweaning production of F_1 cattle from Hereford, Limousin, or Piedmontese sires, 317
Level of dietary energy during prepubertal growth and reproductive development of gilts, 2513
Liquid diets *accelerate the growth of early-weaned pigs and the* effects are maintained to market weight, 427
Manipulation of cattle growth to target carcass quality, 133
Nutritional value of fish meals in the diet for young pigs, 1829
Performance of light vs heavy steers grazing Plains Old World *bluestem at three stocking rates, 493*
Production performance of beef cows raised on three different nutritionally controlled heifer development *programs, 819*
The effect of dietary soy daidzein on pig growth and viral replication during a viral challenge, 3113
The effect of dietary soy genistein on pig growth and viral replication during a viral challenge, 1272
Usefulness of subjective *ovine milk scores: I. Associations with* range ewe characteristics and lamb production, 811
Usefulness of subjective ovine milk scores: II. Genetic *parameter* estimates, 869
Vaccination of boars with a GnRH vaccine (Improvac) eliminates *boar taint and increases growth* performance, 2524

Growth Hormone-Releasing Hormone
Growth *hormone response to growth hormone-releasing hormone* in beef cows divergently selected for milk production, 1295
Relation of growth hormone response to growth hormone-releasing hormone before weaning and postweaning growth performance in beef calves, 2217

Growth Performance
Effect of dietary L-Carnitine on growth performance and body composition in nursery and *growing-finishing pigs, 1509*
Relation of growth hormone response to growth hormone-releasing hormone before weaning and postweaning growth performance in beef calves, 2217

Growth Promoters
Effect of *weaning status and implant regimen on growth,* performance, and carcass characteristics of steers, 1074

Guinea Pigs
Complex interaction of ergovaline with 5-HT_{2A}, 5-$HT_{1B/1D}$ and $alpha_1$ receptors in isolated arteries of rat and Guinea Pig, *2202*

H

Hair
Effect of dietary selenium source, level, and pig hair color on various selenium indices, 949

Halothane Susceptibility
Vitamin-mineral supplementation and accelerated chilling effects on quality of pork from pigs that are monomutant or noncarriers of the halothane gene, 2346

Handling
Effects of surgical catheterization and degree of isolation on the behavior and exocrine pancreatic secretion of newly weaned pigs, 1179

Hay
Effects of supplement type on animal performance, forage intake, digestion, and ruminal measurements of growing beef cattle, 1041
Retention time of macerated alfalfa hay and silage in sheep, 507

hCG
Effect of human chorionic gonadotropin on lutealfFunction and reproductive performance of high-producing lactating Holstein *dairy cows, 2881*
Synchronization of ovulation using GnRH or hCG with the CO-Synch protocol in suckled beef cows, 2536

Heat
Thermoregulatory ability of beef heifers following intake of endophyte-infected *tall fescue during controlled heat challenge,* 1780

Heating
Impact of heating-degree-day accumulation during bermudagrass hay storage on nutrient utilization by lambs, 2698

Heat Loss
Locomotor activity, core body temperature, and circadian rhythms in mice selected for high or low heat loss, 861

Heat Production
Effect of high temperature and feeding level on energy utilization in *piglets, 1849*
Energy utilization of low-protein diets in growing pigs, 1259

Heat Stress
Effects of exposure to high ambient temperature and dietary protein level on performance of multiparous lactating sows, 1240
Effects of exposure to high ambient temperature and dietary protein level on sow milk production and performance of piglets, 1540
Shade and water misting effects on behavior, physiology, performance, and carcass traits of heat-stressed feedlot cattle, 2327

Heifers
Early weaning and postweaning nutritional management affect feedlot performance of Angus × Simmental *heifers and the* relationship of 12th rib fat and marbling score to feed efficiency, 1660
Effect of nitrogen source in *high-concentrate,* low-protein beef cattle diets on microbial fermentation studied in vivo and in *vitro, 1944*
Effects of supplementing combinations of inorganic and complexed copper on *performance and liver mineral status of beef* heifers consuming antagonist, 2926
Improved synchrony of estrus and ovulation with the addition of *GnRH* to a melengestrol acetate-prostaglandin $F_{2\alpha}$?synchronization treatment in beef heifers, 2210
Influence of pregnancy on body weight, ruminal characteristics, and visceral organ mass in beef heifers, 2481
LHRH antagonist decreases LH and *progesterone secretion* but does not alter length of estrus cycle in heifers, 2902
Pregnancy rate in beef heifers after synchronization to either *random or programmed* estrous cycles, 561
Soybean hulls as a primary ingredient in forage-free diets for limit-fed *growing cattle, 766*

Hemarthria altissima
Urea and(or) feather meal supplementation for yearling steers grazing limpograss (*Hemarthria altissima* var. 'Floralta') pasture, 3170

Heritability
Estimates of covariance functions for growth from birth to 630 days of age in Nelore cattle, 2776
Genetic and phenotypic parameters for dietary selection of mountain big sagebrush (*Artemisia tridentata* Nutt. ssp. *vaseyana [Rydb] Beetle*) in Rambouillet sheep, 486
Genetic correlations for litter weight weaned with growth, prolificacy, *and wool traits in Columbia, Polypay, Rambouillet,* and Targhee sheep, 339
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: I. Calving difficulty score, birth weight, weaning weight, and postweaning gain, 45
Genetic *(co)variances for calving difficulty score in composite* and parental populations of beef cattle: II. Reproductive, skeletal, and carcass traits, 52
Genetics of milk yield and fertility traits in Holstein-Friesian cattle on large-scale Kenyan farms, 1742
Survival *analysis of lamb mortality in a terminal sire composite* population, 2298
Usefulness of subjective ovine milk scores: II. Genetic parameter estimates, 869

Heterosis
Breed and heterotic effects on postweaning traits in Altex and New Zealand White straightbred and crossbred rabbits, 1173

Genotype × environment interactions for postweaning performance in crossbred calves grazing winter wheat pasture or dormant native prairie, 1370
Heterozygosity
Genetic analysis of Mexican hairless pig population, 3021
High Density Planting
Effects of grain sorghum planting density and processing method on nutrient digestibility and retention by ruminants, 19
Histology
Gross anatomical and histomorphometric characteristics of the oviduct and uterus during the pubertal transition in sheep, 167
Holstein
The effects of grazing, liquid supplements, and implants on feedlot performance and carcass traits of Holstein steers, 325
Hominy
Effects of carbohydrates from citrus pulp and hominy feed on microbial fermentation in continuous culture, 2713
Hormones
Pituitary hormone and insulin responses to infusion of amino acids and N-methyl-D,L-aspartate in horses, 735
Horses
Alkanes as internal markers to estimate digestibility of hay or hay plus concentrate diets in horses, 1516
Chemical, physical, and environmental properties of pelleted newspaper compared to wheat straw and wood shavings as bedding for horses, 1359
Daily access to pasture turnout prevents loss of mineral in the third metacarpus of Arabian weanlings, 1142
Daily treatment of horses with equine somatotropin from 4 to 16 months of age, 3137
Dietary fat supplementation effects on in vitro nutrient disappearance and in vivo nutrient intake and total tract digestibility by horses, 232
Effects of age and recombinant equine somatotropin (eST) administration on immune function in female horses, 2651
Hydrolyzable carbohydrates in pasture, hay, and horse feeds: Direct assay and seasonal variation, 500
Pituitary hormone and insulin responses to infusion of amino acids and N-methyl-D,L-aspartate in horses, 735
Plasma glucose and insulin responses of Thoroughbred mares fed a meal high in starch and sugar or fat and fiber, 2196
Supplemental silicon increases plasma and milk silicon concentrations in horses, 2627
Technical Note: Using calcium carbonate as an osmolar control treatment for acid-base studies in horses, 1858
Housing
Daily access to pasture turnout prevents loss of mineral in the third metacarpus of Arabian weanlings, 1142
Hybrid
Effect of hybrid, maturity, and mechanical processing of corn silage on intake and digestibility by beef cattle, 2268
Hydrocortisone
Effect of intracerebroventricular orexin-B on food intake in sheep, 1573
Effect of whole-body vibration in the vertical axis on cortisol and adrenocorticotropic hormone levels in piglets, 975
Endocrine relationships of Meishan and White composite females after weaning and during the luteal phase of the estrous cycle, 176
Hypothalamic-Releasing Hormones
Use of growth hormone response to growth hormone-releasing hormone to determine growth potential in beef heifers, 1566
Hypothalamus
Effect of intracerebroventricular orexin-B on food intake in sheep, 1573

I

Ileum
Ileal and total tract nutrient digestibilities and fecal characteristics of dogs as affected by soybean protein inclusion in dry, extruded diets, 1523
Nutritional value of fish meals in the diet for young pigs, 1829
Image Analysis
Computer image analysis for prediction of carcass composition from cross-sections of Japanese Black steers, 2851
Technical note: Use of laser diffraction for particle size distribution measurements in duodenal digesta, 761
Immune Response
Dietary phosphorus and an inflammatory challenge affect performance and immune function of weanling pigs, 413
Tasco-Forage: III. Influence of a seaweed extract on performance, monocyte immune cell response, and carcass characteristics in feedlot-finished steers, 1032
Tasco-Forage: II. Monocyte immune cell response and performance of beef steers grazing tall fescue treated with a seaweed extract, 1022
Immunity
Behavioral, adrenal, immune, and productive responses of lactating ewes to regrouping and relocation, 1457
The influence of the phase of the estrous cycle on sheep endometrial tissue response to lipopolysaccharide, 463
Immunoglobulin
Effects of inorganic and organic copper supplemented to first-calf cows on cow reproduction and calf health and performance, 1650
Immunomodulators
Effects of dietary conjugated linoleic acid in nursery pigs of dirty and clean environments on growth, empty body composition, and immune competence, 714
Impedance
A survey of beef muscle color and pH, 678
Inbreeding
Inbreeding and effective population size of Japanese Black cattle, 366
Predicting rates of inbreeding for livestock improvement schemes, 840
Individuals
Influence of free-choice vs mixed-ration diets on food intake and performance of fattening calves, 3034
Inflammation
Inflammatory response, growth, and thyroid hormone concentrations are affected by long-term boron supplementation in gilts, 1549
Infrared Spectroscopy
Somatic cell count determination in cow's milk by near-infrared spectroscopy: A new diagnostic tool, 2550
Infusion
Effects of postexsanguination vascular infusion of cattle with a solution of saccharides, sodium chloride, phosphates, and vitamins C, E, or C+E on meat display-color stability, 2619
Injection
Incidence of injection-site lesions in beef top sirloin butts, 2615
Insemination
Calf removal improves conception rates to the Ovsynch and CO-Synch protocols, 1
Insulin
Analysis of the signal pathways involved in the regulation of fatty acid synthase gene expression by insulin and somatotropin, 1194
Effect of chromium picolinate and chromium propionate on glucose and insulin kinetics of growing barrows and on growth and carcass traits of growing-finishing barrows, 2172
Effect of dietary modification of muscle long-chain n–3 fatty acid on plasma insulin and lipid metabolites, carcass traits, and fat deposition in lambs, 895
Effects of different patterns of feed restriction and insulin treatment during the luteal phase on reproductive, metabolic, and endocrine parameters in cyclic gilts, 200
Effects of postweaning dietary energy source on reproductive traits in primiparous sows, 420
Pituitary hormone and insulin responses to infusion of amino acids and N-methyl-D,L-aspartate in horses, 735
Plasma glucose and insulin responses of Thoroughbred mares fed a meal high in starch and sugar or fat and fiber, 2196
Transcriptional regulation of fatty acid synthase gene by somatotropin in 3T3-F442A adipocytes, 2336
Insulin-like Growth Factor
Association of a genetic marker with blood serum insulin-like growth factor-I concentration and growth traits in Angus cattle, 1757
Effects of age and recombinant equine somatotropin (eST) administration on immune function in female horses, 2651
Effects of dietary protein on whole-body protein turnover and endocrine function in young-adult and aging dogs, 3128

Effects of growth factors on insulin-like growth factor binding protein (IGFBP) secretion by primary porcine satellite cell cultures, 2820
Effects of postweaning dietary energy source on reproductive traits in primiparous sows, 420
Insulin-Like Growth Factor
Genetic variation in stimulated GH release and in IGF-I of young dairy cattle and their associations with the leucine/valine polymorphism in the GH gene, 470
Intake
Influence of free-choice vs mixed-ration diets on food intake and performance of fattening calves, 3034
Preference for polyethylene glycol by sheep fed a quebracho tannin diet, 2066
Supplemental soybean oil or corn for beef heifers grazing summer pasture: Effects on forage intake, ruminal fermentation, and site and extent of digestion, 2704
In Vitro Growth
In vitro growth and starch digestion by *Entodinium exiguum* as influenced by the presence or absence of live bacteria, 2465
Involution
The regression of unsuckled mammary glands during lactation in sows: The influence of lactation stage, dietary nutrients, and litter size, 2659
Ionophore
Effects of dietary rice bran, lasalocid, and sex of calf on postpartum reproduction in Brahman cows, 2968
Isoenzymes
Rapid Communication: Nucleotide sequences of two isoforms of porcine *micromolar calcium-activated neutral protease 1* cDNA, 553
Isoflavones
Effects of dietary soy isoflavones on growth, carcass traits, and meat quality in growing-finishing pigs, 1230
Isolation
Effects of surgical catheterization and degree of isolation on the behavior and exocrine pancreatic secretion of newly weaned pigs, 1179
Isoleucine
Branched-chain amino acids for growing cattle limit-fed soybean hull-based diets, 2747
Isotope Dilution
Rumen microbial sequestration of [2-^{13}C]acetate in cattle, 2491

J

Japanese Black
Inbreeding and effective population size of Japanese Black cattle, 366
Japanese Quails
Rapid communication: Sequence of a quail calpain cDNA, 775

K

Korean Republic
Factors influencing consumer demand for U.S. pork exported to the Republic of Korea (South Korea), 907

L

L-Carnitine
Effect of dietary L-Carnitine on growth performance and body composition in nursery and growing-finishing pigs, 1509
Lactation
Dynamic ideal protein and limiting amino acids for lactating sows: The impact of amino acid mobilization, 2356
Effect of nipple drinker water flow rate and season on performance of lactating swine, 2770
Effect of nutrient intake in lactation on sow performance: Determining the threonine requirement of the high-producing lactating sow, 2378
Effects of exposure to high ambient temperature and dietary protein level on performance of multiparous lactating sows, 1240
Effects of exposure to high ambient temperature and dietary protein level on sow milk production and performance of piglets, 1540
Nutrient mobilization from body tissues as influenced by litter size in lactating sows, 2179
Relationship between terrain use and performance of beef cows grazing foothill rangeland, 1883
The influence of gestation feeding strategy on body composition of gilts at farrowing and response to dietary protein in a modified lactation, 2397
The regression of unsuckled mammary glands during lactation in sows: The influence of lactation stage, dietary nutrients, and litter size, 2659
Usefulness of subjective ovine milk scores: I. Associations with range ewe characteristics and lamb production, 811
Lactation Duration
Factors influencing estrus and ovulation in weaned sows as determined by transrectal ultrasound, 2957
Lambs
Effect of dietary modification of muscle long-chain *n*–3 fatty acid on plasma insulin and lipid metabolites, carcass traits, and fat deposition in lambs, 895
Effect of diets containing *n*–3 fatty acids on muscle long-chain *n*–3 fatty acid content in lambs fed low- and medium-quality roughage diets, 698
Gross anatomical and histomorphometric characteristics of the oviduct and uterus during the pubertal transition in sheep, 167
Impact of heating-degree-day accumulation during bermudagrass hay storage on nutrient utilization by lambs, 2698
Technical Note: Comparison of Myofibril Fragmentation Index from Fresh and Frozen Pork and Lamb Longissimus, 904
Usefulness of subjective ovine milk scores: I. Associations with range ewe characteristics and lamb production, 811
Usefulness of subjective ovine milk scores: II. Genetic parameter estimates, 869
Laparoscopy
Oxytocin-induced cervical dilation and cervical manipulation in sheep: Effects on laparoscopic artificial insemination, 568
Lean
Evaluation of alternative measures of pork carcass composition, 1093
Leanness
Optimum mating systems for the myostatin locus in cattle, 2016
Lectins
Enteral exposure to crude red kidney bean lectin induces maturation of the gut in suckling pigs, 2669
Leptin
Effects of recombinant ovine leptin on in vitro lipolysis and lipogenesis in subcutaneous adipose tissue from lactating and nonlactating sheep, 445
Porcine leptin alters insulin inhibition of lipolysis in porcine adipocytes in vitro, 653
Lesions
Clostridial antibody response from injection-site lesions in beef cattle, long-term response to single or multiple doses, and response in newborn beef calves, 2558
Incidence of injection-site lesions in beef top sirloin butts, 2615
Influence of clostridial vaccines and injection sites on performance, feeding behavior, and lesion size scores of beef steers, 1409
Leucine
Branched-chain amino acids for growing cattle limit-fed soybean hull-based diets, 2747
LH
Endocrine relationships of Meishan and White composite females after weaning and during the luteal phase of the estrous cycle, 176
LHRH antagonist decreases LH and progesterone secretion but does not alter length of estrus cycle in heifers, 2902
LHRH
LHRH antagonist decreases LH and progesterone secretion but does not alter length of estrus cycle in heifers, 2902
Limiting Amino Acids
Dynamic ideal protein and limiting amino acids for lactating sows: The impact of amino acid mobilization, 2356
Linkage
Rapid communication: Microsatellites isolated from BAC clones containing v-akt1 murine thymoma viral oncogene homolog

1 and bradykinin receptor B2 assigned to sheep chromosome 18 by linkage analysis, 551
Linoleic Acid
Conjugated linoleic acid changes swine performance and carcass composition, 1821
Conjugated linoleic acid improves feed efficiency, decreases subcutaneous fat, and improves certain aspects of meat quality in Stress-Genotype pigs, 2187
Dietary conjugated linoleic acid alters fatty acid composition of pig skeletal muscle and fat, 2152
Effect of forage:concentrate ratio on ruminal digestion and duodenal flow of fatty acids in ewes, 2233
Effects of conjugated linoleic acid on the belly firmness and fatty acid composition of genetically lean pigs, 2866
Effects of dietary conjugated linoleic acid in nursery pigs of dirty and clean environments on growth, empty body composition, and immune competence, 714
Evaluation of conjugated linoleic acid and dietary antibiotics as growth promotants in weanling pigs, 2542
Total body electrical conductivity (TOBEC) measurement of compositional differences in hams, loins, and bellies from conjugated linoleic acid (CLA)-fed stress-genotype pigs, 1475
Lipid Metabolism
Intramuscular fat content and genetic variants at fatty acid-binding protein loci in Austrian pigs, 2798
Lipogenesis
Effects of recombinant ovine leptin on in vitro lipolysis and lipogenesis in subcutaneous adipose tissue from lactating and nonlactating sheep, 445
Lipolysis
Effects of recombinant ovine leptin on in vitro lipolysis and lipogenesis in subcutaneous adipose tissue from lactating and nonlactating sheep, 445
Effects of the perfusion of β-, β2-, or β3-adrenergic agonists or epinephrine on in situ adipose tissue lipolysis measured by microdialysis in underfed ewes, 453
Porcine leptin alters insulin inhibition of lipolysis in porcine adipocytes in vitro, 653
Lipopolysaccharides
Rapid communication: Genetic linkage and physical mapping of the porcine *lipopolysaccharide-binding protein* (*LBP*) gene, 557
The influence of the phase of the estrous cycle on sheep endometrial tissue response to lipopolysaccharide, 463
Lipoprotein Lipase
Influence of a high ambient temperature on lipid metabolism in the growing pig, 81
Lipoproteins
Effect of dietary modification of muscle long-chain *n*–3 fatty acid on plasma insulin and lipid metabolites, carcass traits, and fat deposition in lambs, 895
Liquid Diets
Liquid diets accelerate the growth of early-weaned pigs and the effects are maintained to market weight, 427
The effects of grazing, liquid supplements, and implants on feedlot performance and carcass traits of Holstein steers, 325
Litter Size
Administration of P.G. 600 to sows at weaning and the time of ovulation as determined by transrectal ultrasound, 796
Candidate gene analysis for loci affecting litter size and ovulation rate in swine, 60
Candidate gene markers for litter size in different German pig lines, 2565
Direct and correlated responses to two-stage selection for ovulation rate and number of fully formed pigs at birth in swine, 2286
Nutrient mobilization from body tissues as influenced by litter size in lactating sows, 2179
Ovulation rate and litter size in gilts immunized against androstenedione and 17α-hydroxyprogesterone, 1691
Litter Weight
Usefulness of subjective ovine milk scores: II. Genetic parameter estimates, 869
Liver
Effects of inorganic and organic copper supplemented to first-calf cows on cow reproduction and calf health and performance, 1650
Effects of supplementing combinations of inorganic and complexed copper on performance and liver mineral status of beef heifers consuming antagonist, 2926
Loci
A comprehensive search for quantitative trait loci affecting growth and carcass composition of cattle segregating alternative forms of the myostatin gene, 854
Associations of heart and adipocyte fatty acid-binding protein gene expression with intramuscular fat content in pigs, 347
Longevity
Comparison of F_1*Bos indicus* × Hereford cows in central Texas: II. Udder, mouth, longevity, and lifetime productivity, 1439
Longissimus Dorsi
Breed effects on growth performance, carcass characteristics, fatty acid composition, and palatability attributes in finishing steers, 355
Lung Function
Spirometric performances in Belgian Blue calves: 1. Effects on economic losses due to the bovine respiratory disease complex, 1301
Lymphocytes
Transport stress modulates adrenocorticotropin secretion from peripheral bovine lymphocytes, 729
Lysine
Adipic acid increases plasma lysine but does not improve the efficiency of lysine utilization in swine, 2406
Adverse effects of excess lysine in calves, 1337
Effect of dietary protein source and lysine:DE ratio on growth performance, meat quality, and body composition of growing-finishing pigs, 2857
Effect of nutrient intake in lactation on sow performance: Determining the threonine requirement of the high-producing lactating sow, 2378
Growth of Thoroughbreds fed a low-protein supplement fortified with lysine and threonine, 2143
Increased responsiveness to dietary lysine deficiency of pectoralis major muscle protein turnover in broilers selected on breast development, 927

M

Macerating
Retention time of macerated alfalfa hay and silage in sheep, 507
Magnetic Resonance Imaging
Body composition analysis of the pig by magnetic resonance imaging, 1800
Maize
Intake restriction strategies and sources of energy and protein during the growing period affect nutrient disappearance, feedlot performance, and carcass characteristics of crossbred heifers, 1598
Low-phytic acid corn improves nutrient utilization for growing pigs, 2873
Source and level of energy supplementation for yearling cattle fed ammoniated hay, 1313
The effect of dietary nitrogen and protein on feed intake, nutrient digestibility, and nitrogen flux across the portal-drained viscera and liver of sheep consuming high-concentrate diets ad libitum, 1322
Major Histocompatibility Complex
Rapid communication: Three new allelic sequences at the ovine MHC class II *DQA1* locus, 780
Mammary Glands
The regression of unsuckled mammary glands during lactation in sows: The influence of lactation stage, dietary nutrients, and litter size, 2659
Management
Manipulation of cattle growth to target carcass quality, 133
Usefulness of subjective ovine milk scores: I. Associations with range ewe characteristics and lamb production, 811
Manures
In vitro study of the biochemical origin and production limits of odorous compounds in cattle feedlots, 2949
Mapping
Detection and characterization of quantitative trait loci for meat quality traits in pigs, 2812

Markers
Alkanes as internal markers to estimate digestibility of hay or hay plus concentrate diets in horses, 1516
Effect of heterogeneous digesta chemical composition on the accuracy of measurements of fiber flow in dairy cows, 1611
Marketing
Consumer impressions of Tender Select beef, 2605
Foodservice yield and fabrication times for beef as influenced by purchasing options and merchandising styles, 3052
Mastication
Effects of barley grain processing on the site and extent of digestion of beef feedlot finishing diets, 1925
Mastitis
Incidence of mastitis in beef cows after intramuscular administration of oxytetracycline, 1996
Somatic cell count determination in cow's milk by near-infrared spectroscopy: A new diagnostic tool, 2550
Maternal Effects
Approximation of reliabilities for multiple-trait model with maternal effects, 833
Assessment of genetic variability of resistance to gastrointestinal nematode parasites in Creole goats in the humid tropics, 1706
Estimates of covariance functions for growth from birth to 630 days of age in Nelore cattle, 2776
Genotype × environment interactions for postweaning performance in crossbred calves grazing winter wheat pasture or dormant native prairie, 1370
Mathematical Models
Predicting individual feed requirements of cattle fed in groups, 1983
Mating Systems
Optimum mating systems for the myostatin locus in cattle, 2016
Maturity
A comparison of the USDA ossification-based maturity system to a system based on dentition, 1683
Effect of hybrid, maturity, and mechanical processing of corn silage on intake and digestibility by beef cattle, 2268
Evaluation of the Tendertec beef grading instrument to predict the tenderness of steaks from beef carcasses, 688
Meat
Effect of postmortem storage on μ-calpain and m-calpain in ovine skeletal muscle, 1502
Technical Note: Comparison of Myofibril Fragmentation Index from Fresh and Frozen Pork and Lamb Longissimus, 904
Meat Characteristics
Antioxidant status affects color stability and tenderness of calcium chloride-injected beef, 666
A survey of beef muscle color and pH, 678
Tasco-Forage: IV. Influence of a seaweed extract applied to tall fescue pastures on sensory characteristics, shelf-life, and vitamin E status in feedlot-finished steers, 884
Meat Composition
The influence of ultimate pH and intramuscular fat content on pork tenderness and tenderization, 392
Meat Quality
Associations of heart and adipocyte fatty acid-binding protein gene expression with intramuscular fat content in pigs, 347
Characterization of biological types of cattle (Cycle V): Carcass traits and longissimus palatability, 1209
Conjugated linoleic acid improves feed efficiency, decreases subcutaneous fat, and improves certain aspects of meat quality in Stress-Genotype pigs, 2187
Detection and characterization of quantitative trait loci for meat quality traits in pigs, 2812
Effect of dietary protein source and lysine:DE ratio on growth performance, meat quality, and body composition of growing-finishing pigs, 2857
Effects of betaine on growth, carcass characteristics, pork quality, and plasma metabolites of finishing pigs, 722
Effects of betaine, pen space, and slaughter handling method on growth performance, carcass traits, and pork quality of finishing barrows, 967
Effects of choice white grease or poultry fat on growth performance, carcass leanness, and meat quality characteristics of growing-finishing pigs, 1491
Effects of conjugated linoleic acid on the belly firmness and fatty acid composition of genetically lean pigs, 2866
Effects of dietary soy isoflavones on growth, carcass traits, and meat quality in growing-finishing pigs, 1230
Intramuscular fat content and genetic variants at fatty acid-binding protein loci in Austrian pigs, 2798
Muscle glycogen stores and meat quality as affected by strategic finishing feeding of slaughter pigs, 382
Relationships between behavioral and meat quality characteristics of pigs raised under barren and enriched housing conditions, 2835
Selection for lean growth efficiency in Duroc pigs influences pork quality, 2075
The influence of farmers' behavior on calves' reactions to transport and quality of veal meat, 642
Vitamin-mineral supplementation and accelerated chilling effects on quality of pork from pigs that are monomutant or noncarriers of the halothane gene, 2346
Meat Yield
Evaluation of ultrasound imagery and body shape to predict carcass and fillet yield in farm-raised catfish, 1483
Meishan
Endocrine relationships of Meishan and White composite females after weaning and during the luteal phase of the estrous cycle, 176
Melatonin
Induction of sexual activity of male creole goats in subtropical northern Mexico using long days and melatonin, 2245
Nocturnal melatonin and prolactin plasma concentrations in sheep selected for fertility in autumn lambing, 2895
Metabolic Disorders
Disease-induced variability of genetic correlations: Ascites in broilers as a case study, 1723
Metabolism
Effects of L-carnitine on nitrogen retention and blood metabolites of growing steers and performance of finishing steers, 254
Relationships between behavioral and meat quality characteristics of pigs raised under barren and enriched housing conditions, 2835
Metalloproteinases
Coordinate expression of matrix-degrading proteinases and their activators and inhibitors in bovine skeletal muscle, 94
Methane
A mechanistic model of whole-tract digestion and methanogenesis in the lactating dairy cow: Model development, evaluation, and application, 1584
Methionine
Estimation of the total sulfur amino acid requirement and the effect of betaine in diets deficient in total sulfur amino acids for the weanling pig, 1557
Methodology
Technical note: Methods for detecting liquid enzyme additives added to animal feeds, 2731
Technical note: Use of laser diffraction for particle size distribution measurements in duodenal digesta, 761
Mice
Locomotor activity, core body temperature, and circadian rhythms in mice selected for high or low heat loss, 861
Segregation ratios and growth rate in inactive ovine metallothionein 1a-ovine growth hormone transgenic mice, 1734
Microbial Activities
Ruminal peptide concentration required to optimize microbial growth and efficiency, 1305
Microbial Flora
Effect of dietary factors on distribution and chemical composition of liquid- or solid-associated bacterial populations in the rumen of dairy cows, 2736
Effect of K-diformate in starter diets on acidity, microbiota, and the amount of organic acids in the digestive tract of piglets, and on gastric alterations, 2123
Microbial Proteins
Effect of dietary factors on distribution and chemical composition of liquid- or solid-associated bacterial populations in the rumen of dairy cows, 2736
Microsatellites
Carcass traits and microsatellite distributions in offspring of sires from three geographical regions of Japan, 3041
Genetic analysis of Mexican hairless pig population, 3021
Rapid communication: Linkage mapping of seven bovine cDNA, 1631
Migration
Enterocyte digestive enzyme activity along the crypt-villus and longitudinal axes in the neonatal pig small intestine, 371

Milk
Incidence of mastitis in beef cows after intramuscular administration of oxytetracycline, 1996
Milk production of crossbred daughters of high- and low-milk EPD Angus and Hereford bulls, 1386
Somatic cell count determination in cow's milk by near-infrared spectroscopy: A new diagnostic tool, 2550
Supplemental silicon increases plasma and milk silicon concentrations in horses, 2627
Usefulness of subjective ovine milk scores: I. Associations with *range ewe characteristics and lamb production, 811*
Usefulness of subjective ovine milk scores: II. Genetic parameter *estimates, 869*
Milk Composition
Calf growth in captive Iberian red deer (*Cervus elaphus hispanicus*): Effects of birth date and hind milk production and composition, 1085
Milk Production
Calf growth in captive Iberian red deer (*Cervus elaphus hispanicus*): Effects of birth date and hind milk production and composition, 1085
Growth hormone response to growth hormone-releasing hormone in beef cows divergently selected for milk production, 1295
Milk Yield
Behavioral, adrenal, immune, and productive responses of lactating ewes to regrouping and relocation, 1457
Mineral Metabolism
Effect of dietary boron on growth performance, calcium and phosphorus metabolism, and bone mechanical properties in growing barrows, 3120
Minerals
Effect of supplemental vitamins and trace minerals on performance and carcass quality in finishing pigs, 141
Effects of inorganic and organic copper supplemented to first-calf cows on cow reproduction and calf health and performance, *1650*
Mixing
Calves' responses to repeated social regrouping and relocation, 2580
Interaction of swine nursery and grow-finish space allocations on performance, 1967
Models
The amino acid profiles of the whole plant and of four plant residues from temperatue and tropical forages, 525
Molasses
Source and level of energy supplementation for yearling cattle *fed ammoniated hay, 1313*
Molybdenum
Effects of supplementing combinations of inorganic and complexed copper on performance and liver mineral status of beef heifers consuming antagonist, 2926
Monensin
The effect of season and monensin sodium on the digestive characteristics of autumn and spring pasture fed to sheep, 1052
Mophometrics
Enteral exposure to crude red kidney bean lectin induces maturation of the gut in suckling pigs, 2669
Muscle Fibers
Recombinant bovine somatotropin (rbST) increases size and proportion of fast-glycolytic muscle fibers in semitendinosus muscle of creep-fed steers, 108
Muscles
A survey of beef muscle color and pH, 678
Carcass traits, cut yields, and compositional end points in high-*lean-yielding pork carcasses: Effects of 10th rib backfat and* loin eye area, 115
Effect of dietary modification of muscle long-chain *n*–3 fatty acid on plasma insulin and lipid metabolites, carcass traits, and fat deposition in lambs, 895
Effect of diets containing n–3 fatty acids on muscle long-chain n–3 fatty acid content in lambs fed low- and medium-quality roughage diets, 698
Intermuscular variation in tenderness: Association with the ubiquitous and muscle-specific calpains, 122
The effects of Piedmontese inheritance and myostatin genotype on the palatability of longissimus thoracis, gluteus medius, *semimembranosus, and biceps femoris, 3069*
Muscle Weight
Interactions in postweaning production of F_1 cattle from Hereford, Limousin, or Piedmontese sires, 317
Muscling
Gluteus medius and rump fat depths as additional live animal ultrasound measurements for predicting retail product and *trimmable fat in beef carcasses, 1378*
Myofibrils
Properties of myofibril-bound calpain activity in longissimus muscle of Callipyge and normal sheep, 2097
Technical Note: Comparison of Myofibril Fragmentation Index *from Fresh and Frozen Pork and Lamb Longissimus, 904*
Myostatin Gene
A comprehensive search for quantitative trait loci affecting growth and carcass composition of cattle segregating alternative forms of the myostatin gene, 854

N

N Balance
Optimization of rate and efficiency of dietary nitrogen utilization through the use of animal by-products and(or) urea and their effects on nutrient digestion in Holstein steers, 753
Net Energy
Effects of dietary fermentable carbohydrates on energy metabo*lism in group-housed sows, 148*
Energy utilization of low-protein diets in growing pigs, 1259
Neurohormones
Calves' responses to repeated social regrouping and relocation, 2580
Neutral Detergent Fiber
Ileal digestibilities of neutral detergent fiber, crude protein and amino acids associated with neutral detergent fiber in wheat shorts for growing pigs, 2388
Neutrophils
The chemotactic properties of porcine seminal components toward neutrophils in vitro, 996
Newborn Animals
Clostridial antibody response from injection-site lesions in beef cattle, long-term response to single or multiple doses, and response in newborn beef calves, 2558
Nipple Drinker
Effect of nipple drinker water flow rate and season on performance *of lactating swine, 2770*
Nitrogen
*Effect of ruminal protein degradability on growth and N metabo*lism in growing beef steers, 533
Effects of carbohydrates from citrus pulp and hominy feed on microbial fermentation in continuous culture, 2713
Nitrogen Metabolism
The effect of energy supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 240
The effect of protein supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 247
Nucleotide Sequences
Rapid Communication: Nucleotide sequences of two isoforms of porcine *micromolar calcium-activated neutral protease 1* cDNA, 553
Rapid communication: Sequence of a quail calpain cDNA, 775
Rapid communication: Three new allelic sequences at the ovine MHC class II *DQA1* locus, 780
Nursery Diets
Evaluation of conjugated linoleic acid and dietary antibiotics as *growth promotants in weanling pigs,* 2542
Nutrient Balance
Phosphorus bioavailability, growth performance, and nutrient balance in pigs fed high available phosphorus corn and phytase, 2134
Nutrient Requirements
Predicting individual feed requirements of cattle fed in groups, 1983
Valine requirement of nursery pigs, 1223
Nutrient Reserves
Nutrient mobilization from body tissues as influenced by litter size in lactating sows, 2179
Nutrient Uptake
Rumen microbial sequestration of [2-^{13}C]acetate in cattle, 2491

Nutrition
Effects of different patterns of feed restriction and insulin treatment during the luteal phase on reproductive, metabolic, and endocrine parameters in cyclic gilts, 200

O

Odors
Accumulation and consumption of odorous compounds in feedlot soils under aerobic, fermentative, and anaerobic respiratory conditions, 2503
In vitro study of the biochemical origin and production limits of odorous compounds in cattle feedlots, 2949
Oils
Effect of dietary oils and α-tocopheryl acetate supplementation on lipid (TBARS) and cholesterol oxidation in cooked pork, 1201
Omasum
Effect of heterogeneous digesta chemical composition on the accuracy of measurements of fiber flow in dairy cows, 1611
Opioid Peptides
Rapid communication: Mapping of the pro-opiomelanocortin (POMC) gene to pig chromosome by linkage analysis using a PCR-RFLP, 2242
Optical Properties
Technical note: Use of laser diffraction for particle size distribution measurements in duodenal digesta, 761
Optimization
Potential gain from otpimizing multigeneration selection on an identified quantitative trait locus, 2975
Organochlorine Compounds
Uptake and excretion of organochlorine compounds in neonatal calves, 155
Ornithine
Adverse effects of excess lysine in calves, 1337
Osmolarity
Technical Note: Using calcium carbonate as an osmolar control treatment for acid-base studies in horses, 1858
Ossification
A comparison of the USDA ossification-based maturity system to a system based on dentition, 1683
Osteocalcin
Daily access to pasture turnout prevents loss of mineral in the third metacarpus of Arabian weanlings, 1142
Ovarian Development
Increased plasma follicle-stimulating hormone concentrations in prepubertal gilts from lines selected for increased number of corpora lutea, 1877
Oviducts
Effect of excess degradable intake protein on early embryonic development, ovarian steroids, and blood urea nitrogen on days 2, 3, 4, and 5 of the estrous cycle in mature ewes, 193
Gross anatomical and histomorphometric characteristics of the oviduct and uterus during the pubertal transition in sheep, 167
Ovulation
Administration of P.G. 600 to sows at weaning and the time of ovulation as determined by transrectal ultrasound, 796
Effect of short-term calf removal at three stages of a follicular wave on fate of a dominant follicle in postpartum beef cows, 2688
Factors influencing estrus and ovulation in weaned sows as determined by transrectal ultrasound, 2957
Inclusion of an intravaginal progesterone insert plus GnRH and prostaglandin $F_{2\alpha}$ for ovulation control in postpartum suckled beef cows, 2253
Increased plasma follicle-stimulating hormone concentrations in prepubertal gilts from lines selected for increased number of corpora lutea, 1877
Intervals from norgestomet withdrawal and injection of equine chorionic gonadotropin or P.G. 600 to estrus and ovulation in ewes, 589
Synchronization of ovulation using GnRH or hCG with the CO-Synch protocol in suckled beef cows, 2536
Ovulation Rate
Candidate gene analysis for loci affecting litter size and ovulation rate in swine, 60
Direct and correlated responses to two-stage selection for ovulation rate and number of fully formed pigs at birth in swine, 2286
Effects of P.G. 600 on the onset of estrus and ovulation rate in gilts treated with Regu-mate, 2757
Endocrine relationships of Meishan and White composite females after weaning and during the luteal phase of the estrous cycle, 176
Ovulation rate and litter size in gilts immunized against androstenedione and 17α-hydroxyprogesterone, 1691
Oxidation
Effect of dietary oils and α-tocopheryl acetate supplementation on lipid (TBARS) and cholesterol oxidation in cooked pork, 1201
Effects of dietary supplementation with vitamin E and organic selenium on the oxidative stability of beef, 2827
Oxygen
Effect of oxygen inhalation at birth on the reduction of early postnatal mortality in pigs, 5
Oxytocin
Oxytocin-induced cervical dilation and cervical manipulation in sheep: Effects on laparoscopic artificial insemination, 568
Rapid communication: Mapping of Oxytocin (OXT) to the central region of bovine chromosome 13 by linkage analysis using SSCP, 778

P

Palatability
Breed effects on growth performance, carcass characteristics, fatty acid composition, and palatability attributes in finishing steers, 355
Changes in preferences of gestating heifers fed untreated or ammoniated straw in different flavors, 3027
Characterization of biological types of cattle (Cycle V): Carcass traits and longissimus palatability, 1209
Evaluation of the Tendertec beef grading instrument to predict the tenderness of steaks from beef carcasses, 688
Pancreas
Enteral exposure to crude red kidney bean lectin induces maturation of the gut in suckling pigs, 2669
Influence of intraduodenally infused olive and coconut oil on postprandial exocrine pancreatic secretions of growing pigs, 477
Pancreatic Juice
Effects of surgical catheterization and degree of isolation on the behavior and exocrine pancreatic secretion of newly weaned pigs, 1179
Pancreozymin
Enteral exposure to crude red kidney bean lectin induces maturation of the gut in suckling pigs, 2669
Parental Investment
Calf growth in captive Iberian red deer (Cervus elaphus hispanicus): Effects of birth date and hind milk production and composition, 1085
Parity
Factors influencing estrus and ovulation in weaned sows as determined by transrectal ultrasound, 2957
Particle Size
Technical note: Use of laser diffraction for particle size distribution measurements in duodenal digesta, 761
Pastures
Supplemental soybean oil or corn for beef heifers grazing summer pasture: Effects on forage intake, ruminal fermentation, and site and extent of digestion, 2704
The effect of season and monensin sodium on the digestive characteristics of autumn and spring pasture fed to sheep, 1052
Pedigree
Efficient computation of genotype probabilities for loci with many alleles: I. Allelic peeling, 26
Efficient computation of genotype probabilities for loci with many alleles: II. Iterative method for large, complex pedigrees, 34
Pelleted Newspaper
Chemical, physical, and environmental properties of pelleted newspaper compared to wheat straw and wood shavings as bedding for horses, 1359
Peptides
Ruminal peptide concentration required to optimize microbial growth and efficiency, 1305

Performance
Behavior and performance of lactating sows and piglets reared indoors or outdoors, 2571
Effects of L-carnitine on nitrogen retention and blood metabolites of growing steers and performance of finishing steers, 254
Effects of dietary crude protein concentration during periods of feed restriction on performance, carcass characteristics, and skeletal muscle protein turnover in feedlot steers, 3148
Effects of programmed growth rate and days fed on performance and carcass characteristics of feedlot steers, 1394
Evaluation of the 1996 NRC beef model under western Canadian environmental conditions, 267
Influence of clostridial vaccines and injection sites on performance, feeding behavior, and lesion size scores of beef steers, 1409
Proportion of corn silage in diets of feedlot steers fed to achieve stepwise increases in growth, 1402
Relationship between terrain use and performance of beef cows grazing foothill rangeland, 1883
Soybean hulls as a primary ingredient in forage-free diets for limit-fed growing cattle, 766
Perinatal Mortality
Progress of farrowing and early postnatal pig behavior in relation to genetic merit for pig survival, 1416
Permeability
Enteral exposure to crude red kidney bean lectin induces maturation of the gut in suckling pigs, 2669
pH
A survey of beef muscle color and pH, 678
Dietary adipic acid reduces ammonia emission from swine excreta, 2412
Effect of K-diformate in starter diets on acidity, microbiota, and the amount of organic acids in the digestive tract of piglets, and on gastric alterations, 2123
Effects of supplemental vitamin D_3 on feed intake, carcass characteristics, tenderness, and muscle properties of beef steers, 2844
Muscle glycogen stores and meat quality as affected by strategic finishing feeding of slaughter pigs, 382
The influence of ultimate pH and intramuscular fat content on pork tenderness and tenderization, 392
Phospholipids
Effect of diets containing *n*–3 fatty acids on muscle long-chain *n*–3 fatty acid content in lambs fed low- and medium-quality roughage diets, 698
Rapid Communication: Genetic linkage and physical mapping of the *porcine phospholipid transfer protein* (*PLTP*) gene, 1634
Phosphorus
Dietary phosphorus and an inflammatory challenge affect performance and immune function of weanling pigs, 413
Effects of level of supplemental phytase on ileal digestibility of amino acids, calcium, and phosphorus in dehulled soybean meal for growing pigs, 2634
Low-phytic acid corn improves nutrient utilization for growing pigs, 2873
Phosphorus bioavailability, growth performance, and nutrient balance in pigs fed high available phosphorus corn and phytase, 2134
Photoperiod
Induction of sexual activity of male creole goats in subtropical northern Mexico using long days and melatonin, 2245
Physical Activity
Effect of high temperature and feeding level on energy utilization in piglets, 1849
Locomotor activity, core body temperature, and circadian rhythms in mice selected for high or low heat loss, 861
Physiology
Spirometric performance in Belgian Blue calves. 2: Analysis of environmental factors and estimation of genetic parameters, 1162
Phytase
Effects of level of supplemental phytase on ileal digestibility of amino acids, calcium, and phosphorus in dehulled soybean meal for growing pigs, 2634
Phosphorus bioavailability, growth performance, and nutrient balance in pigs fed high available phosphorus corn and phytase, 2134
Phytic Acid
Low-phytic acid corn improves nutrient utilization for growing pigs, 2873
Piedmont
The effects of Piedmontese inheritance and myostatin genotype on the palatability of longissimus thoracis, gluteus medius, semimembranosus, and biceps femoris, 3069
Pig Finishing
Effect of supplemental vitamins and trace minerals on performance and carcass quality in finishing pigs, 141
Piglets
Behavior and performance of lactating sows and piglets reared indoors or outdoors, 2571
Belly-nosing in early-weaned piglets is not influenced by diet quality or the presence of milk in the diet, 73
Effect of high temperature and feeding level on energy utilization in piglets, 1849
Effect of oxygen inhalation at birth on the reduction of early postnatal mortality in pigs, 5
Effects of exposure to high ambient temperature and dietary protein level on sow milk production and performance of piglets, 1540
Effects of repeated cross-fosterings on preweaning behavior and growth performance of piglets and on maternal behavior of sows, 88
Effects of surgical catheterization and degree of isolation on the behavior and exocrine pancreatic secretion of newly weaned pigs, 1179
Valine requirement of nursery pigs, 1223
Pig Manure
Dietary manipulation to reduce aerial ammonia concentrations in nursery pig facilities, 3096
Pigs
Adipic acid increases plasma lysine but does not improve the efficiency of lysine utilization in swine, 2406
Apparent ileal digestibility of amino acids and the digestible and metabolizable energy content of dry extruded-expelled soybean meal and its effects on growth performance of pigs, 1280
Associations of heart and adipocyte fatty acid-binding protein gene expression with intramuscular fat content in pigs, 347
A whole-genome scan for quantitative trait loci affecting teat number in pigs, 2320
Behavior, reproduction, and immunity of crated pregnant gilts: Effects of high dietary fiber and rearing environment, 1466
Body composition analysis of the pig by magnetic resonance imaging, 1800
Candidate gene analysis for loci affecting litter size and ovulation rate in swine, 60
Candidate gene markers for litter size in different German pig lines, 2565
Comparative effects of high dietary levels of organic and inorganic selenium on selenium toxicity of growing-finishing pigs, 942
Comparative total tract digestibility of dietary energy and nutrients in growing pigs and adult sows, 2418
Conjugated linoleic acid improves feed efficiency, decreases subcutaneous fat, and improves certain aspects of meat quality in Stress-Genotype pigs, 2187
Detection and characterization of quantitative trait loci for meat quality traits in pigs, 2812
Developing stochastic epidemiological models to quantify the dynamics of infectious diseases in domestic livestock, 2047
Dietary adipic acid reduces ammonia emission from swine excreta, 2412
Dietary L-carnitine suppresses mitochondrial branched-chain keto acid dehydrogenase activity and enhances protein accretion and carcass characteristics of swine, 3104
Dietary manipulation to reduce aerial ammonia concentrations in nursery pig facilities, 3096
Dietary phosphorus and an inflammatory challenge affect performance and immune function of weanling pigs, 413
Direct and correlated responses to two-stage selection for ovulation rate and number of fully formed pigs at birth in swine, 2286
Effect of chromium picolinate and chromium propionate on glucose and insulin kinetics of growing barrows and on growth and carcass traits of growing-finishing barrows, 2172
Effect of dietary boron on growth performance, calcium and phosphorus metabolism, and bone mechanical properties in growing barrows, 3120

Effect of dietary L-Carnitine on growth performance and body composition in nursery and growing-finishing pigs, 1509
Effect of dietary protein source and lysine:DE ratio on growth performance, meat quality, and body composition of growing-finishing pigs, 2857
Effect of dietary selenium source, level, and pig hair color on various selenium indices, 949
Effect of group size and feeder type on growth performance and feeding patterns in growing pigs, 803
Effect of group size on pig performance in a wean-to-finish production system, 1067
Effect of K-diformate in starter diets on acidity, microbiota, and the amount of organic acids in the digestive tract of piglets, and on gastric alterations, 2123
Effect of pharmacological concentrations of zinc oxide with or without the inclusion of an antibacterial agent on nursery pig performance, 934
Effect of whole-body vibration in the vertical axis on cortisol and adrenocorticotropic hormone levels in piglets, 975
Effects of betaine on growth, carcass characteristics, pork quality, and plasma metabolites of finishing pigs, 722
Effects of betaine, pen space, and slaughter handling method on growth performance, carcass traits, and pork quality of finishing barrows, 967
Effects of choice white grease or poultry fat on growth performance, carcass leanness, and meat quality characteristics of growing-finishing pigs, 1491
Effects of dietary conjugated linoleic acid in nursery pigs of dirty and clean environments on growth, empty body composition, and immune competence, 714
Effects of dietary fat on growth performance and carcass characteristics of growing-finishing pigs reared in a commercial environment, 2643
Effects of dietary fermentable carbohydrates on energy metabolism in group-housed sows, 148
Effects of dietary soy isoflavones on growth, carcass traits, and meat quality in growing-finishing pigs, 1230
Effects of exogenous somatotropin during early gestation on maternal performance, fetal growth, and compositional traits in pigs, 1789
Effects of growth factors on insulin-like growth factor binding protein (IGFBP) secretion by primary porcine satellite cell cultures, 2820
Effects of level of supplemental phytase on ileal digestibility of amino acids, calcium, and phosphorus in dehulled soybean meal for growing pigs, 2634
Endocrine relationships of Meishan and White composite females after weaning and during the luteal phase of the estrous cycle, 176
Energy utilization of low-protein diets in growing pigs, 1259
Estimation of the total sulfur amino acid requirement and the effect of betaine in diets deficient in total sulfur amino acids for the weanling pig, 1557
Evaluation of alternative measures of pork carcass composition, 1093
Evaluation of conjugated linoleic acid and dietary antibiotics as growth promotants in weanling pigs, 2542
Genetic parameter estimates from joint evaluation of purebreds and crossbreds in swine using the crossbred model, 3002
Identification of quantitative trait loci affecting reproduction in pigs, 623
Ileal digestibilities of neutral detergent fiber, crude protein and amino acids associated with neutral detergent fiber in wheat shorts for growing pigs, 2388
Individually measured feed intake characteristics and growth performance of group-housed weanling pigs: Effects of sex, initial body weight, and body weight distribution within groups, 301
Inflammatory response, growth, and thyroid hormone concentrations are affected by long-term boron supplementation in gilts, 1549
Influence of a high ambient temperature on lipid metabolism in the growing pig, 81
Influence of intraduodenally infused olive and coconut oil on postprandial exocrine pancreatic secretions of growing pigs, 477
Influence of threonine intake on whole-body protein deposition and threonine utilization in growing pigs fed purified diets, 3087
Interaction of swine nursery and grow-finish space allocations on performance, 1967
Intramuscular fat content and genetic variants at fatty acid-binding protein loci in Austrian pigs, 2798
Intravenous infusion of iron and tetrahydrofolate does not influence intrauterine uteroferrin and secreted folate-binding protein content in swine, 188
Liquid diets accelerate the growth of early-weaned pigs and the effects are maintained to market weight, 427
Low-phytic acid corn improves nutrient utilization for growing pigs, 2873
Muscle glycogen stores and meat quality as affected by strategic finishing feeding of slaughter pigs, 382
Nutritional value of fish meals in the diet for young pigs, 1829
Performance, digesta characteristics, nutrient flux, plasma composition, and organ weight in pigs as affected by dietary cation anion difference and nonstarch polysaccharide, 1840
Phosphorus bioavailability, growth performance, and nutrient balance in pigs fed high available phosphorus corn and phytase, 2134
Porcine leptin alters insulin inhibition of lipolysis in porcine adipocytes in vitro, 653
Profile of ligand binding to the porcine β_2 adrenergic receptor, 877
Progress of farrowing and early postnatal pig behavior in relation to genetic merit for pig survival, 1416
Prolonged feeding of high dietary levels of organic and inorganic selenium to gilts from 25 kg body weight through one parity, 956
Rapid communication: Chromosomal localization and partial cDNA sequence of the porcine ATP synthase, H^+ transporting, mitochondrial F0 complex, subunit e (*ATP5I*) gene, 1353
Rapid Communication: Genetic linkage and physical mapping of the *porcine phospholipid transfer protein* (*PLTP*) gene, 1634
Rapid communication: Genetic linkage and physical mapping of the porcine *lipopolysaccharide-binding protein (LBP)* gene, 557
Rapid communication: Isolation and regional localization of the porcine *glial fibrillary acidic* protein (*GFAP*) gene, 2754
Rapid communication: Linkage mapping of the porcine *micromolar calcium-activated neutral protease 1 (μ-calpain)* gene on SSC2, 555
Rapid communication: Mapping of the pro-opiomelanocortin (*POMC*) gene to pig chromosome by linkage analysis using a PCR-RFLP, 2242
Rapid communication: Nucleotide sequence of the porcine β_3-adrenergic receptor gene, 782
Rapid Communication: Nucleotide sequences of two isoforms of porcine *micromolar calcium-activated neutral protease 1* cDNA, 553
Relationships between behavioral and meat quality characteristics of pigs raised under barren and enriched housing conditions, 2835
Standardized ileal protein and amino acid digestibility by growing pigs and sows, 2113
Technical note: A quick and more sensitive method to identify pork in processed and unprocessed food by PCR amplification of a new specific DNA fragment, 2108
The chemotactic properties of porcine seminal components toward neutrophils in vitro, 996
The effect of dietary soy daidzein on pig growth and viral replication during a viral challenge, 3113
The effect of dietary soy genistein on pig growth and viral replication during a viral challenge, 1272
The effect of feed intake on ileal rate of passage and apparent amino acid digestibility determined with or without correction factors in pigs, 1250
The role of altered uterine-embryo synchrony on conceptus growth in the pig, 1863
Total body and regional measurements of bone mineral content and bone mineral density in pigs by dual energy X-ray absorptiometry, 2594
True ileal digestibility of amino acids in sow's milk for 17-day-old pigs, 707
Utilizing stochastic genetic epidemiological models to quantify the impact of selection for resistance to infectious diseases in domestic livestock, 2057
Vaccination of boars with a GnRH vaccine (Improvac) eliminates boar taint and increases growth performance, 2524

Pituitary
Pituitary hormone and insulin responses to infusion of amino acids and N-methyl-D,L-aspartate in horses, 735
Placenta
The role of altered uterine-embryo synchrony on conceptus growth in the pig, 1863
Plane of Nutrition
Intake restriction strategies and sources of energy and protein during the growing period affect nutrient disappearance, feedlot performance, and carcass characteristics of crossbred heifers, 1598
Poisoning
Influence of protein supplementation and implant status on alleviating fescue toxicosis, 827
Pollution
The effect of energy supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 240
The effect of protein supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 247
Polychlorinated Biphenyls
Uptake and excretion of organochlorine compounds in neonatal calves, 155
Polyethylene Glycol
Preference for polyethylene glycol by sheep fed a quebracho tannin diet, 2066
Polymorphism
Association of a genetic marker with blood serum insulin-like growth factor-I concentration and growth traits in Angus cattle, 1757
Genetic variation in stimulated GH release and in IGF-I of young dairy cattle and their associations with the leucine/valine polymorphism in the GH gene, 470
Rapid Communication: Genetic linkage and physical mapping of the *porcine phospholipid transfer protein* (*PLTP*) gene, 1634
Polysaccharides
Effects of dietary fermentable carbohydrates on energy metabolism in group-housed sows, 148
Performance, digesta characteristics, nutrient flux, plasma composition, and organ weight in pigs as affected by dietary cation anion difference and nonstarch polysaccharide, 1840
Polyunsaturated Fatty Acids
Effect of dietary oils and α-tocopheryl acetate supplementation on lipid (TBARS) and cholesterol oxidation in cooked pork, 1201
Pork
Carcass traits, cut yields, and compositional end points in high-lean-yielding pork carcasses: Effects of 10th rib backfat and loin eye area, 115
Conjugated linoleic acid changes swine performance and carcass composition, 1821
Creatine monohydrate supplemented in swine finishing diets and fresh pork quality: I. A controlled laboratory experiment, 3075
Creatine monohydrate supplemented in swine finishing diets and fresh pork quality: II. Commercial applications, 3081
Effect of dietary oils and α-tocopheryl acetate supplementation on lipid (TBARS) and cholesterol oxidation in cooked pork, 1201
Effects of betaine on growth, carcass characteristics, pork quality, and plasma metabolites of finishing pigs, 722
Factors influencing consumer demand for U.S. pork exported to the Republic of Korea (South Korea), 907
Selection for lean growth efficiency in Duroc pigs influences pork quality, 2075
Technical Note: Comparison of Myofibril Fragmentation Index from Fresh and Frozen Pork and Lamb Longissimus, 904
The influence of ultimate pH and intramuscular fat content on pork tenderness and tenderization, 392
Total body electrical conductivity (TOBEC) measurement of compositional differences in hams, loins, and bellies from conjugated linoleic acid (CLA)-fed stress-genotype pigs, 1475
Postmortem Changes
Effect of postmortem storage on μ-calpain and m-calpain in ovine skeletal muscle, 1502
Postmortem Tenderization
The calpain system in three muscles of normal and callipyge sheep, 398
Postnatal Development
Progress of farrowing and early postnatal pig behavior in relation to genetic merit for pig survival, 1416
Postpartum Interval
Effect of GnRH pretreatment on reproductive performance of postpartum suckled beef cows following synchronization of estrus using GnRH and $PGF_{2\alpha}$, 1675
Poultry Fat
Effects of choice white grease or poultry fat on growth performance, carcass leanness, and meat quality characteristics of growing-finishing pigs, 1491
Prediction
Comparative total tract digestibility of dietary energy and nutrients in growing pigs and adult sows, 2418
Computer image analysis for prediction of carcass composition from cross-sections of Japanese Black steers, 2851
Evaluation of ultrasound imagery and body shape to predict carcass and fillet yield in farm-raised catfish, 1483
Pregnancy
Effect of human chorionic gonadotropin on lutealfFunction and reproductive performance of high-producing lactating Holstein dairy cows, 2881
Effect of prepubertal feeding regimen on reproductive development and performance of gilts through the first pregnancy, 787
Influence of pregnancy on body weight, ruminal characteristics, and visceral organ mass in beef heifers, 2481
Intravenous infusion of iron and tetrahydrofolate does not influence intrauterine uteroferrin and secreted folate-binding protein content in swine, 188
Level of dietary energy during prepubertal growth and reproductive development of gilts, 2513
Pregnancy rate in beef heifers after synchronization to either random or programmed estrous cycles, 561
The influence of gestation feeding strategy on body composition of gilts at farrowing and response to dietary protein in a modified lactation, 2397
Prepubertal Females
Development of Porcine Embryos In Vitro: Effects of Culture Medium and Donor Age, 1578
Preweaning Period
Direct and maternal genetic effects on birth and weaning traits in multibreed cattle data and predicted performance of breed crosses, 1713
Processing
Effect of hybrid, maturity, and mechanical processing of corn silage on intake and digestibility by beef cattle, 2268
Progeny Testing
Milk production of crossbred daughters of high- and low-milk EPD Angus and Hereford bulls, 1386
Progesterone
Effectiveness of intravaginal progesterone inserts and FSH for inducing synchronized estrus and increasing lambing rate in anestrous ewes, 1120
Effect of human chorionic gonadotropin on lutealfFunction and reproductive performance of high-producing lactating Holstein dairy cows, 2881
Efficacy of an intravaginal progesterone insert and an injection of $PGF_{2\alpha}$ for synchronizing estrus and shortening the interval to pregnancy in postpartum beef cows, peripubertal beef heifers, and dairy heifers, 982
Inclusion of an intravaginal progesterone insert plus GnRH and prostaglandin $F_{2\alpha}$ for ovulation control in postpartum suckled beef cows, 2253
Progestogens
Effects of P.G. 600 on the onset of estrus and ovulation rate in gilts treated with Regu-mate, 2757
Intervals from norgestomet withdrawal and injection of equine chorionic gonadotropin or P.G. 600 to estrus and ovulation in ewes, 589
Prolactin
Nocturnal melatonin and prolactin plasma concentrations in sheep selected for fertility in autumn lambing, 2895
Prolificacy
Effectiveness of intravaginal progesterone inserts and FSH for inducing synchronized estrus and increasing lambing rate in anestrous ewes, 1120
Prostaglandins
Effect of GnRH pretreatment on reproductive performance of postpartum suckled beef cows following synchronization of estrus using GnRH and $PGF_{2\alpha}$, 1675
Efficacy of an intravaginal progesterone insert and an injection of $PGF_{2\alpha}$ for synchronizing estrus and shortening the interval

to pregnancy in postpartum beef cows, peripubertal beef heifers, and dairy heifers, 982
Improved synchrony of estrus and ovulation with the addition of GnRH to a melengestrol acetate-prostaglandin $F_{2\alpha}$?synchronization treatment in beef heifers, 2210
The influence of the phase of the estrous cycle on sheep endometrial tissue response to lipopolysaccharide, 463
Protein
Crude protein fractions in common vetch (*Vicia sativa* L.) fresh forage during pod filling, 2449
Effect of ruminal vs postruminal administration of degradable protein on utilization of low-quality forage by beef steers, 225
Effect of varying carbohydrate and fat content of milk replacer on body composition of Holstein bull calves, 2260
Effects of nitrogen fertilization and harvest date on yield, digestibility, fiber, and protein fractions of tropical grasses, 2439
Effects of supplement type on animal performance, forage intake, digestion, and ruminal measurements of growing beef cattle, 1041
Growth of Thoroughbreds fed a low-protein supplement fortified with lysine and threonine, 2143
Ileal digestibilities of neutral detergent fiber, crude protein and amino acids associated with neutral detergent fiber in wheat shorts for growing pigs, 2388
The amino acid profiles of the whole plant and of four plant residues from temperatue and tropical forages, 525
The influence of gestation feeding strategy on body composition of gilts at farrowing and response to dietary protein in a modified lactation, 2397
The regression of unsuckled mammary glands during lactation in sows: The influence of lactation stage, dietary nutrients, and litter size, 2659
Urea and(or) feather meal supplementation for yearling steers grazing limpograss (*Hemarthria altissima* var. 'Floralta') pasture, 3170
Protein Degradation
Increased responsiveness to dietary lysine deficiency of pectoralis major muscle protein turnover in broilers selected on breast development, 927
The effects of degradable and undegradable intake protein on the performance of lactating first-calf heifers, 2224
Protein Digestibility
Influence of undegraded intake protein on reproductive performance of primiparous beef heifers maintained on stockpiled fescue pasture, 574
The effect of dietary nitrogen and protein on feed intake, nutrient digestibility, and nitrogen flux across the portal-drained viscera and liver of sheep consuming high-concentrate diets ad libitum, 1322
Protein Digestion
Intestinal digestion of dietary and endogenous proteins along the small intestine of calves fed soybean or potato, 2719
Protein Efficiency
Optimization of rate and efficiency of dietary nitrogen utilization through the use of animal by-products and(or) urea and their effects on nutrient digestion in Holstein steers, 753
Protein Intake
Effects of dietary protein on whole-body protein turnover and endocrine function in young-adult and aging dogs, 3128
The effects of degradable and undegradable intake protein on the performance of lactating first-calf heifers, 2224
Protein Sources
Effect of dietary protein source and lysine:DE ratio on growth performance, meat quality, and body composition of growing-finishing pigs, 2857
Effect of different protein sources on growth and carcass traits in growing–finishing pigs, 2428
Effect of nitrogen source in high-concentrate, low-protein beef cattle diets on microbial fermentation studied in vivo and in vitro, 1944
Effect of ruminal protein degradability on growth and N metabolism in growing beef steers, 533
Protein Supplements
A comparison of native tallgrass prairie and plains bluestem forage systems for cow-calf production in the Southern Great Plains, 1697
The effect of protein supplementation on nitrogen utilization in lactating dairy cows fed grass silage diets, 247
Protein Synthesis
Dietary L-carnitine suppresses mitochondrial branched-chain keto acid dehydrogenase activity and enhances protein accretion and carcass characteristics of swine, 3104
Increased responsiveness to dietary lysine deficiency of pectoralis major muscle protein turnover in broilers selected on breast development, 927
Influence of threonine intake on whole-body protein deposition and threonine utilization in growing pigs fed purified diets, 3087
Protein Turnover
Effects of dietary crude protein concentration during periods of feed restriction on performance, carcass characteristics, and skeletal muscle protein turnover in feedlot steers, 3148
Puberty
Characterization of topcross progenies from Hereford, Limousin, and Piedmontese sires, 1751
Effect of prepubertal feeding regimen on reproductive development and performance of gilts through the first pregnancy, 787
Gross anatomical and histomorphometric characteristics of the oviduct and uterus during the pubertal transition in sheep, 167
Growth, puberty, and carcass characteristics of Brahman-, Senepol-, and Tuli-sired F_1 Angus bulls, 2006
Level of dietary energy during prepubertal growth and reproductive development of gilts, 2513
Pulps
Effects of carbohydrates from citrus pulp and hominy feed on microbial fermentation in continuous culture, 2713

Q

Quality
Creatine monohydrate supplemented in swine finishing diets and fresh pork quality: I. A controlled laboratory experiment, 3075
Creatine monohydrate supplemented in swine finishing diets and fresh pork quality: II. Commercial applications, 3081
Quantitative Trait Loci
A whole-genome scan for quantitative trait loci affecting teat number in pigs, 2320
Detection and characterization of quantitative trait loci for meat quality traits in pigs, 2812
Identification of quantitative trait loci affecting reproduction in pigs, 623
Mapping of multiple quantitative trait loci by simple regression in half-sib designs, 616
Potential gain from otpimizing multigeneration selection on an identified quantitative trait locus, 2975
Quantitative Traits
A comprehensive search for quantitative trait loci affecting growth and carcass composition of cattle segregating alternative forms of the myostatin gene, 854
Birth weight QTL on bovine chromosome 2, 68

R

Rabbits
Breed and heterotic effects on postweaning traits in Altex and New Zealand White straightbred and crossbred rabbits, 1173
The effect of litter size before weaning on subsequent body development, feed intake, and reproductive performance of young rabbit does, 1973
Rams
Technical note: Artificial vagina vs a vaginal collection vial for collecting semen from rams, 2964
Rangelands
A comparison of native tallgrass prairie and plains bluestem forage systems for cow-calf production in the Southern Great Plains, 1697
Rats
Complex interaction of ergovaline with 5-HT_{2A}, 5-$HT_{1B/1D}$ and alpha$_1$ receptors in isolated arteries of rat and Guinea Pig, 2202

Rearing Techniques
The effect of litter size before weaning on subsequent body development, feed intake, and reproductive performance of young rabbit does, 1973
Red Deer
Calf growth in captive Iberian red deer (*Cervus elaphus hispanicus*): Effects of birth date and hind milk production and composition, 1085
Regression
Mapping of multiple quantitative trait loci by simple regression in half-sib designs, 616
Reliability
Approximation of reliabilities for multiple-trait model with maternal effects, 833
Repeatability
Genetics of milk yield and fertility traits in Holstein-Friesian cattle on large-scale Kenyan farms, 1742
Reproduction
Candidate gene analysis for loci affecting litter size and ovulation rate in swine, 60
Effects of dietary rice bran, lasalocid, and sex of calf on postpartum reproduction in Brahman cows, 2968
Effects of different patterns of feed restriction and insulin treatment during the luteal phase on reproductive, metabolic, and endocrine parameters in cyclic gilts, 200
Effects of exogenous somatotropin during early gestation on maternal performance, fetal growth, and compositional traits in pigs, 1789
Effects of inorganic and organic copper supplemented to first-calf cows on cow reproduction and calf health and performance, 1650
Effects of postweaning dietary energy source on reproductive traits in primiparous sows, 420
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: II. Reproductive, skeletal, and carcass traits, 52
Identification of quantitative trait loci affecting reproduction in pigs, 623
Influence of undegraded intake protein on reproductive performance of primiparous beef heifers maintained on stockpiled fescue pasture, 574
Prolonged feeding of high dietary levels of organic and inorganic selenium to gilts from 25 kg body weight through one parity, 956
The effect of litter size before weaning on subsequent body development, feed intake, and reproductive performance of young rabbit does, 1973
Reproductive Traits
Comparison of F_1 *Bos indicus* × Hereford cows in central Texas: I. Reproductive maternal, and size traits, 1431
Resistance
Assessment of genetic variability of resistance to gastrointestinal nematode parasites in Creole goats in the humid tropics, 1706
Respiratory Diseases
Spirometric performances in Belgian Blue calves: 1. Effects on economic losses due to the bovine respiratory disease complex, 1301
Restricted Feeding
Influence of feeding level during postweaning growth on circulating concentrations of thyroid hormones and extrathyroidal 5′-deiodination in steers, 2679
Risk Assessment
Transgenesis may affect farm animal welfare: A case for systematic risk assessment, 1763
Roughage
Effect of diets containing *n*–3 fatty acids on muscle long-chain *n*–3 fatty acid content in lambs fed low- and medium-quality roughage diets, 698
Rumen
Effect of feeding frequency on bacterial and fungal concentrations, pH, and other parameters in the rumen, 2908
Effect of heterogeneous digesta chemical composition on the accuracy of measurements of fiber flow in dairy cows, 1611
Effect of nitrogen source in high-concentrate, low-protein beef cattle diets on microbial fermentation studied in vivo and in vitro, 1944
Effects of carbohydrates from citrus pulp and hominy feed on microbial fermentation in continuous culture, 2713
Influence of supplementary fibrolytic enzymes on the fermentation of corn and grass silages by mixed ruminal microorganisms in vitro, 1905
The effect of season and monensin sodium on the digestive characteristics of autumn and spring pasture fed to sheep, 1052
Rumen Digestion
The effect of dietary nitrogen and protein on feed intake, nutrient digestibility, and nitrogen flux across the portal-drained viscera and liver of sheep consuming high-concentrate diets ad libitum, 1322
Rumen Fermentation
Ruminal peptide concentration required to optimize microbial growth and efficiency, 1305
Rumen Metabolism
Effect of ruminal microflora on the biotransformation of netobimin, albendazole, albendazole sulfoxide, and albendazole sulfoxide enantiomers in an artificial rumen, 1288
Resistance of feed enzymes to proteolytic inactivation by rumen microorganisms and gastrointestinal proteases, 1621
Rumen Mucosa
Ergot alkaloid transport across ruminant gastric tissues, 542
Rumen Protozoa
Fermentation characteristics and ruminal ciliate protozoal populations in cattle fed medium- or high-concentrate barley-based diets, 515
In vitro growth and starch digestion by *Entodinium exiguum* as influenced by the presence or absence of live bacteria, 2465
Ruminal Fill
Influence of pregnancy on body weight, ruminal characteristics, and visceral organ mass in beef heifers, 2481
Ruminants
Effects of grain sorghum planting density and processing method on nutrient digestibility and retention by ruminants, 19
Influence of supplementary fibrolytic enzymes on the fermentation of corn and grass silages by mixed ruminal microorganisms in vitro, 1905
Resistance of feed enzymes to proteolytic inactivation by rumen microorganisms and gastrointestinal proteases, 1621
Rumen microbial sequestration of [2-^{13}C]acetate in cattle, 2491
Technical note: Methods for detecting liquid enzyme additives added to animal feeds, 2731

S

Salmonidae
Reproductive efficiency and maternal-offspring transfer of gossypol in Rainbow Trout (*Oncorhynchus mykiss*) fed diets containing cottonseed meal, 1533
Sampling Techniques
Behavioral sampling techniques for feedlot cattle, 1189
Satellite Cells
Coordinate expression of matrix-degrading proteinases and their activators and inhibitors in bovine skeletal muscle, 94
Seasons
Effect of nipple drinker water flow rate and season on performance of lactating swine, 2770
Factors influencing estrus and ovulation in weaned sows as determined by transrectal ultrasound, 2957
Hydrolyzable carbohydrates in pasture, hay, and horse feeds: Direct assay and seasonal variation, 500
The effect of season and monensin sodium on the digestive characteristics of autumn and spring pasture fed to sheep, 1052
Seaweeds
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Selection
Direct and correlated responses to two-stage selection for ovulation rate and number of fully formed pigs at birth in swine, 2286
Genetic correlations for litter weight weaned with growth, prolificacy, and wool traits in Columbia, Polypay, Rambouillet, and Targhee sheep, 339
Growth hormone response to growth hormone-releasing hormone in beef cows divergently selected for milk production, 1295

Increased plasma follicle-stimulating hormone concentrations in prepubertal gilts from lines selected for increased number of corpora lutea, 1877
Nocturnal melatonin and prolactin plasma concentrations in sheep selected for fertility in autumn lambing, 2895
Potential gain from otpimizing multigeneration selection on an identified quantitative trait locus, 2975
Predicting rates of inbreeding for livestock improvement schemes, 840
Selection for lean growth efficiency in Duroc pigs influences pork quality, 2075
The empirical bias of estimates by restricted maximum likelihood, Bayesian method, and Method $\mathfrak{R}$ under selection for additive, maternal, and dominance models, 2991
Utilizing stochastic genetic epidemiological models to quantify the impact of selection for resistance to infectious diseases in domestic livestock, 2057
Selection Criteria
Use of growth hormone response to growth hormone-releasing hormone to determine growth potential in beef heifers, 1566
Selenium
Comparative effects of high dietary levels of organic and inorganic selenium on selenium toxicity of growing-finishing pigs, 942
Effect of dietary selenium source, level, and pig hair color on various selenium indices, 949
Effects of dietary supplementation with vitamin E and organic selenium on the oxidative stability of beef, 2827
Prolonged feeding of high dietary levels of organic and inorganic selenium to gilts from 25 kg body weight through one parity, 956
Selenosis
Prolonged feeding of high dietary levels of organic and inorganic selenium to gilts from 25 kg body weight through one parity, 956
Semen
Technical note: Artificial vagina vs a vaginal collection vial for collecting semen from rams, 2964
The chemotactic properties of porcine seminal components toward neutrophils in vitro, 996
Senescence
Effects of age and recombinant equine somatotropin (eST) administration on immune function in female horses, 2651
Serotonin Receptors
Complex interaction of ergovaline with 5-HT_{2A}, 5-$HT_{1B/1D}$ and $alpha_1$ receptors in isolated arteries of rat and Guinea Pig, 2202
Sexual Behavior
Induction of sexual activity of male creole goats in subtropical northern Mexico using long days and melatonin, 2245
Shade
Shade and water misting effects on behavior, physiology, performance, and carcass traits of heat-stressed feedlot cattle, 2327
Sheep
Behavioral, adrenal, immune, and productive responses of lactating ewes to regrouping and relocation, 1457
Effectiveness of intravaginal progesterone inserts and FSH for inducing synchronized estrus and increasing lambing rate in anestrous ewes, 1120
Effect of feeding frequency on bacterial and fungal concentrations, pH, and other parameters in the rumen, 2908
Effect of forage:concentrate ratio on ruminal digestion and duodenal flow of fatty acids in ewes, 2233
Effect of intracerebroventricular orexin-B on food intake in sheep, 1573
Effects of recombinant ovine leptin on in vitro lipolysis and lipogenesis in subcutaneous adipose tissue from lactating and nonlactating sheep, 445
Genetic and phenotypic parameters for dietary selection of mountain big sagebrush (*Artemisia tridentata* Nutt. ssp. *vaseyana* [Rydb] Beetle) in Rambouillet sheep, 486
Intermuscular variation in tenderness: Association with the ubiquitous and muscle-specific calpains, 122
Intervals from norgestomet withdrawal and injection of equine chorionic gonadotropin or P.G. 600 to estrus and ovulation in ewes, 589
Molecular identification of high-affinity glutamate transporters in sheep and cattle forestomach, intestine, liver, kidney, and pancreas, 1329
Nocturnal melatonin and prolactin plasma concentrations in sheep selected for fertility in autumn lambing, 2895
Oxytocin-induced cervical dilation and cervical manipulation in sheep: Effects on laparoscopic artificial insemination, 568
Preference by sheep and goats among hay of eight tall fescue cultivars, 213
Preference for polyethylene glycol by sheep fed a quebracho tannin diet, 2066
Rapid communication: Microsatellites isolated from BAC clones containing v-akt1 murine thymoma viral oncogene homolog 1 and bradykinin receptor B2 assigned to sheep chromosome 18 by linkage analysis, 551
Rapid communication: Three new allelic sequences at the ovine MHC class II *DQA1* locus, 780
Retention time of macerated alfalfa hay and silage in sheep, 507
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
The effect of season and monensin sodium on the digestive characteristics of autumn and spring pasture fed to sheep, 1052
Zinc and copper status in ewes supplemented with sulfate- and amino acid-complexed forms of zinc and copper, 261
Sheep Breeds
Feeding high levels of vitamin D_3 does not improve tenderness of callipyge lamb loin chops, 2086
Properties of myofibril-bound calpain activity in longissimus muscle of Callipyge and normal sheep, 2097
Short Chain Fatty Acids
Effect of K-diformate in starter diets on acidity, microbiota, and the amount of organic acids in the digestive tract of piglets, and on gastric alterations, 2123
Sieving
Technical note: Use of laser diffraction for particle size distribution measurements in duodenal digesta, 761
Signal Transduction
Analysis of the signal pathways involved in the regulation of fatty acid synthase gene expression by insulin and somatotropin, 1194
Silage
Retention time of macerated alfalfa hay and silage in sheep, 507
Silicon
Supplemental silicon increases plasma and milk silicon concentrations in horses, 2627
Simmental
Performance, carcass characteristics, and lipid metabolism in growing and finishing Simmental steers fed varying concentrations of copper, 2920
Skatole
Vaccination of boars with a GnRH vaccine (Improvac) eliminates boar taint and increases growth performance, 2524
Skeletal Muscle
Coordinate expression of matrix-degrading proteinases and their activators and inhibitors in bovine skeletal muscle, 94
Increased responsiveness to dietary lysine deficiency of pectoralis major muscle protein turnover in broilers selected on breast development, 927
Relationships between behavioral and meat quality characteristics of pigs raised under barren and enriched housing conditions, 2835
Slaughter
Growth and slaughter traits of Boer × Spanish, Boer × Angora, and Spanish goats consuming a concentrate-based diet, 1423
Small Intestine
Influence of α-linked glucose on sodium-glucose cotransport activity along the small intestine in cattle, 1917
Intestinal digestion of dietary and endogenous proteins along the small intestine of calves fed soybean or potato, 2719
In vitro fermentation characteristics of native and processed cereal grains and potato starch using ileal chyme from dogs, 435
Solubility
Chemical characteristics and relative bioavailability of supplemental organic copper sources for poultry, 1132
Somatic Cell Count
Incidence of mastitis in beef cows after intramuscular administration of oxytetracycline, 1996
Somatic cell count determination in cow's milk by near-infrared spectroscopy: A new diagnostic tool, 2550

Somatotropin
Analysis of the signal pathways involved in the regulation of fatty acid synthase gene expression by insulin and somatotropin, 1194
Daily treatment of horses with equine somatotropin from 4 to 16 months of age, 3137
Effects of age and recombinant equine somatotropin (eST) administration on immune function in female horses, 2651
Effects of bovine somatotropin and thyroid hormone status on hormone levels, body weight gain, and mohair fiber growth of Angora goats, 2913
Effects of exogenous somatotropin during early gestation on maternal performance, fetal growth, and compositional traits in pigs, 1789
Genetic variation in stimulated GH release and in IGF-I of young dairy cattle and their associations with the leucine/valine polymorphism in the GH gene, 470
Recombinant bovine somatotropin (rbST) increases size and proportion of fast-glycolytic muscle fibers in semitendinosus muscle of creep-fed steers, 108
Segregation ratios and growth rate in inactive ovine metallothionein 1a-ovine growth hormone transgenic mice, 1734
Transcriptional regulation of fatty acid synthase gene by somatotropin in 3T3-F442A adipocytes, 2336
Sorghum
Effects of grain sorghum planting density and processing method on nutrient digestibility and retention by ruminants, 19
Sow Milk
True ileal digestibility of amino acids in sow's milk for 17-day-old pigs, 707
Sows
Administration of P.G. 600 to sows at weaning and the time of ovulation as determined by transrectal ultrasound, 796
Behavior and performance of lactating sows and piglets reared indoors or outdoors, 2571
Comparative total tract digestibility of dietary energy and nutrients in growing pigs and adult sows, 2418
Dynamic ideal protein and limiting amino acids for lactating sows: The impact of amino acid mobilization, 2356
Effect of energy and lysine intake in gestation on sow performance, 2367
Effect of nipple drinker water flow rate and season on performance of lactating swine, 2770
Effect of nutrient intake in lactation on sow performance: Determining the threonine requirement of the high-producing lactating sow, 2378
Effects of exposure to high ambient temperature and dietary protein level on performance of multiparous lactating sows, 1240
Effects of exposure to high ambient temperature and dietary protein level on sow milk production and performance of piglets, 1540
Effects of postweaning dietary energy source on reproductive traits in primiparous sows, 420
Factors influencing estrus and ovulation in weaned sows as determined by transrectal ultrasound, 2957
Nutrient mobilization from body tissues as influenced by litter size in lactating sows, 2179
Standardized ileal protein and amino acid digestibility by growing pigs and sows, 2113
The regression of unsuckled mammary glands during lactation in sows: The influence of lactation stage, dietary nutrients, and litter size, 2659
Soyabean
Ileal and total tract nutrient digestibilities and fecal characteristics of dogs as affected by soybean protein inclusion in dry, extruded diets, 1523
Soybean Husks
Effects of supplemental alfalfa hay on the digestion of soybean hull-based diets by cattle, 1346
Source and level of energy supplementation for yearling cattle fed ammoniated hay, 1313
Soybean hulls as a primary ingredient in forage-free diets for limit-fed growing cattle, 766
Soybean Meal
Effect of different protein sources on growth and carcass traits in growing–finishing pigs, 2428
Effects of level of supplemental phytase on ileal digestibility of amino acids, calcium, and phosphorus in dehulled soybean meal for growing pigs, 2634
Soybean Oil
Apparent ileal digestibility of amino acids and the digestible and metabolizable energy content of dry extruded-expelled soybean meal and its effects on growth performance of pigs, 1280
Soybean Oilmeal
The effect of dietary nitrogen and protein on feed intake, nutrient digestibility, and nitrogen flux across the portal-drained viscera and liver of sheep consuming high-concentrate diets ad libitum, 1322
Soy Protein
The effect of texturized vegetable protein from soy on nutrient digestibility compared to beef in cannulated dogs, 2162
Spacing
Interaction of swine nursery and grow-finish space allocations on performance, 1967
Species
Technical note: A quick and more sensitive method to identify pork in processed and unprocessed food by PCR amplification of a new specific DNA fragment, 2108
Starch
Influence of α-linked glucose on sodium-glucose cotransport activity along the small intestine in cattle, 1917
In vitro fermentation characteristics of native and processed cereal grains and potato starch using ileal chyme from dogs, 435
Starch Digestion
In vitro growth and starch digestion by *Entodinium exiguum* as influenced by the presence or absence of live bacteria, 2465
Statistical Analysis
Estimation of genetic covariances with Method $\mathfrak{R}$, 605
The Bayesian controversy in animal breeding, 2023
Statistical Genetics
Efficient computation of genotype probabilities for loci with many alleles: I. Allelic peeling, 26
Efficient computation of genotype probabilities for loci with many alleles: II. Iterative method for large, complex pedigrees, 34
Steers
Effect of ruminal protein degradability on growth and N metabolism in growing beef steers, 533
Effects of dietary crude protein concentration during periods of feed restriction on performance, carcass characteristics, and skeletal muscle protein turnover in feedlot steers, 3148
Effects of programmed growth rate and days fed on performance and carcass characteristics of feedlot steers, 1394
Effects of supplemental alfalfa hay on the digestion of soybean hull-based diets by cattle, 1346
Influence of clostridial vaccines and injection sites on performance, feeding behavior, and lesion size scores of beef steers, 1409
Optimization of rate and efficiency of dietary nitrogen utilization through the use of animal by-products and(or) urea and their effects on nutrient digestion in Holstein steers, 753
Performance, carcass characteristics, and lipid metabolism in growing and finishing Simmental steers fed varying concentrations of copper, 2920
Proportion of corn silage in diets of feedlot steers fed to achieve stepwise increases in growth, 1402
Tasco-Forage: II. Monocyte immune cell response and performance of beef steers grazing tall fescue treated with a seaweed extract, 1022
Steroid Hormones
Reproductive efficiency and maternal-offspring transfer of gossypol in Rainbow Trout (*Oncorhynchus mykiss*) fed diets containing cottonseed meal, 1533
Steroids
Effect of excess degradable intake protein on early embryonic development, ovarian steroids, and blood urea nitrogen on days 2, 3, 4, and 5 of the estrous cycle in mature ewes, 193
Stochastic Models
Developing stochastic epidemiological models to quantify the dynamics of infectious diseases in domestic livestock, 2047
Utilizing stochastic genetic epidemiological models to quantify the impact of selection for resistance to infectious diseases in domestic livestock, 2057
Stocking Density
Pasture management effects on diet composition and cattle performance on continuously stocked rhizoma peanut-mixed grass swards, 2456
Stocking Rate

Performance of light vs heavy steers grazing Plains Old World bluestem at three stocking rates, 493
Stockpiling
Effects of calendar date and summer management on the in situ dry matter and fiber degradation of stockpiled forage from *bermudagrass pastures, 3158*
Strain Differences
Increased responsiveness to dietary lysine deficiency of pectoralis major muscle protein turnover in broilers selected on breast development, 927
Stress
Calves' responses to repeated social regrouping and relocation, 2580
Effects of surgical catheterization and degree of isolation on the behavior and exocrine pancreatic secretion of newly weaned *pigs, 1179*
Influence of protein supplementation and implant status on alleviating fescue toxicosis, 827
Transport stress modulates adrenocorticotropin secretion from peripheral bovine lymphocytes, 729
Strongylidae
Assessment of genetic variability of resistance to gastrointestinal nematode parasites in Creole goats in the humid tropics, 1706
Subtropics
Induction of sexual activity of male creole goats in subtropical *northern Mexico using long days and melatonin, 2245*
Suckling
Effect of short-term calf removal at three stages of a follicular wave on fate of a dominant follicle in postpartum beef cows, 2688
Sulfate
Effects of water sulfate concentration on performance, water in*take, and carcass characteristics of feedlot steers, 2941*
Supplementary Feeding
Effect of ruminal vs postruminal administration of degradable *protein on utilization of low-quality forage by beef steers, 225*
Urea and(or) feather meal supplementation for yearling steers *grazing limpograss (Hemarthria altissima* var. 'Floralta') pasture, 3170
Supplements
Influence of pasture sward height and concentrate supplementation on intake, digestibility, and grazing time of lactating beef *cows, 745*
Survival
Effect of oxygen inhalation at birth on the *reduction of early* postnatal mortality in pigs, 5
Survival analysis of lamb mortality in a terminal sire composite *population, 2298*
Sustainability
The "new perception" *of animal agriculture: Legless cows, feath*erless chickens, and a need for genuine analysis, 634
Switchgrass
Urea flux in beef steers: Effects of forage species and nitrogen fertilization, 1937
Synchronization
Effectiveness of GnRH plus prostaglandin $F_{2\alpha}$ for estrus synchronization in cattle of *Bos indicus* breeding, 309
Effect of GnRH pretreatment on reproductive performance of postpartum suckled beef cows following synchronization of estrus *using GnRH and PGF$_{2\alpha}$, 1675*
Efficacy of an intravaginal progesterone insert and an injection *of PGF$_{2\alpha}$ for synchronizing estrus and shortening the interval* to pregnancy in postpartum beef cows, peripubertal beef heifers, and dairy heifers, 982
Improved synchrony of estrus and ovulation with the addition of GnRH to a melengestrol acetate-prostaglandin $F_{2\alpha}$?synchron*ization treatment in beef heifers, 2210*
Inclusion of an intravaginal progesterone insert plus GnRH and prostaglandin $F_{2\alpha}$ for ovulation control in postpartum suckled beef cows, 2253
Intervals from norgestomet withdrawal and injection of equine *chorionic gonadotropin or P.G. 600 to estrus and ovulation* in ewes, 589
Pregnancy rate in beef heifers after synchronization to either random or programmed estrous cycles, 561
Synchronization of ovulation using GnRH or hCG with the CO-Synch protocol in suckled beef cows, 2536
Synchronized Females Ovulation
*Calf removal improves conception rates to the Ovsynch and CO-*Synch protocols, 1
Synthesis
Analysis of the signal pathways involved in the regulation of fatty acid synthase gene expression by insulin and somatotropin, *1194*

T

Tallow
Effects of tallow on the energy metabolism of wethers fed barley finishing diets, 1892
Tannins
Preference for polyethylene glycol by sheep fed a quebracho tannin diet, 2066
Teat Number
A whole-genome scan for quantitative trait loci affecting teat number in pigs, 2320
Temperature
Influence of a high ambient temperature on lipid metabolism in the growing pig, 81
Tenderizing
Effect of postmortem storage on μ-calpain and m-calpain in ovine *skeletal muscle, 1502*
Tenderness
Biological and economic performance of early-weaned Angus steers, 2762
Characterization of biological types of cattle (Cycle V): Carcass *traits and longissimus palatability, 1209*
Consumer impressions of Tender Select beef, 2605
*Consumer thresholds for establishing the value of beef tender*ness, 3062
Effects of supplemental vitamin D_3 on feed intake, carcass characteristics, tenderness, and muscle properties of beef steers, 2844
Evaluation of the Tendertec beef grading instrument to predict the tenderness of steaks from beef carcasses, 688
Feeding high levels of vitamin D_3 does not improve tenderness *of callipyge lamb loin chops, 2086*
Influence of dental carcass maturity classification on carcass *traits and tenderness of longissimus steaks from commer*cially fed cattle, 2092
Intermuscular variation in tenderness: Association with the ubiquitous and muscle-specific calpains, 122
Selection for lean growth efficiency in Duroc pigs influences pork *quality, 2075*
Supranutritional oral supplementation with vitamin D_3 and calcium and the effects on beef tenderness, 912
The effects of Piedmontese inheritance and myostatin genotype on the palatability of longissimus thoracis, gluteus medius, *semimembranosus, and biceps femoris, 3069*
The influence of ultimate pH and intramuscular fat content on *pork tenderness and tenderization, 392*
Testosterone
Early postnatal plasma concentrations of testicular steroid hor*mones, pubertal development,* and carcass leanness as potential indicators of boar taint in market weight intact male *pigs, 1868*
The effect of early postnatal treatment with a gonadotropin-releasing hormone agonist on the developmental profiles of tes*ticular steroid hormones in the intact male pig, 1003*
The effect of early postnatal treatment with a gonadotropin-re*leasing hormone agonist on the developmental profiles of tes*ticular steroid hormones in the intact male pig, 1003
Threonine
Effect of nutrient intake in lactation on sow performance: Determining the threonine requirement of the high-producing *lactating sow, 2378*
Growth of Thoroughbreds fed a low-protein supplement fortified with lysine and threonine, 2143
Influence of threonine intake on whole-body protein deposition and threonine utilization in growing pigs fed purified diets, *3087*
Threshold Models
Comparison of threshold vs linear and animal vs sire models for predicting direct and maternal genetic effects on calving difficulty in beef cattle, 333

Thyroid Hormones
Effects of bovine somatotropin and thyroid hormone status on hormone levels, body weight gain, and mohair fiber growth of Angora goats, 2913
Inflammatory response, growth, and thyroid hormone concentrations are affected by long-term boron supplementation in gilts, 1549
Thyroxine
Influence of feeding level during postweaning growth on circulating concentrations of thyroid hormones and extrathyroidal 5′-deiodination in steers, 2679
Time Allocation
Foodservice yield and fabrication times for beef as influenced by purchasing options and merchandising styles, 3052
Tissue Proliferation
Enterocyte digestive enzyme activity along the crypt-villus and longitudinal axes in the neonatal pig small intestine, 371
Tissues
Incidence of injection-site lesions in beef top sirloin butts, 2615
Titanium Dioxide
Evaluation of titanium dioxide as a digestibility marker for cattle, 1059
Toxicity
Comparative effects of high dietary levels of organic and inorganic selenium on selenium toxicity of growing-finishing pigs, 942
Ergot alkaloid transport across ruminant gastric tissues, 542
Tasco-Forage: II. Monocyte immune cell response and performance of beef steers grazing tall fescue treated with a seaweed extract, 1022
Transcription
Transcriptional regulation of fatty acid synthase gene by somatotropin in 3T3-F442A adipocytes, 2336
Transforming Growth Factor
Effects of growth factors on insulin-like growth factor binding protein (IGFBP) secretion by primary porcine satellite cell cultures, 2820
Transgenic Animals
Transgenesis may affect farm animal welfare: A case for systematic risk assessment, 1763
Transgenics
Segregation ratios and growth rate in inactive ovine metallothionein 1a-ovine growth hormone transgenic mice, 1734
Transit Time
Retention time of macerated alfalfa hay and silage in sheep, 507
Transport
Effect of whole-body vibration in the vertical axis on cortisol and adrenocorticotropic hormone levels in piglets, 975
The influence of farmers' behavior on calves' reactions to transport and quality of veal meat, 642
Transport stress modulates adrenocorticotropin secretion from peripheral bovine lymphocytes, 729
Triiodothyronine
Influence of feeding level during postweaning growth on circulating concentrations of thyroid hormones and extrathyroidal 5′-deiodination in steers, 2679
Tropics
Growth, puberty, and carcass characteristics of Brahman-, Senepol-, and Tuli-sired F_1 Angus bulls, 2006

U

Udders
Comparison of F_1 *Bos indicus* × Hereford cows in central Texas: II. Udder, mouth, longevity, and lifetime productivity, 1439
Ultrasound
Early weaning and postweaning nutritional management affect feedlot performance of Angus × Simmental heifers and the relationship of 12th rib fat and marbling score to feed efficiency, 1660
Evaluation of ultrasound imagery and body shape to predict carcass and fillet yield in farm-raised catfish, 1483
Genetic correlation estimates between ultrasound measurements on yearling bulls and carcass measurements on finished steers, 2790
Genetic parameters for ultrasound and carcass measures of yield and quality among replacement and slaughter beef cattle, 3008
Gluteus medius and rump fat depths as additional live animal ultrasound measurements for predicting retail product and trimmable fat in beef carcasses, 1378
Predicting percentage of intramuscular fat using two types of real-time ultrasound equipment, 11
Unsaturated Fatty Acids
Effect of dietary modification of muscle long-chain *n*–3 fatty acid on plasma insulin and lipid metabolites, carcass traits, and fat deposition in lambs, 895
Effect of diets containing *n*–3 fatty acids on muscle long-chain *n*–3 fatty acid content in lambs fed low- and medium-quality roughage diets, 698
Total body electrical conductivity (TOBEC) measurement of compositional differences in hams, loins, and bellies from conjugated linoleic acid (CLA)-fed stress-genotype pigs, 1475
Urea
Effect of nitrogen source in high-concentrate, low-protein beef cattle diets on microbial fermentation studied in vivo and in vitro, 1944
Effect of ruminal protein degradability on growth and N metabolism in growing beef steers, 533
Optimization of rate and efficiency of dietary nitrogen utilization through the use of animal by-products and(or) urea and their effects on nutrient digestion in Holstein steers, 753
The effect of dietary nitrogen and protein on feed intake, nutrient digestibility, and nitrogen flux across the portal-drained viscera and liver of sheep consuming high-concentrate diets ad libitum, 1322
Urea Kinetics
Urea flux in beef steers: Effects of forage species and nitrogen fertilization, 1937
Urine
Dietary adipic acid reduces ammonia emission from swine excreta, 2412
Effect of ruminal protein degradability on growth and N metabolism in growing beef steers, 533
Uterus
Gross anatomical and histomorphometric characteristics of the oviduct and uterus during the pubertal transition in sheep, 167
Intravenous infusion of iron and tetrahydrofolate does not influence intrauterine uteroferrin and secreted folate-binding protein content in swine, 188
The influence of the phase of the estrous cycle on sheep endometrial tissue response to lipopolysaccharide, 463

V

Vaccines
Influence of clostridial vaccines and injection sites on performance, feeding behavior, and lesion size scores of beef steers, 1409
Vaccination of boars with a GnRH vaccine (Improvac) eliminates boar taint and increases growth performance, 2524
Valine
Branched-chain amino acids for growing cattle limit-fed soybean hull-based diets, 2747
Valine requirement of nursery pigs, 1223
Valuation
Consumer thresholds for establishing the value of beef tenderness, 3062
Variance
The empirical bias of estimates by restricted maximum likelihood, Bayesian method, and Method $\Re$ under selection for additive, maternal, and dominance models, 2991
Variance Covariance Matrix
Estimation of genetic covariances with Method $\Re$, 605
Variation
Influence of free-choice vs mixed-ration diets on food intake and performance of fattening calves, 3034
Varieties
Influence of free-choice vs mixed-ration diets on food intake and performance of fattening calves, 3034
Veal
Calves' responses to repeated social regrouping and relocation, 2580

The influence of farmers' behavior on calves' reactions to transport and quality of veal meat, 642
Vegetables
Fruit and vegetable fiber fermentation by gut microflora from canines, 919
Very Low Density Lipoproteins
Influence of a high ambient temperature on lipid metabolism in the growing pig, 81
Vetch
Crude protein fractions in common vetch (*Vicia sativa* L.) fresh forage during pod filling, 2449
Vibration
Effect of whole-body vibration in the vertical axis on cortisol and adrenocorticotropic hormone levels in piglets, 975
Vicia sativa
Crude protein fractions in common vetch (*Vicia sativa* L.) fresh forage during pod filling, 2449
Viral Replication
The effect of dietary soy daidzein on pig growth and viral replication during a viral challenge, 3113
The effect of dietary soy genistein on pig growth and viral replication during a viral challenge, 1272
Visceral Organ Weight
Influence of pregnancy on body weight, ruminal characteristics, and visceral organ mass in beef heifers, 2481
Vitamin D_3
Feeding high levels of vitamin D_3 does not improve tenderness of callipyge lamb loin chops, 2086
Vitamin D
Effects of supplemental vitamin D_3 on feed intake, carcass characteristics, tenderness, and muscle properties of beef steers, 2844
Vitamin E
Antioxidant status affects color stability and tenderness of calcium chloride-injected beef, 666
Effect of supplemental vitamins and trace minerals on performance and carcass quality in finishing pigs, 141
Effects of dietary supplementation with vitamin E and organic selenium on the oxidative stability of beef, 2827
Effects of three levels of α-tocopheryl acetate supplementation to feedlot cattle on performance of beef cuts during retail display, 1814
Tasco-Forage: IV. Influence of a seaweed extract applied to tall fescue pastures on sensory characteristics, shelf-life, and vitamin E status in feedlot-finished steers, 884
Vitamin-mineral supplementation and accelerated chilling effects on quality of pork from pigs that are monomutant or noncarriers of the halothane gene, 2346
Vitamins
Effect of supplemental vitamins and trace minerals on performance and carcass quality in finishing pigs, 141
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Tasco-Forage: I. Influence of a seaweed extract on antioxidant activity in tall fescue and in ruminants, 1011
Vitrification
Technical note: Vitrification of goat embryos by the open pulled-straw method, 2436
Volatile Fatty Acids
Accumulation and consumption of odorous compounds in feedlot soils under aerobic, fermentative, and anaerobic respiratory conditions, 2503
Rumen microbial sequestration of [2-^{13}C]acetate in cattle, 2491

W

Water
Shade and water misting effects on behavior, physiology, performance, and carcass traits of heat-stressed feedlot cattle, 2327
Water Holding Capacity
Selection for lean growth efficiency in Duroc pigs influences pork quality, 2075
Water Intake
Effects of water sulfate concentration on performance, water intake, and carcass characteristics of feedlot steers, 2941
Weaning
Early weaning and postweaning nutritional management affect feedlot performance of Angus × Simmental heifers and the relationship of 12th rib fat and marbling score to feed efficiency, 1660
Effect of group size on pig performance in a wean-to-finish production system, 1067
Effect of pharmacological concentrations of zinc oxide with or without the inclusion of an antibacterial agent on nursery pig performance, 934
Effect of weaning status and implant regimen on growth, performance, and carcass characteristics of steers, 1074
Individually measured feed intake characteristics and growth performance of group-housed weanling pigs: Effects of sex, initial body weight, and body weight distribution within groups, 301
Weaning Weight
Genetic (co)variances for calving difficulty score in composite and parental populations of beef cattle: I. Calving difficulty score, birth weight, weaning weight, and postweaning gain, 45
Incidence of mastitis in beef cows after intramuscular administration of oxytetracycline, 1996
Relationship between terrain use and performance of beef cows grazing foothill rangeland, 1883
Weight
Assessment of genetic variability of resistance to gastrointestinal nematode parasites in Creole goats in the humid tropics, 1706
Weight Gain
Effects of programmed growth rate and days fed on performance and carcass characteristics of feedlot steers, 1394
Production performance of beef cows raised on three different nutritionally controlled heifer development programs, 819
Proportion of corn silage in diets of feedlot steers fed to achieve stepwise increases in growth, 1402
Welfare
Behavior, reproduction, and immunity of crated pregnant gilts: Effects of high dietary fiber and rearing environment, 1466
Wethers
Effects of tallow on the energy metabolism of wethers fed barley finishing diets, 1892
The effect of dietary nitrogen and protein on feed intake, nutrient digestibility, and nitrogen flux across the portal-drained viscera and liver of sheep consuming high-concentrate diets ad libitum, 1322
Wheat
A comparison of native tallgrass prairie and plains bluestem forage systems for cow-calf production in the Southern Great Plains, 1697
Impact of different wheat milling by-products in supplements on the forage use and performance of beef cattle consuming low-quality, tallgrass-prairie forage, 2472
Wheat Shorts
Ileal digestibilities of neutral detergent fiber, crude protein and amino acids associated with neutral detergent fiber in wheat shorts for growing pigs, 2388
Wheat Straw
Chemical, physical, and environmental properties of pelleted newspaper compared to wheat straw and wood shavings as bedding for horses, 1359
Wood Shavings
Chemical, physical, and environmental properties of pelleted newspaper compared to wheat straw and wood shavings as bedding for horses, 1359
Wool
Fiber characteristics of qiviut and guard hair from wild muskoxen (*Ovibos moschatus*), 1670
Genetic correlations for litter weight weaned with growth, prolificacy, and wool traits in Columbia, Polypay, Rambouillet, and Targhee sheep, 339
Wool Producing Animals
Fiber characteristics of qiviut and guard hair from wild muskoxen (*Ovibos moschatus*), 1670

X

X-Ray
Total body and regional measurements of bone mineral content and bone mineral density in pigs by dual energy X-ray absorptiometry, 2594

Xylan 1,4-β-Xylosidase
Technical note: Methods for detecting liquid enzyme additives added to animal feeds, 2731

Y

Yields
Effects of nitrogen fertilization and harvest date on yield, digestibility, fiber, and protein fractions of tropical grasses, 2439
Foodservice yield and fabrication times for beef as influenced by purchasing options and merchandising styles, 3052
Yucca schidigera
Dietary manipulation to reduce aerial ammonia concentrations in nursery pig facilities, 3096

Z

Zebu Breeds
Estimates of covariance functions for growth from birth to 630 days of age in Nelore cattle, 2776
Zebu
Comparison of F_1 *Bos indicus* × Hereford cows in central Texas: II. Udder, mouth, longevity, and lifetime productivity, 1439
Comparison of F_1 *Bos indicus* × Hereford cows in central Texas: I. Reproductive maternal, and size traits, 1431
Effectiveness of GnRH plus prostaglandin $F_{2\alpha}$ for estrus synchronization in cattle of *Bos indicus* breeding, 309
Zinc
Effect of pharmacological concentrations of zinc oxide with or without the inclusion of an antibacterial agent on nursery pig performance, 934
Zinc and copper status in ewes supplemented with sulfate- and amino acid-complexed forms of zinc and copper, 261
Zinc Oxide
Effect of pharmacological concentrations of zinc oxide with or without the inclusion of an antibacterial agent on nursery pig performance, 934
Zinc Sulfate
Zinc and copper status in ewes supplemented with sulfate- and amino acid-complexed forms of zinc and copper, 261

Subject index for Vol. 79, E-Supplement
www.asas.org/jas/JAS79Esupp.htm
(2000 annual meeting symposia)

A

Absorption
Glucose uptake and regulation by intestinal tissues: Implications and whole-body energetics, 59
Adipose Tissue
Acetyl-CoA carboxylase-α: Gene structured-function relationships, 136
Amino Acids
Amino acid nutrition: Demand and supply in forage-fed ruminants, 180
Animals
Impact of biotechnology on trade: The European viewpoint concerning animal feeds, 86
Animal Welfare
Behavioral research and its application to livestock transport and policy: A European perspective, 159
Cattle transport: Historical, research, and future perspectives, 102
The history and development of European and North American transport regulations and international trade issues, 73
Anorexia
Tumor necrosis factor α and leptin: Two players in an animal's metabolic and immunologic responses to infection, 118
Appetite
Overview of central targets for appetite regulation, 148

B

Beef
Genetic evaluation for beef carcass traits, 190
Implant strategies in an integrated beef production system, 110
Role of nutrition in reducing antemortem stress and meat quality aberrations, 91
Behavior
A review of recent research on the transportation of horses, 32
Behavioral research and its application to livestock transport and policy: A European perspective, 159
The biology of stress and its application to livestock housing and transportation assessment, 260
Biotechnology
Environmental impact of biotech crops, 144

C

Carcass Composition
Use of sire referencing schemes to select for improved carcass composition in sheep, 255
Carcass Quality
Genetic evaluation for beef carcass traits, 190
Implant strategies in an integrated beef production system, 110
Optimizing carcass value and the use of anabolic implants in beef cattle, 296
Cattle
Advances in bermudagrass research involving new cultivars for beef and dairy production, 48
Behavioral research and its application to livestock transport and policy: A European perspective, 159
Cattle transport: Historical, research, and future perspectives, 102
Optimizing carcass value and the use of anabolic implants in beef cattle, 296
Perspectives on transportation issues: The importance of having physically fit cattle and pigs, 201
Cynodon dactylon
Advances in bermudagrass research involving new cultivars for beef and dairy production, 48
Composition
Optimizing carcass value and the use of anabolic implants in beef cattle, 296
Cytokines
At the interface of environment-immune interactions: cytokine and growth-factor receptors, 268
Tumor necrosis factor α and leptin: Two players in an animal's metabolic and immunologic responses to infection, 118

D

Dairy Cattle
Dairy cattle genomics: Tools to accelerate genetic improvement?, 307
Effects of grain variability and processing on starch utilization by lactating dairy cattle, 218
Dairy Research
Effects of breed, management system, and nutrition on milk yield and milk composition of dairy sheep, 16
Dark Cutting Meat
Livestock-handling quality assurance, 239
Detergents
Estimating forage protein degradation in the rumen, 208
Digestion
Glucose uptake and regulation by intestinal tissues: Implications and whole-body energetics, 59

E

East Friesian (Sheep Breed)
Effects of breed, management system, and nutrition on milk yield and milk composition of dairy sheep, 16
Economics
Economic factors associated with livestock transportation, 166
Eggs
The fate of plant DNA and novel proteins in feeds for farm livestock: A United Kingdom perspective, 290
Endocrinology
Regulation of the acid-labile subunit of the 150-kDa IGF-binding protein complex and its role in the circulating IGF system, 41
Environmental impact
Environmental impact of biotech crops, 144
Europe
Impact of biotechnology on trade: The European viewpoint concerning animal feeds, 86

F

Farm Animal
The biology of stress and its application to livestock housing and transportation assessment, 260
Fatty Acids
Genetic and nutritional effects on lamb flavor, 249
Feed Grains
Effects of grain variability and processing on starch utilization by lactating dairy cattle, 218
Feeding Behavior
The future of feed intake regulation research, 171
Feed Intake
Overview of central targets for appetite regulation, 148
Tumor necrosis factor α and leptin: Two players in an animal's metabolic and immunologic responses to infection, 118
Feeds
Impact of biotechnology on trade: The European viewpoint concerning animal feeds, 86

Flavor
Genetic and nutritional effects on lamb flavor, 249
Food Safety
Transgenic livestock: Regulation and science in a changing environment, 1
Forage
Advances in bermudagrass research involving new cultivars for beef and dairy production, 48
Amino acid nutrition: Demand and supply in forage-fed ruminants, 180
Estimating forage protein degradation in the rumen, 208

G

Gene Expression
Genomics techniques: An overview of methods for the study of gene expression, 128
Increasing cloning efficiencies requires a better understanding of developmental abnormalities and gene expression in manipulated embryos, 285
Genetically Modified Crops
The fate of plant DNA and novel proteins in feeds for farm livestock: A United Kingdom perspective, 290
Genetic Improvement
Use of sire referencing schemes to select for improved carcass composition in sheep, 255
Genetic Markers
Dairy cattle genomics: Tools to accelerate genetic improvement?, 307
Genetic evaluation for beef carcass traits, 190
Genetics
Transgenic livestock: Regulation and science in a changing environment, 1
Genetic Transformation
Environmental impact of biotech crops, 144
Gene Transfer
Environmental impact of biotech crops, 144
Genomic Analysis
Dairy cattle genomics: Tools to accelerate genetic improvement?, 307
Glucose
Glucose uptake and regulation by intestinal tissues: Implications and whole-body energetics, 59
Grazing
Advances in bermudagrass research involving new cultivars for beef and dairy production, 48
Growth
Optimizing carcass value and the use of anabolic implants in beef cattle, 296
Growth Inhibitors
At the interface of environment-immune interactions: cytokine and growth-factor receptors, 268
Growth Promoters
At the interface of environment-immune interactions: cytokine and growth-factor receptors, 268

H

Handling
Economic factors associated with livestock transportation, 166
Livestock-handling quality assurance, 239
Hay
Advances in bermudagrass research involving new cultivars for beef and dairy production, 48
Health
Tasco: Influence of a brown seaweed on antioxidants in forages and livestock—A review, 21
Herbicide Resistance
Environmental impact of biotech crops, 144
Horses
A review of recent research on the transportation of horses, 32
Evolution of the proposed federal slaughter horse transport regulations, 12
Housing
The biology of stress and its application to livestock housing and transportation assessment, 260

I

Immunology
Tasco: Influence of a brown seaweed on antioxidants in forages and livestock—A review, 21
Implantation
Implant strategies in an integrated beef production system, 110
Optimizing carcass value and the use of anabolic implants in beef cattle, 296
Insulin
Acetyl-CoA carboxylase-α: Gene structured-function relationships, 136
Insulin-like Growth Factor
At the interface of environment-immune interactions: cytokine and growth-factor receptors, 268
Regulation of the acid-labile subunit of the 150-kDa IGF-binding protein complex and its role in the circulating IGF system, 41

K

Kosher Food
Livestock-handling quality assurance, 239

L

Laboratory Methods
Genomics techniques: An overview of methods for the study of gene expression, 128
Lambs
Genetic and nutritional effects on lamb flavor, 249
Leanness
Swine nutrition and pork quality: A review, 316
Legislation
The history and development of European and North American transport regulations and international trade issues, 73
Leptin
Tumor necrosis factor α and leptin: Two players in an animal's metabolic and immunologic responses to infection, 118
Liver
Regulation of the acid-labile subunit of the 150-kDa IGF-binding protein complex and its role in the circulating IGF system, 41
Livestock
Genomics techniques: An overview of methods for the study of gene expression, 128
Overview of central targets for appetite regulation, 148
The fate of plant DNA and novel proteins in feeds for farm livestock: A United Kingdom perspective, 290
Livestock Transporters
Economic factors associated with livestock transportation, 166

M

Mammary Glands
Acetyl-CoA carboxylase-α: Gene structured-function relationships, 136
Management
Economic factors associated with livestock transportation, 166
Meat
The fate of plant DNA and novel proteins in feeds for farm livestock: A United Kingdom perspective, 290
Meat Quality
Role of nutrition in reducing antemortem stress and meat quality aberrations, 91
Swine nutrition and pork quality: A review, 316
Milk
Effects of breed, management system, and nutrition on milk yield and milk composition of dairy sheep, 16
The fate of plant DNA and novel proteins in feeds for farm livestock: A United Kingdom perspective, 290

N

Nucleic Acids
The fate of plant DNA and novel proteins in feeds for farm livestock: A United Kingdom perspective, 290

Nutrient Requirements
Amino acid nutrition: Demand and supply in forage-fed ruminants, 180
Nutrition
Role of nutrition in reducing antemortem stress and meat quality *aberrations, 91*
Swine nutrition and pork quality: A review, 316

P

Physiology
The biology of stress and its application to livestock housing and transportation assessment, 260
Pigs
Behavioral research and its application to livestock transport and policy: A European perspective, 159
Perspectives on transportation issues: The importance of having physically fit cattle and pigs, 201
Swine nutrition and pork quality: A review, 316
Porcine Stress Syndrome
Livestock-handling quality assurance, 239
Pork
Role of nutrition in reducing antemortem stress and meat quality aberrations, 91
Swine nutrition and pork quality: A review, 316
Protein Degradation
Estimating forage protein degradation in the rumen, 208
Proteins
The fate of plant DNA and novel proteins in feeds for farm livestock: A United Kingdom perspective, 290
Purines
Estimating forage protein degradation in the rumen, 208

Q

Quails
Behavioral research and its application to livestock transport and *policy: A European perspective, 159*
Quantitative Trait Loci
Genetic evaluation for beef carcass traits, 190

R

Rabbits
How to feed the rabbit (*Oryctolagus cuniculus*) gastrointestinal tract, 343
Receptors
At the interface of environment-immune interactions: cytokine and *growth-factor receptors, 268*
Regulations
Environmental impact of biotech crops, 144
Evolution of the proposed federal slaughter horse transport regulations, 12
Transgenic livestock: Regulation and science in a changing environment, 1
Reviews
Swine nutrition and pork quality: A review, 316
Ruminants
Amino acid nutrition: Demand and supply in forage-fed ruminants, 180
Glucose uptake and regulation by intestinal tissues: Implications and whole-body energetics, 59

S

Seaweeds
Tasco: Influence of a brown seaweed on antioxidants in forages and livestock—A review, 21
Sheep
Effects of breed, management system, and nutrition on milk yield and milk composition of dairy sheep, 16
Use of sire referencing schemes to select for improved carcass composition in sheep, 255
Slaughter
Livestock-handling quality assurance, 239
Small Instestine
Glucose uptake and regulation by intestinal tissues: Implications and whole-body energetics, 59
Somatotropin
Regulation of the acid-labile subunit of the 150-kDa IGF-binding protein complex and its role in the circulating IGF system, 41
Starch Digestion
Effects of grain variability and processing on starch utilization by lactating dairy cattle, 218
Stress
A review of recent research on the transportation of horses, 32
Cattle transport: Historical, research, and future perspectives, 102
Economic factors associated with livestock transportation, 166
Tasco: Influence of a brown seaweed on antioxidants in forages and *livestock—A review, 21*
The biology of stress and its application to livestock housing and transportation assessment, 260

T

Techniques
Genomics techniques: An overview of methods for the study of gene expression, 128
Transcription
Regulation of the acid-labile subunit of the 150-kDa IGF-binding *protein complex and its role in the circulating IGF system, 41*
Transgenic Animals
The future of feed intake regulation research, 171
Transgenic Plants
Impact of biotechnology on trade: The European viewpoint concerning animal feeds, 86
Transgenics
Increasing cloning efficiencies requires a better understanding of *developmental abnormalities and gene expression in manipulated embryos, 285*
Transportation
The biology of stress and its application to livestock housing and transportation assessment, 260
Transport
A review of recent research on the transportation of horses, 32
Behavioral research and its application to livestock transport and policy: A European perspective, 159
Cattle transport: Historical, research, and future perspectives, 102
Evolution of the proposed federal slaughter horse transport regulations, 12
Perspectives on transportation issues: The importance of having *physically fit cattle and pigs, 201*
Transporting Quality
The history and development of European and North American transport regulations and international trade issues, 73
Transport of Animals
The history and development of European and North American transport regulations and international trade issues, 73
Tumor Necrosis Factor
At the interface of environment-immune interactions: cytokine and growth-factor receptors, 268
Tumor necrosis factor α and leptin: Two players in an animal's metabolic and immunologic responses to infection, 118

U

Ultrasound
Genetic evaluation for beef carcass traits, 190

W

Welfare
Evolution of the proposed federal slaughter horse transport regulations, 12
Perspectives on transportation issues: The importance of having physically fit cattle and pigs, 201

Author index for Volume 79, Supplement 1
(Joint annual meeting abstracts, 2001)

Please Note:

The Author Index is created directly and automatically from the abstracts. For example, if an author's name is typed differently on multiple abstracts, the entries in the author index will reflect these discrepancies. Efforts have been made to make this index consistent.

Author index for Volume 79, Supplement 2
(Sectional abstracts for Southern, Northeast, Midwestern, and Western Sections, 2001)

Please Note:
The Author Index is created directly and automatically from the abstracts. For example, if an author's name is typed differently on multiple abstracts, the entries in the author index will reflect these discripancies. Efforts have been made to make this index consistent.
